Newsletter, March 25, 2021

Notice of ZOOM Meeting:

Thursday, March 25, 2021 at 7:30 PM:

Presenter: Sandrine Gressard

Topic: Women have been flying since 1910, yet 5% of pilots are women. Many think "the old boys' club" is the culprit for the limited presence of women in male-dominated sectors of society. Sandrine Gressard will demonstrate that there are far greater reasons why there are few women pilots..

Location:

PLEASE NOTE, THIS IS AN ONLINE MEETING.

A word from our Chapter President...**Mike Lustig**

Hello everyone!

Invited guests for this Thursday's meeting are approximately a dozen or so recent graduates of Graham Batty's Winter 2021 PPL Ground School. I had the good fortune of attending this sixteen-session course along with these up-and-coming pilots. I have high hopes many of them will continue to attend our Zoom meetings for the rest of our Spring 2021 season and share their stories.

Attendees of our highly-successful February meeting will recall mention of presenter Tony Molle's YouTube channel "HUD Pilot". Tony has put a new video out recently, entitled "*Student Flies My Plane!*". Click here to view: <https://www.youtube.com/watch?v=bBFJg31nibM&t=98s>

Best Regards to All and Stay Safe,

Mike Lustig
President, EAA 266

A word from our Editor**Richard Guevara**

I always feel a tinge of jealousy when I hear about someone who is on his or her fourth homebuilt. I wonder back to twenty five years ago when I could have certainly been building, and I was not. My excuse remains the same: Life got in the way!

Over the last weeks while on the internet, I came across the plans for the F.8L Falco from Sequoia Aircraft. I also came across John Thorp's T-18 Tiger and Geoff Siers' Barracuda. What beautiful classic airplanes! How could you possibly work on one of these airplanes and not have your head turned by any of the others? A tweak here and another there? Yes, definitely wingtip tanks, the latest (affordable!) glass panels and how about that new custom airfoil everyone is talking about? Yes, staying with one project is difficult at the best of times, but people who do often end up with airplanes that keep their value long after the first time that the wheels leave the asphalt. Experimental and kit airplanes remain a substantial proportion of small aircraft flying today, and provide the bragging rights talking points when the brother-in-law starts talking about his shiny brand new 34 foot store-bought sailboat.

While on the subject, we still have a set of plans for the Super Cavalier SA 105 all-wood aircraft and another for the Karatoo J6C to give away – yes FREE – If interested please refer to the classified section of this Newsletter.

Stay Safe,
-The Editor

EAA Homebuilder Week videos now available

The very successful EAA Homebuilder Week now has tons of videos available on demand from the EAA website. These videos cover a wide range of issues from build techniques to insurance issues:

EAA 266 Library

by Ed Hannaford

The EAA 266 library contains a collection of books and DVDs that cover aircraft in general, homebuilding construction techniques, local events, history and Technical Manuals. Due to the Covid-19 pandemic, we have suspended the library operations. We will keep you informed of any changes in library operations in future Newsletters. Details of the library may be found on the EAA 266 website: www.eaa266.org . Contact Ed Hannaford for additional information.
