The Monthly Newsletter of the Sherman, TX EAA Chapter 323

November 2015

3rd Thursday meeting agenda—November 19, 7PM, Sherman, TX Municipal Airport

Jim Patterson will be giving the club an update on the light sport industry. The event will start at 7 PM.

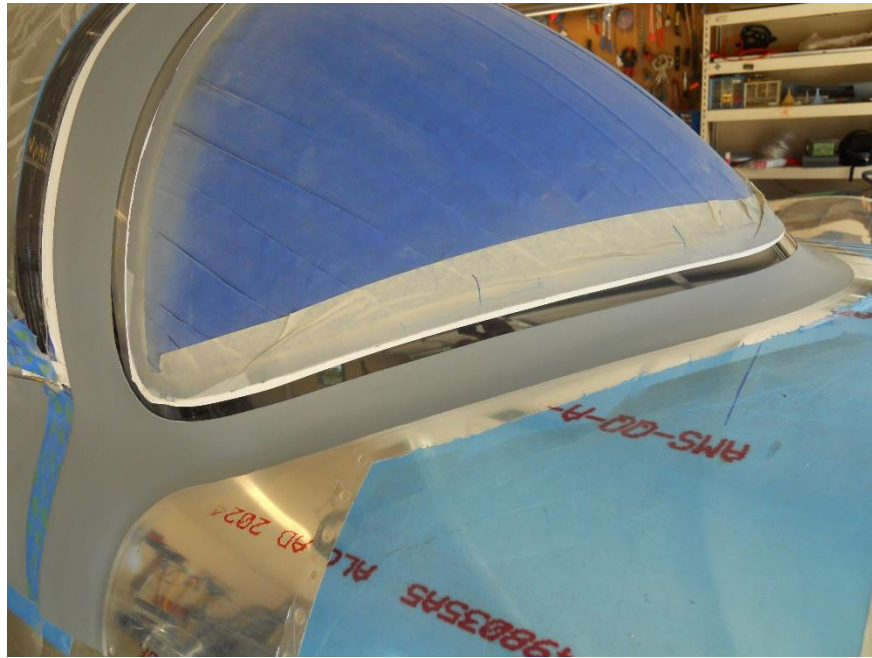

Note: If you are interested in attending Oshkosh 2016 as part of a big outing of the chapter, we will be having a planning session at 6:30 PM before the Thursday evening meeting. Please attend if you want to participate in this event. Planning is of the essence!

Project Central Update—RV-8

Here is a quick update and a few pics of my RV-8 project. I have finished up the fiberglass windscreen fairing. With help from my 2 sons, we installed the wings a few weeks ago. (Neighbors are still asking how I'll get it out of the garage!) Incidence and sweep have been set and the rear spar attachment has been drilled to lock the wing into position so that the critical angles cannot change. I am currently working on wing/fuselage fairings. See you at the next meeting.

Article submitted by Steve Riffe

Flyout on Nov 14 to Ardmore, OK for pancakes.

Several club members made the voyage to Ardmore, all by planes, for pancakes. Every 2nd Tuesday, for a small donation, pancakes, sausage, and coffee is served at the hangar next to the tower. The members that attended had a good time visiting and enjoying each other's company. They even have some heaters!

The Regulatory Minute

Flight Watch is for the history books. 122.0 in the air no longer exists. For weather in the air, contact flight service.

Advances in technology and in-cockpit information have made this service outdated. Usually, you can contact flight service on 122.2 in many areas, but, refresh yourself on the sectionals on flight service radio communication outlets.
