5.3	Selecting aircraft instrument panel	
5.4	Checking touch screen operation	
5.5	Checking Knobster is selected	
6	Starting X-Plane 11 software	
6.1	Progress bar while loading	
6.2	Verifying Air Manager found X-plane	
6.3	X-plane menu choices (New Flight)	
6.4	Selecting the aircraft	
6.5	Selecting the airport and starting location	
6.6	Selecting the weather	
6.7	Selecting the time of day	
6.8	Starting the flight	
7	Air Manager details	
7.1	Deselect Knobster operation	
7.2	Launching the instrument panel	
7.3	Toggle switch operation	
7.4	Single knob operation	
7.5	Concentric knob operation (Garmin)	
7.6	Closing the panel (without exiting AM)	
7.7	Selecting Knobster operation	
7.8	Relaunching the instrument panel	
7.9	Single knob operation	
7.10	Concentric knob operation (Garmin)	
7.11	Switch synchronization with panel	
7.12	Magnetic compass VS DG	
7.13	Accessing fuel selector switch	
8	Button Box Operations	
8.1	Reduced need for keyboard	
8.2	Changing views during flight	
8.3	'90 degrees left or right	
8.4	Chase view VS circle view	
8.5	View movement buttons	
8.6	Mouse scroll wheel zoom	
9	Pitch Trim Control Operations	
9.1	Via touch screen	
9.2	Mechanical via Cessna trim wheel	
9.3	Electric via yoke switches
