STINSON 10A RESTORATION UPDATE

Progress continues on the Stinson 10A restoration. We are actively working on the aircraft every Tuesday and Wednesday from 9:00am until around 2:00pm in the afternoon. It's been rumored that we bug-out for a sandwich and return once in a while to continue the fun. Although it's a little tedious, we have made good progress on stripping the heavy brown paint off of the right wing spar. In addition, some of the components have been removed from the wing root end for cleaning and priming.

I have included some photos on the following page for your review.

Come on out and join in the fun.

EAA CHAPTER DUES FOR 2022

Our EAA Chapter dues will remain at \$25.00 per year, and due in January as always. As a reminder, I will be sending out an invoice to all current and past members. In addition, I will be inviting any BAA members to join our local chapter also as an open invitation. Our goals are aligned in trying to improve all aspects of aviation. Thanks
