Thoughts Aloft

Manitowoc EAA Chapter 383 Newsletter

Chapter Logbook

by Chapter President Jim Zuege

Thanks to all of you that helped with the T-34s. Nadine and Mike are key to the success of keeping the pilots happy. That really is a lot of work. Thank you Nadine and Mike and everyone else that helped. Your hard work is appreciated.

I enjoy AirVenture every year as a volunteer. With a small crew of volunteers we did some basic projects that few people see; like updating public showers. We also did a big project that almost everyone saw. The picture below is the sign we made that lights up at night.

When you volunteer at AirVenture the week before the event you are fed three squares a day. You get pickled beets every meal but breakfast. I've had my fill of pickled beets for the year!

Jim

AUGUST 2023

New Business

A young gentleman presented to the club to solicit funds for his flight training. He would like to become a professional pilot. We need to decide as a club if we should donate money to his cause or not and how much we should give him. If you are a member in good standing, please show up and let your voice be heard.

The annual corn roast is coming up in September. This is an annual event for members to get together to chat and eat corn on the cob. We need to decide, as a club, the date and time and who's going to do the cooking.

An early August storm did some damage in Manitowoc including knocking the old SeeBee off of her pedestal. Maybe we should discuss if this chapter would like to lend a hand in repairing any of the damage.

AUGUST 2023
