

February 11, 2025

The meeting started at 7:00 and we watched the EAA chapter video.

Steve Eckrich gave the program explaining the details of the proposed South Dakota legislation that applies to aviation.

SD 178 would change the tax on fuel

SD 184 would change registration fees for aircraft

SD 209 would be a modification to SD 184

SD 132 pertains to airport terminal expansion primarily for Rapid City regional and Sioux Falls airports.

Steve recommended supporting the South Dakota pilots association so you have a voice in the decisions at the legislature, "because if you're not at the table, you're on the menu".

Meeting adjourned.
