President's Message

It seems that I have just arrived back from Sun 'n Fun, but that was already almost a month ago! The airshow helped to re-ignite my enthusiasm for building and flying. The grounds around our hanger at CYRP have dried out enough to make getting around easy, so I hope to be spending more time there. I expect activity to be picking up quite a bit, as there are a good number of aircraft that are approaching the final construction and testing phase.

April Meeting Summary

At our April meeting Andrew DePippo gave us a wonderful animated presentation on the construction of his new Murphy Rebel. Andy's plane has been occupying our EAA hanger a good number of the times this past fall and winter. I have been there lately, and it looks fantastic. Thanks to Andrew for the presentation and special thanks to the animator and presentation publisher!

Andrew has also recently had a successful first flight. Congratulations!

EAA Chapter 245 attends OFC's Grass Roots Aviation Day

Curtis Hillier and John Montgomery represented Chapter 245 at this years Grass Roots aviation day, organized and hosted by the Ottawa Flying Club. Exhibiting this year were the EAA, the 99's, CASARA, Vintage Wings, Hope Air, Challenger Ottawa, the Ottawa Air Show, Ottawa Aviation Services, COPA, CFRC, West Capital Developments and the Classic Air Rallye. Thanks for getting awareness of the EAA out there guys.

Amateur Built Handbook and Ultralight Summary received from EAA Canadian Council

I have received updated copies of the "Info-To-Go Builders Handbook, Amateur built aircraft", and the "Ultralight Summary" from the EAA Canadian Council. I will bring these with me to the May meeting and let everyone have a look. We will also be keeping

these in our library so they can be referenced by our builders.

EAA makes special efforts to improve value for Canadian members

In mid April I received a letter from Tom Poberezny detailing how the EAA is working to improve membership value for Canadian members. I read this out at the April meeting, but am also including it in this newsletter for the benefit of those members who weren't in attendance.

Upcoming Meetings

The next regular meeting will be held at 8:00PM on Thursday, May 15th at the Canadian Aviation Museum in the Bush Theatre.

This month John Phillips will talk about new developments at the carp airport.

Hoping to see you all at the May meeting, and as always-
Blue Skies, Martin

Dear Martin,

EAA and Canada

We recently restructured EAA's headquarters staff, with an overall goal of providing the EAA Membership with improved service in core areas such as Publications, Websites, Chapters, Aviation Services and Government Relations.

The reason for this letter is to let you know that we are also planning to make special efforts to improve the value provided to EAA's membership in Canada.

As you may already have noticed, we worked hard to make sure that Canada was fully served by the new EAA online Calendar of Events (www.eaacalendar.org). This included entering information for over 800 Canadian airports into our database by hand, so the calendar could automatically generate maps and basic flight planning data. Hopefully the calendar will prove to be a useful resource to the aviation community in the months and years ahead.

Our next step will come in May 2008, when we plan to launch a brand new electronic newsletter designed exclusively for EAA members in Canada. Edited by Jack Dueck of EAA Chapter 1410 in High River, Alberta, the newsletter will be delivered by email each month to all EAA members in Canada, and will feature news, events, features and activities from across the country. Past newsletters will be archived on the web.

Jack will be working closely with EAA Headquarters staff to produce the newsletter, which we hope will become a valuable resource for the Canadian EAA community. If you have any story ideas or suggestions for Jack he would be delighted to hear from you via email at jdueck@eaa.org.

Finally for now, we are also looking ahead to the next year and ways that EAA can support celebrations of the 100th anniversary of powered flight in Canada. One idea that has already come up is to make the anniversary a theme of AirVenture 2009, with special displays and activities.

After an unusually hard winter here in Oshkosh, we are all looking forward to better flying weather!

Sincerely,

Tom Poberezny
President, EAA

Aviation humour

From AVwebFlash Volume 14, Number 19a May 5th , 2008

SHORT FINAL

On a Qantas flight from Adelaide to Perth last week, our lovely senior air steward announced the following after the doors closed:

turn off all electronic devices such as laptops, mobile phones, washing machines and hairdryers. However, if they have a flight mode, please switch now."

It made me smile; must be hard to repeat the same thing every flight.

D. Dann
via e-mail

Over the Speaker:

"Ladies and gentleman, please

Local News

Mark Briggs sent in this picture of Andrew and Craig after the first flight of Andrew's amphibious Murphy Rebel.

Fellow Aviation Enthusiasts,

As well, this is the 50th Anniversary of Fly Day which is a charity Fundraiser for the Ottawa Rotary Home... every year we fly over 350 people to raise funds for this very worthwhile event. We use our club planes as well as assistance from Private owners who receive a charitable tax receipt for their time & hours and we pay for the fuel. We normally have 12 to 14 aircraft but realistically need 20 or so.... this year Fly Day is on Saturday May 31. Any way you can ask your membership if anyone might be interested and if you would have an AGM or upcoming meeting where I and a representative from the Rotary Club could come and talk about the home.

<http://www.rotaryhome.on.ca/>

<http://www.orhfoundation.ca/>

Many thanks for your help and hope to hear from you soon.

My work coordinates are below and my cell phone is 613 852 6679....

Thanks again...

EAA 245 Fly-in / Drive-in Breakfast

It's never too early to start marking your calendars for this year's Chapter Fly-in Breakfast – the date is Sunday August 10 at the Chapter hanger at the Carp Airport. Again this year, we will be looking for volunteers for the clean up/ set up day (Saturday August 9) and for the Breakfast. Please lend a hand if you can.

History of EAA Chapter 245

Wayne Griese has been compiling a history of Chapter EAA245 back to its inception in the early 1970's. He has managed to assemble many of the past editions of the Chapter Newsletter but many are still missing from the collection. If you have any old newsletters that you could give or loan to Wayne, please contact him at wayner@igs.net.

Aluminum Pop Can Recycling Program

As most of you know Irving Sloan has been running an aluminum pop can recycling program on behalf of the Chapter for more than a year. All funds raised are donated to the Chapter to cover our operating expenses. Please donate your pop cans to this program, either by dropping them off at the Chapter hanger at the Carp Airport or by bring them to the Chapter meetings at the Aviation Museum – let's all support Irving's work.

EXHAUST - from the Carb Heat Archives

20 YEARS AGO May 1988

The May 1988 meeting of EAA Chapter 245 was held at the Carp Hangar.

Thirty-eight members and fourteen guests attended. Of interest to new members, it was noted, is the various types of material used in building light homebuilt aircraft – wood, steel tube, sheet aluminum and composites. Club representatives spoke about working with each of these

types, addressing four basic questions – why did you decide on the type of construction you chose? – how have you found working with it? – have you encountered any particular problem with this type of construction? – if starting a new project would you go this route again?.

Improvements were being made to the facilities including digging a well and locating a

water pump and pressure tank. “Now if we can only join them all together into a working pressure system” wrote President Doug Richardson. A stairwell was being built to the storage loft in the hangar and the purchasing and installation of drywall was planned for the summer of 1988.

Wayne Griese.

Can you help fill in the white blanks? I have the grey issues. I'm looking for old issues of Carb Heat for our Archives. Please contact Wayne Griese at 613-256-5439 or wayner@igs.net.

MRV Fly-in at Akron Ohio

North East EAA Chapter Members, Presidents,
Board Members,

Please post the attached brochure/advertisement at your Chapter locations. The "Akron 7" guys are planning a good RV turnout on June 7, anyone can attend and all are welcome. Make plans for ride arrangements now for a fun time in Akron you can contact Don Trainer (see e-mail address above) if you wish to respond or have questions.

While I have your ear don't forget to mark your calendars for the fall 2008 North East Builders/RV Forum planned for September 12-14 at Oswego County Airport KFZY Fulton, New York. Last year we expanded the forum to all aircraft and had many hands on demonstrations for aircraft covering, rib building, welding only to mention a few of the activities, including many presentations from speakers on various subjects such as First Flights, LSA Regs. to name a few. The response from many of your members was impressive. We are an educational chapter and this year we will introduce our new "Builders Corner Facility" we just completed within the hanger. This will be the best year ever!

See you all at Akron,

Steve

VAN'S AIRFORCE AT AKRON AIRPORT, N.Y.

IS SPONSORING AN RV FLY-IN.

Seven RV pilots at Akron Airport (9G3) have decided to throw a party and invite other RV flyers and builders to an afternoon of fun. What can be more fun than to see each other's planes, trade tips and stories and get to know each other.

GRILLED HOT DOGS, CHIPS AND POP ARE A \$1.00 AND WE ARE PASSING OUT A GUIDE FOR THOSE OF YOU WHO WANT TO FLY OVER NIAGARA FALLS. THE FALLS IS JUST 10 MINUTES AWAY AND IS A SPECTACULAR SIGHT FROM THE COCKPIT OF AN RV. I THINK YOU MIGHT WANT TO BRING YOUR CAMERA FOR SOME AERIAL SHOTS.

Date: JUNE 7th
Rain Date: JUNE 14th
Time: 11 AM to 4 PM
Where: 9G3 approximately 15 east of Buffalo Airport.
Frequency: 122.725
Airport #: 716-542-4607
RSVP: WOULD BE MOST HELPFUL AT E-MAIL ADDRESS, DTDragger @ gmail .com. Or Call 716-542-4607.

We have invited a number of EAA chapters so people working on their projects can get to see and ask questions of those who preceded them, in building up their RV projects. If you know of anyone else who might like to attend this afternoon of fun please encourage them to come along.

HOPE TO MEET YOU AND YOUR RV ON JUNE 7TH! In the meantime happy flying from the AKRON SEVEN!

Mark your Calendars:

Some items have been copied from the COPA Flight and the EAA website

Picton, ON: Breakfast on the second Sunday of every month - starting in April (call for runway conditions during winter) at the Prince Edward Flying Club - Picton Airport (CNT7). For more information call 613-399-9076.

MAY

May 10th, Ottawa, ON: OFC 80th Ann BBQ/Alumni Reunion/Live Band, Event open to all! Come celebrate the Ottawa Flying Club's 80th Anniversary with an old

fashion Hangar Party. A special invitation to past Members, Instructors, Staff! BBQ start time is 5 p.m. Please bring a food dish to share. RSVP at dispatch@ofc.ca.
