The next regular monthly meeting of EAA Chapter 334 will be held at 7:30pm on Wednesday October 11, 1995, at the house of Ed Gibbons, 7 Naomi Lane, East Lyme, CT. (See map on page 2)

Program

Ed Gibbons has once again graciously invited us to his home to enjoy viewing his outstanding collection of fine scale models. Since our last visit more than four years ago, Ed has made many additions to his fleet. We will have much to admire in his miniature world of aviation.

Headquarters Update.

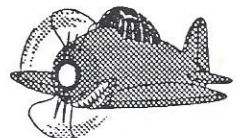

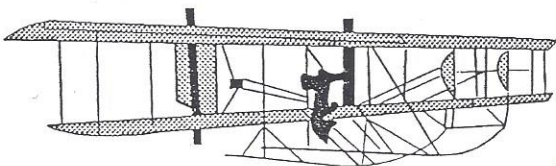

At the recent meeting with the powers that be, our request for approval to install a septic system at the site of our proposed chapter headquarters was rejected. Although we can certainly manage with the use of a portable John and bottled water, this has resulted in a delay for the final approval. Sigh!

Poker Run

Tom Hine and Frank Willaims were the only members of our chapter to participate in the event, which took place under a beautifully clear sky on Saturday, September 30. Two non-member pilots also took part through our chapter.

Due to morning ground fog conditions at several of the airports, the activities were delayed in these areas, but as the day wore on, the planes began arriving in droves. In all, we handed out more than one entire deck of cards. Chapter 27 had the most entries, with 19 of their members taking part. The winning hand in our chapter was held by Tom Hine with a pair of Jacks, and Frank came only one card away from a straight. To the entire chapter's benefit, Tom has kindly donated his winnings of \$100 to the headquarters escrow fund! It is most rewarding to see this kind of chapter spirit in our members.

Thanks also to Treasurer Perry Mellon, and to members George Pelzar, Laszlo Pozsonyi, and David Landis for giving up several hours of their weekend time to man event registration at the airport.

Future Programs

As we all know, arranging for programs of interest always seems to fall more or less on the shoulders of a relative few chapter members. Insuring continuity in the supply of material for quality programs involves the cooperation of the entire chapter. I propose we form a permanent Program Committee of at least three members to coordinate this responsibility in the future. Let's do it at this upcoming meeting. Put on your thinking caps until then.

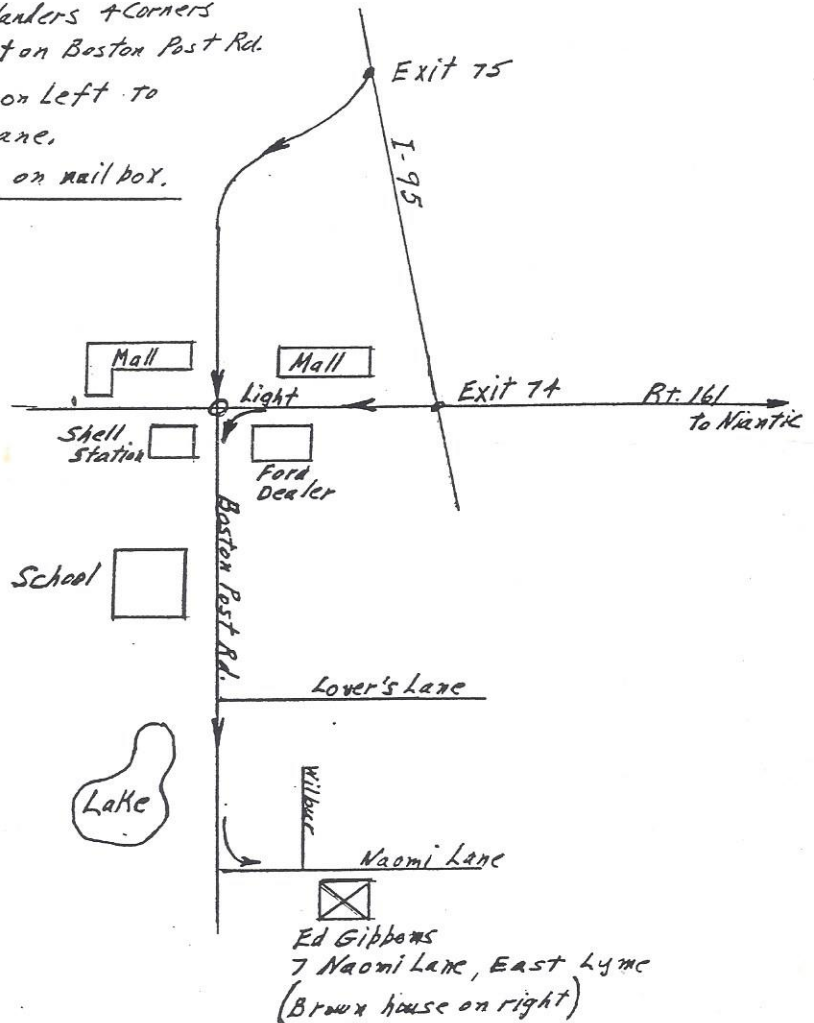

See you at the meeting. Bring a friend!

Take exits 74 or 75 off I-95
 Go to Flanders + Corners
 Go west on Boston Post Rd.
 2 Miles on Left to
 Naomi Lane.
Airplane on nail box.

AILERONS ON UPPER AND LOWER WINGS.
