Flag Day.....

Celebrating the Flag is believed to have first originated in 1885. BJ Cigrand, a schoolteacher, arranged for the pupils in the Fredonia, Wisconsin Public School, District 6, to observe June 14 (the 108th anniversary of the official adoption of The Stars and Stripes) as 'Flag Birthday'. Inspired by these three decades of state and local celebrations, Flag Day - the anniversary of the Flag Resolution of 1777, was officially *established* by the Proclamation of President Woodrow Wilson on May 30th, 1916. While Flag Day was celebrated in various communities for years after Wilson's proclamation, it was not until August 3rd, 1949, that President Truman signed an Act of Congress designating **June 14th** of each year as **National Flag Day**.

JOHN'S JABBERINGS

We are coming down to the wire for the Trimotor visit and the Rapid City Regional Airport Open House. I am still looking for something that kids can do at the open house. We have in the past had a simulator, Young Eagles rides and some pedal cars for the very young. I haven't been able to get any of these this time so if someone has an idea please give me a call.

The Trimotor will be here on the 18th and start flying on the 21st through the 24th. If you haven't signed up to help crew I need help on Saturday, 6/23 and Sunday 6/24 both shifts. The shifts run from 8 AM to 1 PM and 1 PM to 6 PM. The first shift will get things setup and the last shift will help put things away.

See you all at the meeting!!

John

Chapter 39 Meeting Minutes

May 1, 2018

Gary Schroeder, Secretary

John started the meeting at 7:05.

We watched the EAA video newsletter.

- Minutes were read and approved.
- Doug Gab was a visitor.
- IMC club started last Thursday and will be 6:30 pm, the last Thursday of the month at the clubhouse.

- Tri-motor planning:

Food- Terry Olson

Media- Harold Samdal

EAA supplied materials so we need to start the distribution around May 20th.

We need the event signs; the airports had some signs but are unable to find them.

Do we need a tent for serving the food?

Jerry Mitchell has some donations already.

John will confirm that Robert Allen will be the MC/announcer during the open house.

We will need a PA system for this.

- Young Eagles – we need someone to coordinate the Young Eagles.
- The Sturgis fly-in/breakfast starts May 12th and June 9th at 8:00 am.
- The chapter burger burns start June 11th.
- Bruce told us about his new acquisition, a 1952 de Havilland Chipmunk.
- There was a motion by Jerry Petersen and a second by Rick Balsaas.

Motion-----Close the current Chapter checking account and start two new checking accounts at Black Hills Federal Credit Union. Account #1 (named "EAA Chapter 39") will be the money from our Chapter and Account #2 (named "EAA GA Chapter 39") will be the money from the GA committee, raised at the previous open houses. The authorized signatories will be the 4 chapter officers and the checks will only need one signature.

The vote passed.

and Fun 2018

Submitted by Rick Belsaas

It was mostly business for me at Sun and Fun this year. My friend Pat joined me from San Diego and we arrived at LAK on Friday the 13th of April. The purpose of the trip this year was new updated avionics for the RV10. I pretty much decided on dual Garmin GX3's, but was undecided on GTN 650. Wanted to get some hands on. I especially wanted to know about touchscreen in turbulence. How easy are the manual knobs to use instead of touch. I'm used to the trusted 430 and was wondering if the change was worth it. The 430W is still worth about \$7000 so it would be about \$4500 to switch. The Garmin SL 30 is still a great #2 Nav Com and I'll probably just stick with that. I also wanted to know how well the Garmin interfaced with the TruTrak autopilot system since I really didn't want to change out autopilot or servos. So... Lots of classes and workshops. Lots of questions and hands on. Stein, Stein, Stein. Their motto is, "We're not happy until you're broke."

Didn't take a lot of pictures. We did watch the airshow, because of Pat's interest. Same pilots, similar routines. We talked to a few Cub pilots. It's fun to talk to the ones that had a hand in restoration because they seem to know the complete history of their machines and as with mine, they were used as military trainers early in their careers.

Getting my helicopter rating has always been on my bucket list, so we did spend some time at the Safari display. The new model, Safari 500, is tightly cowled as opposed to mostly open like the 400. New options include a turbocharger, which makes it a more realistic RAP altitude performer. As you can see by the embarrassing picture, it's not only the altitude that's the problem. Anyway, Thursday at Busch Gardens, Friday and Saturday at Sun and Fun made for a great outing. Good Flying!

Air Show in Cameron

For those who love to fly.....WOW!

This is an Air Show in Cameron, a small rural town in Missouri. The pilots, bike and truck drivers and the photographers are all nuts!

This doesn't border on crazy, it IS crazy! Hold on to your desk, chair, whatever! Best viewed full screen with a HD monitor. This one is waaaay more than just an air show!
