President's Message

I hope all had a good summer with lots of airtime. This newsletter kicks off our new season, with our meetings again being held on the third Thursday of each month in the Bush Theater at the Canadian Aviation Museum.

July Meeting Summary

At our July meeting Rodney Stead led us through the procedures for flying in to AirVenture 2007 at Oshkosh Wisconsin based on the information provided on the AirVenture Web page. Rodney had a laptop on site that was connected directly to the internet, so we could browse all the information directly and answer all the questions immediately. Thanks Rodney!

After the procedure review, we stopped by Andrew Phillip's shop where he showed us his quick build RV-7A project, then we proceeded to Russ Robinson's house for a BBQ and a look at Russ's projects.

Oshkosh Review

Chapter 245 had a good showing this year at AirVenture, with at least 25 of our members making an appearance there. A slide show is being prepared for our September meeting so that we can show the highlights of the flyin to those who didn't make it this year.

A memorial wall induction ceremony was held on Sunday,

July 29 to add 101 names to the memorial wall, including Gary Palmer's. The service was sombre with remarks by Tom Poberezny, Chaplain Ed Riddick and Elissa Lines, followed by a reading of the names, the playing of taps, a flyover, and placement of a wreath at the wall. About ten Chapter 245 members were in attendance. I will bring a program of the ceremony to the September meeting, along with several rubbings we made of the wall inscription for Gary and will show several pictures of the setting.

Calendar Offer from Oshkosh

EAA Oshkosh is offering a 2008 aviation calendar. If you would like to purchase one (or more) please contact Martin. Details of the offer are reproduced later in this newsletter.

Summer Activity at the Carp Hanger

There was quite a bit of activity at the hanger this summer. A few of the things that were (and are) on the go are:

- The first flight for Zenith Zodiac C-FJJS owned by George Skinner happened on Aug 14. According to George;

"It flew for 20 mins and the "test pilot" reported that it flew beautifully. My only regret is that I was not the pilot for that first flight. But I will fly it soon I hope."

- During late August Andy DePippo transported his new Murphy Rebel to Carp and has been carrying out the final assembly in the hanger, complete with Murphy amphibious floats. A gorgeous looking aircraft. The president wants a ride.

- Lars Eif has been painting his wings at Carp, adding multiple colours. The results are truly astonishing. Lars claims he is self taught from the many times he painted model aircraft in the past. There is certainly no doubt that he developed considerable skill.

- This year's flyin breakfast on Aug 12 was a great success, with perfect weather, some 35 planes flying in, and over 300 breakfast's served. Some pictures of the event and a brief description of the event are included later in the newsletter. Thanks to all who helped to make the day enjoyable.

- An early version Pelican owned by Michel Tondreau was flown in by Bill Reed and is now tied down outside the hanger. It is a single seat aircraft that fits within the US ultralight

guidelines. Very interesting!

Upcoming Meetings

The next regular meeting will be held at the Canadian Aviation Museum, in the Bush Theater. We will be showing a collection of slides from AirVenture 2007.

The meeting will start at 8:00PM on Thursday September 20th. Coffee and timbits will be on hand.

Our October meeting will be the annual general meeting for EAA 245. As every year, we will hold elections for the several of the executive positions. This year we will be electing the Vice President, Secretary, Treasurer and Newsletter Editor.

20 Sep 2007	Meetings resume at the Aviation Museum. Airventure 2007 highlights.
18 Oct 2007	EAA CH 245 Annual General Meeting and elections
20 Nov 2007	Topic TBA

Hoping to see you all at the September meeting, and as always-

Blue Skies,
Martin

Aviation humour

From AVFlash Short Final 13.37a September 10th, 2007

Overheard near Greensboro, N.C.:

Greensboro Approach:

"Cessna One Two Three, fly heading one four zero, left base runway five, keep your speed up, tum it tight and I'll get you in front of the RJ."

Cessna 123 (hesitating):

"Um, turn ... base ... five ... keep the speed up."

Approach:

"Pretend you're an F-15."

Cessna 123:

"Uh, OK."

Approach:

"You're not buying it."
