Editor's Corner

If you view this newsletter on the website, as most people probably do, you will be seeing diminished quality in the pictures and printing... it will not be as sharp and clear as it should be. If you would like to see or print a clearer, higher quality copy, just **right** click on the link to the newsletter you want (on the website) and choose "[Save Link As...](#)", then save the file to a location you can find on your computer. You can then open that saved .pdf file and you will be able to see a much higher quality copy, to read or print as you desire. If you're not able to open a .pdf file you can get a free program, like *Adobe Reader* <http://www.downloadtastic.com/pdf-reader/reader/> . I hope this is helpful for those of us who may be a little less "computer savvy" than others.

John

Happy Halloween!

Scheduled speaker for the October meeting program -

John Huguley is a United States Air Force Academy graduate of 1988. He served in the Air Force for 24 years and was an instructor for the KC-10, T-38, and T-1. John served in Desert Storm, Desert Shield, and Seven Watch. John was in the Special Forces in Iraq, flying the ScanEagle and AeroSonde unmanned aerial vehicles. For a decade, John was Chief of Aerial Events at the Air Force Academy, coordinating flyovers and other such operations. He has an ATP certification and has flown for United Airlines for 14 years.

Since early 2012, John has participated with a core group of individuals from industry, academia, local governments, and not-for-profits who've come together to submit an application to establish unmanned aerial system test sites for the State of Colorado. John has been key to proposing a series of test ranges in Colorado, based upon his extensive knowledge of airports and operations in the State.

Upcoming Events Calendar

Submitted by *Don Smith*

SEPTEMBER

- 5-7 *Midwest LSA Show, Mt. Vernon IL*
<http://www.midwestlsashow.com/>
- Sat 21 *EAA Chapter 43 Young Eagles rally, EIK, 8:00 am*
 Sat 28 *EAA Chapter 301 Young Eagles Rally, FTG 7:45am*

OCTOBER

- 11-12 *Rans Fly-in, Hays KS (HYS)*
- 10-12 *2013 AOPA Aviation Summit, Fort Worth, Texas*
- Sat 12 *EAA Chapter 72 25th Annual Fly-in, Meadow Lake Airport (KFLY), 9:00am—noon (T)*

Young Eagles Report *Submitted by Terri Bazacos*

There is no Young Eagles report this month... please see the website for up-to-date information.

Up-to-Date YOUNG EAGLES information is available on the website -

<http://www.eaa43.org/youngeagles.htm>

Fundraising note:

I'm sure that most members of Chapter 43 have received their letter from the Scholarship and Fundraising Chairmen regarding the change in our schedule for awarding scholarships. As our committee chairmen stated in the letter, please consider donating soon by possibly giving up that \$100 hamburger trip on a Saturday, and instead send the chapter a check for a very good cause. Remember, Chapter 43 is a 501(c)(3) organization, so your donation is tax-deductible. ***Thank you!***

Latest Updates and Information

By Scott Serani

Our last meeting on September 21st was special indeed. The Young Aviators welcomed Ms. Amelia Earhart (9News) to our gathering. She gave a very inspirational talk about her aviation pursuits and her upcoming trip around the world (designed to replicate that actual route taken by the original Amelia Earhart). It was a fascinating talk to young and old – the theme throughout being “never give up on your dreams”.

We sincerely thank Ms. Earhart and look forward to visiting her again in upcoming Young Aviators field trips to Pilatus and 9News.

Following the talk, work commenced on the big simulator with flight control installation.

OUR NEXT MEETING:

Our next regular meeting will be held on Saturday, October 19th from 11am to 1pm at Scott Serani’s hangar.

This session is intended to be final hookup of components to the simulator and “hopefully” the first test flights. See you all there on the 19th!

For those interested in learning more about **Young Aviators**, feel free to contact: Ms. Pat Miller: email - millerr967@aol.com or visit us at youngaviators@eaa43.org

Builder's Tips -

This tip comes from Dick Neeley—To start threading a small bolt in tight quarters, wrap the bolt shank with a half dozen turns of dental floss, hold the bolt in the bolt hole with the tip of your finger, and pull the floss to rotate the bolt to get the threads started. (Submitted to the newsletter by Chap. 43 President Dave Bieseimer).

(Editor's note: members are encouraged to submit their builder tips for publishing in the newsletter.)

Want Ads
