The Monthly Newsletter of the Sherman, TX EAA Chapter 323

May 2015

3rd Thursday meeting agenda—May 21st, 7PM, Sherman, TX Municipal Airport

The topic of the day at the next meeting will be a review of charts and legends. Rick Simmons will be giving a review of the VFR charts and will also be useful for the upcoming chapter event on June 6—Dead Reckoning Flying. We hope you'll find your way to the airport on May 21 for this topic.

June 6th Flyout

On June 6th, the club will have its monthly flyout. It will be flying a course by use of dead reckoning and pilotage navigation only. GPSs, VORs, ADFs are banned! (Turn them off). More details to come at the club meeting, but, mark your calendars for this upcoming event!

Project Central Update

Guido Bevoni has completed (for some time) his RV-12, a sport-pilot eligible aircraft. However, the trim and paint is now of meticulous form. Based at North Texas Regional Airport, his Rotax powered aircraft with Dynon EFIS just hums along and is a true work of art. Below are some pictures of his craftsmanship, and of course, the RV grin ☺

A visit to EAA 614 Pancake Breakfast (Pineville, LA)

On the morning of May 2, 2015, I took off from KGYI, with a destination of 2L0, better known as Pineville, LA. I left at 5:45AM in the morning and arrived at the airport at 8:15 AM—in time for some great pancakes, sausage, and eggs to name a few. The airport is located adjacent to Lake Buhlow, and the clubhouse is right along it. Seaplanes can and do arrive/depart there. It is a very tranquil area, and the nearby uncontrolled field gives you a flashback to the “old times” of flying, with the rusty galvanized buildings, classic airplanes, to name a few. I just wished the fuel pump had the same nostalgia....

I got a minute or two to meet the club president and explain who I was, etc., and invited me back for their October fly-in.

I strongly recommend that if you're in that area for the first Saturday of the month, go and get the breakfast there. It is very relaxing, great people, great food, and worth it. I hope to go back some day.

The Regulatory Minute

14 CFR 91.111 pertains to operating near other aircraft

- a) No person may operate an aircraft so close to another aircraft as to create a collision hazard.
- b) No person may operate an aircraft in formation flight except by arrangement with the pilot in command of each aircraft of the formation.
- c) No person may operate an aircraft carrying passengers for hire, in formation flight.

Upcoming Chapter Events
