## '260 PRESIDENT'S MESSAGE

Chapter Members,

There are many changes to our Chapter that will prove to be an asset in the long run. A second reading of the changes will be at our next meeting, then a vote at the following meeting in June. I'm excited for what is ahead for this Chapter, and hope that you are too. Looking forward to the IMC Club and all of the other upcoming events. Remember, we can't do it without you. Sign up when you can and thank you for your continued support.

Rob Unger  
President, Chapter 260

# THE MARCH 19<sup>TH</sup> CHAPTER MEETING

## A BRYAN FAMILY LEGACY

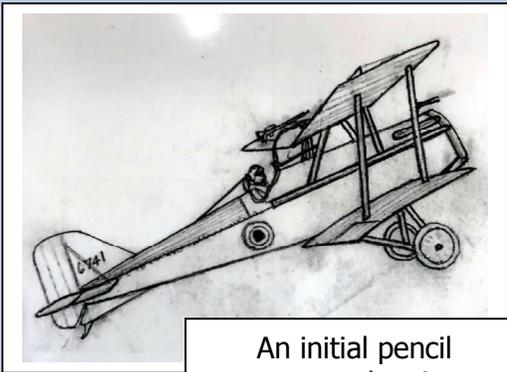

The highlight of the March meeting was a presentation by Chapter Member Tim Bryan and his brothers. This presentation centered around their father, Robert G. Bryan, Sr. who took from pencil concept to metal castings, various vintage aircraft.

THIS PIECE WAS DESIGNED AND HANDCRAFTED BY:  
**ROBERT G. BRYAN, SR. (1918-1998)**  
 AS A PATTERN FOR CREATION OF METAL CASTINGS OF THE AIRPLANE  
 AT A FOUNDRY. FOUR AIRPLANE PATTERNS WERE MADE TO INCLUDE:

**FRENCH SPAD XIII  
 GERMAN ALBATROS  
 BRITISH SE5A  
 GERMAN FOKKER DR. 1**

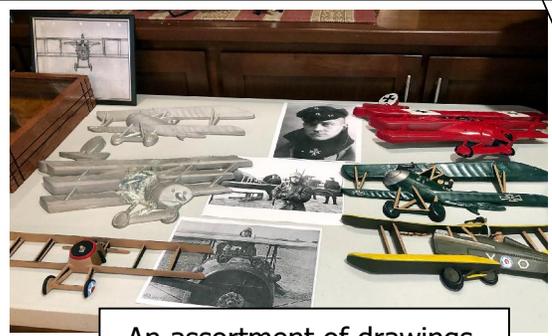

A MECHANICAL ENGINEER BY PROFESSION, EACH PIECE REPRESENTS HIS  
 ENGINEERING AND CRAFTSMAN SKILLS COUPLED WITH HIS DEEP  
 KNOWLEDGE OF W.W.I AIRCRAFT, IMAGINATION AND LOVE OF FLYING.  
 IN ORDER TO PRESERVE AND DISPLAY THE PIECE, HIS SON

# THE AVIATION MUSEUM TRIP - 2022

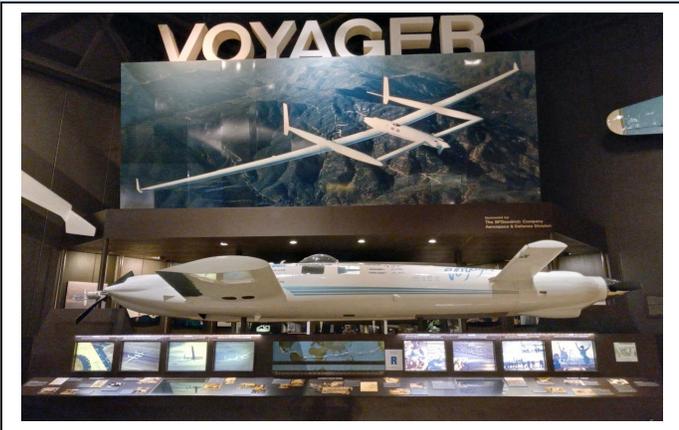

The EAA Chapter 260 Field Trip to the EAA Aviation Museum in Oshkosh, Wisconsin on Saturday, March 26<sup>th</sup> was so worth the trip. Cold and windy weather may have prevented more members from attending as it was not a great flying day. The Road trip in the car was about a 3 ½ hour drive. *This trip is a must, pilot or not.*

Our tour guide was a gentleman by the name of Bob. The amount of knowledge he has about all the planes in the museum is so amazing and he was extremely informative. One can learn so much about planes and aviation.

Once our 2 hour tour was over, some went into the gift shop to purchase souvenirs and then on to lunch at President Rob Unger's favorite pizza place, Ratch and Deb's. Food was served hot and service was very good. *A good time!!*

## UPCOMING MAY 21<sup>st</sup> CHAPTER PROGRAM

### Guest Speaker - Commander Kirk Lippold, USN (Ret.)

**Commander Kirk Lippold**, USN (Ret.) was the Commanding Officer of the USS Cole when it came under a suicide terrorist attack by al Qaeda in the port of Aden, Yemen. He and his crew distinguished themselves by saving the ship from sinking. This event is widely recognized as one of the most brazen acts of terrorism by al-Qaeda prior to September 11, 2001.

Kirk is a Private Instrument rated pilot and a Beechcraft Bonanza aircraft owner. He is a member of several aviation organizations including EAA, AOPA, and ABS. He regularly attends & speaks at EAA events including Sun N Fun and AirVenture.

Today, Commander Lippold is a popular inspirational figure and leadership speaker who remains in high demand among Fortune 500 companies, industry associations, and regularly appears on major cable news programs to bring thoughtful and common sense analysis on national security issues and world events.

He is a 1981 graduate of the U.S. Naval Academy experiencing a distinguished career serving in a variety of challenging positions. His assignments, to several different types of ships in the Navy, including a tank landing ship, as well as several Aegis guided missile cruisers and destroyers, all which expanded his scope of responsibility and leadership opportunities. Operating ships at sea is a hazardous business. These activities present unique challenges that necessitate quick thinking and split-second decisions to deal with potentially dangerous situations.

Training and preparation define readiness. Leadership will determine whether any organization will survive. While preparing for each deployment, he developed the rigorous mindset necessary to sail into harm's way. Each deployment was unique and supported U.S. military forces engaged in peacetime and combat operations. These experiences sharpened his leadership skills while also improving his ability to deal with any crisis. Again, through those challenges, he demonstrated repeatedly that leadership matters.

On October 12, 2000, all these skills came into sharp focus during the attack on USS *Cole*. Like any crisis, it was unexpected. What that moment did was define why day-to-day leadership and crisis management skills are important. Kirk has authored a book called *Front Burner* that details the bombing of the USS *Cole* and the aftermath.

He will be attending Chapter 260's monthly meeting at Bult Field on **Saturday, May 21, 2022** to present his patriotic and inspirational - Decision Making in a Crisis - presentation after the chapter meeting. The presentation will detail how the terrorist attack on the USS *Cole* shaped his approach to aviation and how pilots can react to the unexpected.

Please mark your calendars to attend EAA Chapter 260's Chapter Meeting on Saturday, May 21, 2022 and plan on staying afterwards to hear Kirk speak. He will be available for introductions and book signing after his presentation. Additional information regarding Kirk can be found on his web page: <https://kirklippold.com/>.

For logistical planning purposes - at the April Chapter Meeting , there will be a signup sheet for those interested in attending. Please sign up for the event. Guests - spouse, family member, etc. are welcome to attend if accompanied by a Chapter Member. Please note the number of guests you plan on bringing when you sign up. If you have questions, **please speak with Dan Simanaitis directly.**

# A FUN and EDUCATIONAL EVENING..

On Saturday April 9<sup>th</sup> another successful Aviation Trivia Night was held at Bult Field.

Thanks to Pamela Rose and Krystal McKean for organizing this event. Pamela prepared the food and beverage portion. Krystal did a great job in coming up with the Trivia format along with the challenging questions.

Krystal explains the rules.

These game show formats were used.

Pamela checks out the screen.

**A SUMMARY OF THE GAME...**

3 teams were organized. Each team chose a name. The game had several rounds each based upon a game show format. The questions consisted from naming airports, aviators, aviation history and more.

### THE FINAL ROUND QUESTION IS BELOW and HIS PHOTO

I was born in 1895 and received a degree in mechanical engineering from Cornell University in 1916.

I enlisted in the U.S. Naval Reserve in 1917 and eventually became a flight instructor for a bombing squadron.

After one tour of duty, the U.S. Navy sent me to MIT to study aeronautical engineering.

I founded my own Aeronautical Engineering Company in 1929 and 3 years later was awarded a U.S. Patent for *Retractable Landing Gear for Airplanes*.

My first complete aircraft design for the US Navy was the FF-1, or "FiFi", a fighter plane.

World War II and beyond, many of my popular aircraft were named after different felines.

I received many honors during my career, including a Medal for Merit, the NAS Award in Aeronautical Engineering, and induction into both the National Aviation and International Air & Space Halls of Fame.

In 1994, 12 years after my passing, The Northrop Corporation purchased my company and went on to create the B-2 Spirit.

## THE FRED BOOS MEMORIAL TOOL CRIB

The tool crib has been established in the Chapter hangar at Bult Field. Chapter Board Member Joe Cirelli is the coordinator.

The Tool Crib is named to honor Fred Boos. The Tool Crib will include various tools that Chapter Members can borrow for a short period of time in order to maintain their aircraft.

The first donation to the Tool Crib is a Tig Welder from Chapter Member Carl Behrent who has recently moved out of the area. THANKS CARL!

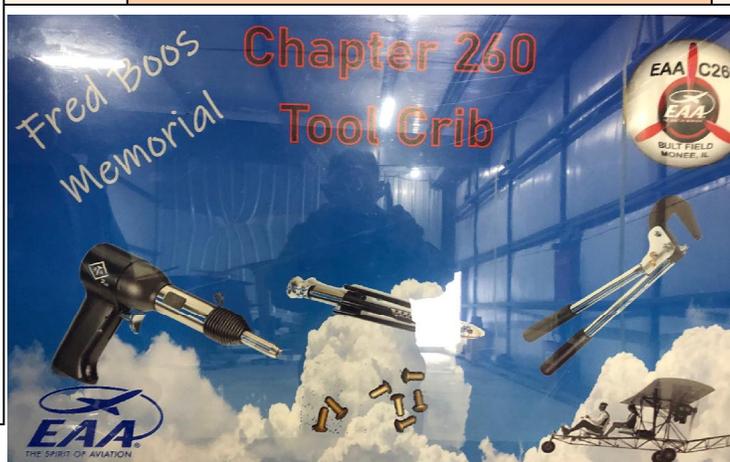

The Tool Crib is looking for *additional* donations of tools! We'd like to begin assembling a cache of aircraft tools for the tool crib. We have a nice space in the Chapter 260 hangar, we just need some tools to fill it. If anyone has spare clecos, rivet sets, or anything else that they'd like to donate – **please contact Joe** at:

**FRED BOOS**  
FIRST EAA 260 CHAPTER  
PRESIDENT

EAA Chapter 260 was initially formed in 1966 in Dolton, Illinois at the home of Fred Boos. Our Chapter has come a long way over the years to its present form.

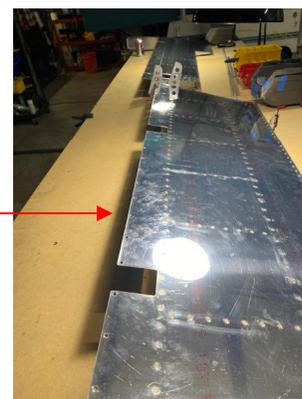

## JOE'S BUILDER'S CORNER

Joe Cirelli's RV-14 Update:

The elevators are almost complete. When I wrote last, I was getting close to finishing them up – when I ran into a problem that resulted in me re-building them. After waiting for parts to be delivered, I have two very nice looking elevators. The small foam ribs that provide shape to the trailing edge will be pro-sealed in the coming days. At that point, I'll have to install the elevator trim motor and trim tab, and they'll be complete.

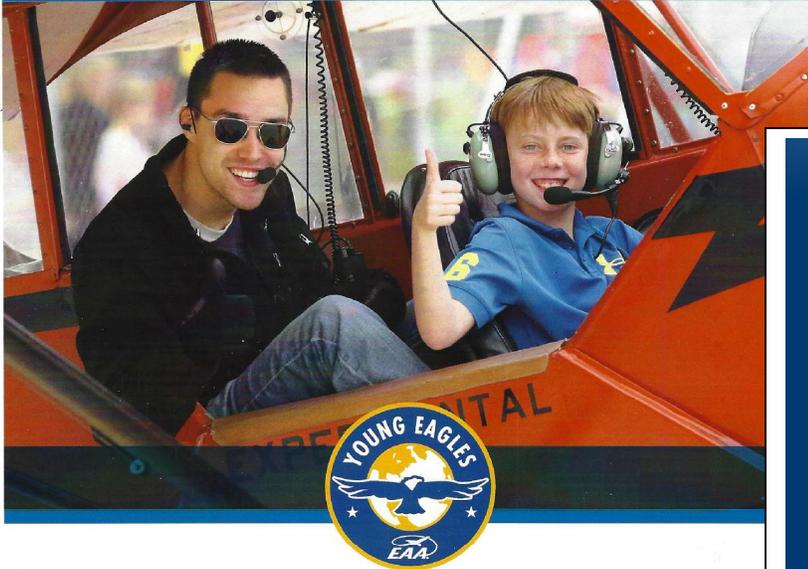

The wing crate date has been pushed back by about a week. I should have the wing kit delivered early-mid May, when I can begin construction. I anticipate the wings taking about a year and a half to complete, based on my somewhat limited availability to spend building. While my plan has been to build everything from the basic kits, I may opt for the "quick build" fuselage kit. The build tempo of the wings will determine that.

As always, feel free to stop by and say hello *and* check out the build at hangar E17.

Joe will continue to report on his progress. If anyone else is working on an airplane build project, you can also be featured!

# EAA Chapter 260 Young Eagles Rally

## Free airplane rides for kids ages 8 to 17

Parent/legal guardian approval and signature required  
Rides will be on a first come, first served basis. The number of ride slots available will depend upon aircraft availability.

Chapter Members..  
Make plans to participate in our upcoming Young Eagles Rally to be held on Saturday May 14<sup>th</sup>. If not flying Young Eagles, consider helping out on the ground. There is always a need for assistance.

## Pilot Requirements

The Young Eagles pilot requirements are basic, but **MUST** be followed.

- > Be a current EAA® member and hold an appropriate airman's certificate (sport pilot or greater)
- > Possess a current medical certificate (if applicable)
- > Be current to carry passengers in the aircraft you plan to use
- > Have a current flight review
- > Complete the Young Eagles registration form **before** the flight, including parent or legal guardian signature, and pilot signature
- > Conduct flights in an aircraft that is in airworthy condition
- > Have aircraft passenger liability insurance for the aircraft used (owned, rented, or borrowed)
- > Adhere to all applicable Federal Air Rules (FARs)
- > Complete both the online training and basic background check as a part of EAA's Youth Protection Policy. For more information, visit [EAA.org/YouthProtection](http://EAA.org/YouthProtection).

## CHAPTER 260 IMC CLUB

Starting in **May 2022** – Chapter 260 will offer a monthly IMC Club for Chapter Members interested in improving their flying in instrument conditions.

The IMC Club's purpose is to promote instrument flying, proficiency, and safety. The intent is to create a community of pilots willing to share information, provide recognition, foster communications, promote safety, and build proficiency in instrument flying.

The IMC Club monthly programming is developed and produced by EAA, but it does not use a lecture or presentation format. Instead, an actual scenario is presented and is followed by a group discussion, so audience participation is encouraged! Since everyone has a different experience level and different airplane capabilities, everyone can benefit from the discussion. All chapter members who are interested in improving their flying skills, whether they are VFR or IFR rated are welcome to attend.

The IMC Club will be hosted by the Chapter's Education Coordinator – Dan Simanaitis. Dan is an ATP / CFII with over 30 years of IFR flying experience.

Dan will host monthly meetings in person at Bult Field, as well as virtually, for those who are unable to attend in person. At the next Chapter Meeting – there will be a signup sheet for those interested. Dan is seeking feedback for preferred meeting schedule... for example, every 4<sup>th</sup> Monday of the month at 7:00pm. Please sign up and / or speak with Dan if interested.

## SUN n' FUN ATTENDED

*A report from Joe Cirelli...*

In addition to myself, Jim Orange and Dan Simanaitis were able to meet up at Sun n' Fun this year. Jim and I traveled with our wives in his Bonanza, and Dan and his friend flew a Debonaire. New chapter member, John Juris, flew down in his friend's 182' on Thursday-April 7<sup>th</sup>. *Chapter 260 was well represented!* We attended some classes, and networked with many aviators in a social setting...where most of the learning took place. It was a great time, and we're looking forward to attending next year.

# A HISTORY OF EAA CHAPTER 260

As previously indicated, I am working on a History of Chapter 260. I have been gathering information from old files and other sources. This History project will take awhile, since I am trying to "dig back" to include the initial formative years.

I have a lot of recent years' photos and information, but I need items from many years ago. So..if anybody has anything to share, please contact me.

## EXPERIMENTAL AIRCRAFT ASSOCIATION

PROPOSAL FOR DOLTON CHAPTER

This was the initial proposal from Fred Boos in 1966 to desire to establish a Chapter in Dolton, IL.

Dear \_\_\_\_\_

I wish to inform you that I am very interested in forming a new E.A.A. Chapter in Dolton, Illinois. I am offering the lounge in my basement for a meeting place. This matter has been in the making for over one year and the time is now!

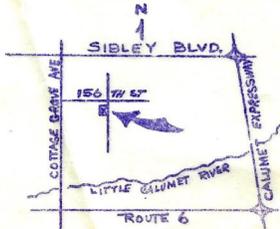

At present this area is in vital need of a Chapter; its location is half-way between the Oaklawn Chapter and the Griffith, Indiana, Chapter. It would cover an area of three airports in Illinois that are in this vicinity! They are: Chicago Hammond, Wings Field, and Sanger. This should be of interest to members and prospective new members from:

Dolton, Riverdale, South Holland, Calumet City, Lansing, Harvey, Thornton, Homewood, Matteson, Chicago Heights, Crest, Roseland, Calumet Park, Glenwood, Park Forest, etc.

I am going to have a special get-together meeting on Monday, April 18, 1966, to determine what kind of turnout we can produce. At this meeting we can decide the best night to hold regular meetings each month. (Time 8:00 P.M.)

Please note: If you are unable to attend this meeting, I would enjoy hearing from you regardless, by a post card, or phone: VI 9-7900.

Help build the E.A.A. in your area!

Sincerely,

Your Host,  
Mr. Fred Boos  
15606 South Ingleside Avenue  
Dolton, Illinois 60419

PROWASH: EAA Headquarters has assigned us with a Chapter Charter and No. 260. A complete rundown of the charter will be discussed at this meeting.

Headquarters has given us a great start! They have sent us all the building manuals and a set of plans for the "EAA BiPlane" to keep in our chapter library!

Attention all members: The chapter now has a new cork bulletin board 48 x 36 inches. Bring photos of your aircraft, aircraft under construction, or anything that would be of interest to our chapter!

We were given the Chapter 260 designation from EAA Hdqrs.

Initially known as....

Here are some (of many) initial newsletters. The editor back then, did a great job in writing these with the "state of the art" typewriter and mimeograph technology that existed back then..no computer word processing! But still got the message out...
