Manitowoc EAA Chapter 383 Newsletter

Chapter Logbook

by Chapter President Jim Zuege

Thank you to Jurg - *back by popular demand* - Grossenbacher for the safety in piloting seminar!

Here are some key points:

- take courses to brush up
- fly with a flight instructor
- watch webinars
- be consistent with your standard operating procedures
- use a flight simulator
- know your limitations

The Young Eagles flights are June 8th during the KMTW fly-in and breakfast. Please volunteer to fly the young aviation enthusiasts or work the food stand or work the flightline. It would be amazing and appreciated to have all EAA Chapter 383 hands on deck!

Manitowoc county workers will be removing shrubs from the back of the building that have gotten unruly. We will have to do some clean up and landscaping once they are removed. Another great volunteer opportunity!

Jim
