The Leader In Recreational Aviation

October 2021

Chapter 289 Newsletter Around the Patch

Flag hanging in Bruce Beecroft Hangar.

Around the Patch and now on Final

While yours truly was MISSING last month's pancake breakfast. We were representing Chapter 289 at the National RENO AIR RACES. Our board exercised GOOD judgement and COMMON sense in the decision to make our OCTOBER 2021 PANCAKE BREAKFAST our last breakfast get together in 2021. OH!!! UNTIL NEXT SPRING 2022!

The most important thing is that OUR VOLUNTEERS and EAA SPIRIT have indeed been able to get our events back on the SAFE TRACK to some semblance of normalcy! We have done more than many other chapters and had a great influence on more young people out there developing an interest in AVIATION. OUR connection with Civil Air Patrol has been beneficial for ALL.

OUR HANGAR cleanliness and tidy organizing by many 289ers really SHOWS that serious effort makes a big difference!

We have done some Young Eagle flying not like some years. We continue to seek more planes and flying volunteers for next year.

Several members have also been getting together for Wednesday 10 am coffee time at 289 hangar. That's very encouraging for everyone. You NOW have a WRITTEN INVITATION if you have the chance. There's often DONUTS LEFT OVER.

HERES to OCTOBER PANCAKES on the 16th, 2021.

THANKS 289ers Bruce B

Pictures or Information (articles)

EAA Chapter 289 would like pictures of members past or present projects or other information. These pictures will be displayed at Chapter building or posted on Chapter Website or published in Chapter Newsletter. This way we can showcase what the Chapter is all about. Please include a short story about the project.

E-mail to ea289@gmail.com.

September 18, 2021 Lincoln County Airport Fly-in Breakfast

Early morning start off cloudy with temp in 60's. Around 10 am skies started to clear into a blue sky with winds. Geese had to be clear off runway before any take off-landings. There was usual aviation traffic at Y-14. Number of people attending was down compare to the past.

2004 Annual Banquet

2004 ANNUAL BANQUET (CONTINUED)

and used it effectively to keep this raucous group in order. Thanks also to Jim Glenn, Hub Oien, Mike Emerson, Jim Wegner, Bernie Tyrrell, and the Thursday night

Builders Group for their help. More photos....

MC DK Koller stands by while a "Mystery Guest from the South" presents this year's "Rules For Eating."

A very spiffy Hemming Oien and Mike Emerson man the registration table.

Bernie Tyrrell displayed his collection of EAA Chapter 289 and aviation memorabilia.

The Thursday night Builders Group hard at work setting up for the banquet...kind of reminds you of a highway work crew, doesn't it? Just joking - the Group had the Chapter building cleaned and set up in short order.

The tasty meal was again catered by Fiesta Foods of Lennox.

"All those door prizes and I got this crummy bag of popcorn? I can grow this stuff." Sorry, Bob Perry.

Safety Tip

Party Pilot Precaution

by Gary Pelach

Is there proof a littler alcohol offers some health benefits? We know a well-established fact that too much of a good thing, or a good thing at a bad time can be fatal. Alcohol is a major factor in motor vehicle deaths, and still is a significant causative factor in some aviation related accidents. There are two FAR's that are important to know when it comes to drinking and flying. Most pilots are aware of the "8 hour" rule, (8 hours from bottle to throttle). Most pilots don't know the 0.04% FAR that prohibits flying an aircraft with a blood alcohol concentration (BAC) of 0.04% or higher. Think about the physiology of alcohol metabolism, in order to understand these 2 different FAR's, and what they mean to pilots. The first one is clear, no alcohol within 8 hours of flying be it general or commercial aviation. Most general aviation pilots aren't heavy drinkers, so we follow the 8 hours rule, we assume that we are breaking the 0.04% rule. But, because our bodies eliminate alcohol at different rates, you could OK with the 8 hour rule but be in violation of the 0.04% limit. If in doubt, sit it out, safety is no accident.

The 114th Fighter Wing is celebrating 75 years of Aviation Heritage.

Joss Field, Sioux Falls, SD

To commemorate this event, an F-16 was painted using several historical facts about the aviation heritage of the 114th Fighter Wing. **Here's some Fun Facts about the jet!**

- The distinctive tail flash showcases the patch utilized by the 114th Tactical Fighter Group from early 1970-1991 and features a cigar in the mouth of the Wile E. Coyote character reflecting the cigar used in the original Joe's Jokers patch and the trademark of Joe Foss.

2. The 12 inch red tail stripe features "175th Fighter Squadron" on one side and "114th Fighter Group" on the other. The three red stripes replicate the distinctive markings on one of the first aircraft flown by the SDANG, the F-51.

- Heritage AF Stars located under the left and right wings include the last names of all the 114th Fighter Wing members signifying the efforts of members giving 'lift' to the F-16 and our joint mission.

- #53 on left and right ventral fins highlights the original tail number of SDANG Founder, airfield namesake, Medal of Honor recipient, and WWII ace, Joe Foss.

- Mount Rushmore is pictured on the exterior of the NLG door, which calls back to a portion of the tail flash used from 1977-1991 and recognizes the distinctive South Dakota landmark.

- "S DAK AIR GUARD" is painted on the wing tanks and was the font used on the F-89 and F-102s from 1960-1970.

- The blue paint scheme represents the blue background of the South Dakota state flag and the skies of which the
