March, 2014

Next Meeting

Saturday, March 8, 2014

7 P.M. @ the Mt. Evans Room in the Terminal Bldg. @ Metro Airport. Our program for the night will be by **Paul Dickson**, who will be giving a presentation on some "Quick Look" methods and concepts to help evaluate meteorological data for making Go-No Go decisions, especially as related to mountain flying. In addition, Paul will be reviewing suggested techniques for making crosswind landing and takeoffs. Paul is an accomplished instructor with many thousands of hours in various aircraft. He has designed and built a crosswind simulator to aid in teaching proper crosswind techniques in various wind conditions and offers a course on that subject.

Editor's Corner

Last month's meeting was a presentation of the Chapter Video Magazine from EAA headquarters, which was really quite good. Chairman of the Board, Jack Pelton, gave an opening talk that was very informative. In this writer's opinion, the EAA really got it right this time — Jack is a good man for the job of leading our organization, and I'm glad it looks like he's going to be around for awhile.

It's that time again! Re-up for 2014 and help keep our chapter strong and vibrant. See the Enrollment Form on page 8 of this newsletter.

Until next month...

John

CHICKEN WINGS®

BY MICHAEL AND STEFAN STRASSER

I have 23 Time Life *“Epic of Flight”* books to give away (if anyone is interested in them, they can call me for the titles on each book).

I have two binders of *“Aircraft of the World”* to give away.

I also have *“The Timeline of Aviation”* book to give away.

If anyone is interested in any or all of these, they can call me at **970-669-2286**.

Thanks,

Lyne Biesemeier

The submission of articles, comments, or inquiries for possible publication in the newsletter are encouraged.

Latest Updates and Information

By Scott Serani

In our last meeting on Saturday February 15th, we had our biggest turnout ever. Lots of new faces, lots of faces we haven't seen in a while. We started off at the home of Lynn & Pat Miller's where we talked all about the new things that have been happening within the group (the donations of the gyrocopter, the RV6 kit donated to us from Emily Griffith School, the B25 demonstration unit, the new Young Aviators workshop, etc.).

David Leeper, father of our YA President Brandon Leeper, then conducted a ground school class on the fundamentals of flight planning so that all our YA teachers of future ground school topics could get a feel for how they should focus their topic matter when they present their ground school.

Following the ground school, Destiney Krell (our founding Young Aviator and past President) shared her exciting news of being formally accepted to Embry Riddle Aeronautical University in this fall's class. [Congratulations Destiney!!!](#) It was then off to our new workshop (the home/hangar of Scott & Trice McEwen) so that everyone could look around and see the new space and the new projects we have coming up. From there we went over to the other side of the airport to see the temporary home of the gyrocopter.

*Given the turnout and enthusiasm we saw in this last meeting, a special meeting with mostly parents of YA's as well as a few of the YA's was held this past Saturday (2/22) to simply try and organize activities and volunteer help from parents to make sure the direction we have going with this youth group doesn't lose momentum due to lack of organization and help. It was very gratifying to see so many parents show up and willingly volunteer to help us going forward. They even decided that the kids had so much interest in the program, that meetings will now be held twice per month (1st and 3rd Saturdays) beginning in April. **The same group that attended this parents meeting will additionally be gathering at the McEwen hangar this coming Saturday (March 1) at 9am to work to reorganize the workshop (carpentry, inventory, general cleaning up, etc.) and make the new workshop a productive place to meet in the future.***

OUR NEXT FORMAL MEETING:

March 15th 11:00a - 2:00p

Our Ground School Topic for the meeting will be Aviation Weather conducted by YA's John Elliott and Brandon Leeper. Planned project work will be getting started on the B25 completion and the gyrocopter clean-up/restoration.

We'll see some of you at the special cleanup meeting on this Saturday, March 1st at 9am and hopefully all of you at our regular meeting on the 15th at 11am.

A very special thank you goes out to all the YA parents and EAA 43 members stepping forward to help out going forward. You can see it in the kid's eyes - we're making a difference!

For those interested in learning more about *Young Aviators*, feel free to contact: Mrs. Pat Miller: email - millerr967@aol.com or visit us at youngaviators@eaa43.org
