**Young Eagles** is a program of the Experimental Aircraft Association (EAA). Launched in 1992, the program has dedicated almost 30 years to giving youth ages 8-17 their first free rides in an airplane. It is the only program of its kind, with the sole mission to introduce and inspire kids in the world of aviation. More than 2.2 million young people worldwide have enjoyed a free introductory flight through the program. These flights are made possible solely through the generosity of EAA member volunteers.
