Next Meeting

Saturday, May 10, 2014

11 AM @ Scott Serani's hangar, Erie Airport (EIK). This is our Annual Chapter Picnic. Fly or drive in... the hangar is located at the community hangars on the South-West area of the field. Meet and greet followed by food at around noon.

It has been requested that attendees consider bringing a side dish such as salad or fruit to share. We usually have more than enough desserts & cookies.

Editor's Corner

Our annual "picnic" meeting is always a good time. As in past years, it's pot luck, but the chapter is providing the meat, condiments and drinks. Attendees should bring a side dish (no drinks) to share—please read the meeting info to the left of this column. Things kick off at 11, but come a little early to help set-up if you like.

It seems like it's been a difficult few months for finding good flying weather, but it's coming! It's a good time for many of us to do our annual Condition Inspections.

Fly safe!

John

From Lyne Bieseimeier -

On behalf of my children and myself, we want to thank everyone in Chapter 43 that contributed to the fund for the Memorial Wall plaque at Oshkosh in memory of their father and my husband, David Bieseimeier. In addition, we want to especially thank Stan Specht and John Evens for accomplishing this and preparing the biography for the Memorial Wall Registry Album.

Answer: The Lesher Teal is a homebuilt designed by Ed Lesher and introduced to EAA'ers at Oshkosh in 1965. At one time it held 7 F.A.I. C-1.a records for speed and distance.

The submission of articles, comments, or inquiries for possible publication in the newsletter are encouraged.

Latest Updates and Information

By Scott Serani

In our last meeting on Saturday April 19th, we started off with a ground school class given by Destiney Krell & Ashley Sharpe on the steps it takes to become a pilot (ground school, [flight lessons](#), estimated costs, etc.) - great class - lots of questions asked and answered! Next ground school class will be at our meeting on June 21st where Kanyon will be teaching the basics of Aerodynamics.

Following the ground [school class](#), Scott S. filled the group in on his conversation with Oshkosh regarding our Young Aviators and our projects. Oshkosh would really like us to bring the B25 to KidVenture in 2015. Everyone concurred we should make that our goal and to perhaps look forward to the 2015 Oshkosh AirVenture as a group field trip/vacation. Lots of enthusiasm and lots of planning to do, but everyone agreed it would make for one great week in 2015 where our YA's showed off and demonstrated their project to the entire aviation community.

Everyone was informed that the town of Erie had requested our presence ([complete](#) with our 3 simulators) at the Erie Town Fair on Saturday, May 17th. Everyone wanted to go. So, you will see below that our regular May 17th meeting will be replaced by attendance at the Erie Town Fair.

The YA's then properly embarrassed Scott S. with a little birthday celebration after which everybody got down to work on the Gyrocopter and B25.

OUR NEXT FORMAL MEETING:

May 2nd 11:00a - 2:00p

Meet at the McEwen hangar for project work on the Gyrocopter, Kid-EZ and B25.

May 17th 8:00a - 4:00p

We will be exhibiting our simulators at the Erie Town Fair all day. Ms. Pat Miller will be sending out notices prior to the event with [directions](#) as well as asking the YA's to elect a morning or afternoon participation so that we have manpower available during the entire day but limit involvement of any one person for only a few hours each.

For those interested in learning more about *Young Aviators*, feel free to contact: Mrs. Pat Miller: email - millerr967@aol.com or visit us at youngaviators@eaa43.org
