## **Treasurers Report**

As of just before the next pour of concrete: We're getting down to the need for more money, but plans are under way to fill the coffers again. We currently have \$4,106.82 in checking and \$4,543.93 in the Hangar Fund. We have given out a check for food coupons of \$1,500.00 so this is also money due back after everyone buys these food coupons. We are coming along, but need your help.

## **Fund Raiser**

Gene Ozanic would like to offer a service to EAA chapter 32 members, their family and friends. If anyone has a structural problem with their house (sticking doors or windows, cracks in the foundation, settling concrete etc.) Gene will go to their house and give them an independent, unbiased evaluation of their problem. This will serve to either elevate their concerns or give them the necessary information before entertaining contractors.

Gene will do this for a donation to the chapter (suggested donation \$75.00). The customary fee is about \$500.00 for an engineer to come out and do this. Gene was a structural contractor for 20 years before he sold his business about 5 years ago.

Gene Ozanic 314-843-1834

***This idea could catch on. Is there anybody else out there who can offer goods or services in return for a donation to the chapter?***
