2023 Fundraiser Project

Mark Luscomb has listed the aircraft parts on a few different websites. To date, we have received one call on taking the whole project but the caller hasn't committed. At our meeting we can discuss parting out the project. If you know of anyone who is looking for Taylorcraft components, please have them stop by the Chapter Hangar and take a look, or look at the photos on-line. Thanks

Door Installation Update. The hangar apron has been leveled and formed. We have acquired fencing material to place in the pit prior to pouring cement. We need to drill horizontal holes in the existing cement and place steel re-bar prior to pouring the concrete apron. Please let David Yegge know if you are available to help. Thanks

AROUND THE AIRPORT 45G

Saturday morning breakfast is every Saturday at 9:00am - Don't be late. \$5.00 buys an excellent breakfast.

The airport needs volunteers to mow portions of the airport on the zero-turn lawn mower. Please speak to Tracy Lanciano for the details.

Your 2023 chapter dues (\$25.00) are due NOW. Please get with Ron Stonewall at 810-623-3427 and make your 2023 dues payment. Thanks

Young Eagles Season

Last Saturday Karl Vogleheim flew 2 Young Eagles in his Stinson 108. Thanks Karl.

Both young people exited the aircraft with huge smile on their faces. Our next scheduled Young Eagles date is scheduled for Saturday, October 7th at 8:00 am at Brighton

If you know of any young people between 8 years old and 17 years old, with an interest in aircraft and/or aviation, please let Karl know so we can schedule a young eagles event for these kids. We, as pilots, need to continue to introduce the young people to the world of aviation that we enjoy so much. Thanks to all of the volunteers.

STINSON 10A RESTORATION UPDATE

Much progress has been made on the Stinson 10A warbird restoration. Work continues every Friday morning from 9:00am till 12:00 noon. In the recent weeks we have almost completed stripping the dark brown paint from the spars and have bead blasted most of the aluminum ribs.

Feel free to "jump-In" on the project if you are available, this last Friday we had five people working on the project. Thanks to all.
