

March 14, 2023

Gary called the meeting to order at 7:00 PM

Program -

Everyone introduced themselves and we had several new visitors. Then Chris Grube told us about his Fokker Tri-plane that he built and flew, from original plans and lots of research which was quite interesting.

There was a discussion about bringing the B-25 to Rapid City as main attraction for an aviation event.

The April meeting will start the burger burns for the summer (weather permitting) at the airport.

Sturgis breakfast fly-ins are scheduled again this year.

We also had a discussion about having our meetings at Spearfish or Hot Springs to help promote aviation and the EAA like we did last year.

Plans for fly-outs were discussed, (possibly coordinating with the BH Fliers).

The GA Committee meeting will be March 25th at the airport fire station.

Scott has a spool of free 22 ga. aircraft wire for anyone who wants some. Also advised there is a Thorpe aircraft for sale.

Meeting adjourned

Gary Schroeder
