## Next Meeting

**Saturday, December 12, 2015**

**7 PM @ the Mt. Evans Room in the  
Terminal Bldg. @ Metro Airport.**

### Our program -

This month we will be showing portions of two chapter videos. First, will be an interview with Burt Rutan which was done at AirVenture this past August. Burt discusses his passion for new designs and for following a path for higher aircraft efficiency with greater speed and fuel economy. He tells of never giving up and that most of his designs flew very poorly on their first flight – especially the Long-EZ. Second, will be a tour of the Sensenich plant in Florida that makes both wood and composite propellers. Construction techniques of each type of propeller are explained. The steps in wood propeller construction cover aspects from wood grading, cutting, gluing blanks, shaping, finishing, and balancing.

## Editor's Corner

It's that time of the year again to renew your membership in Chapter 43. There is an application form on p.6 of this issue. Also, our annual awards banquet is next month. The sign up form for that is on p.7. There is usually a limited amount of seating for this get-together, so it would be wise to sign-up soon. Checks can be mailed, brought to the meeting this month, or payment can be made on the website with PayPal.

Last month the new officers for next year were elected. A big thanks and congratulations to **Ken Scott** (President), **Bill Mitchell** and **Steve Paschke** (Co-Vice Presidents), **Roxie Juul** (Secretary), and **Myles Lee** (Treasurer). Newly elected to the Board of Directors were **Ricky Domenico** and **Scott Serani**.

## Young Aviator Update

December 2015

November kept the Young Aviators busy!

On November 11, we honored our past and present Military Veterans with our B-25 Warbird. The parade began at 11:11 a.m. and it was a float (of sort) in the Longmont Veteran's Day Parade with our kids and mentors aboard the trailer. The Veterans enjoyed the parade while we watched in awe at the spectators. The opportunity for us to see the dignified military people who have and do protect our freedom was an eye opening experience for all of us. Thank you to all of our military service men and women and their families.

(Cont. from p.4)

On November 14, we ventured to Centennial Airport to hear Apollo 13 Flight Director Gene Krantz and Astronaut Fred Haise speak. They talked about their childhoods, how they ended up being a part of the NASA team, their experience and their vision for future space exploration and travel. One Aviator took her first Young Eagles flight ever. At the adolescent age of 41, Cliff Goldstein decided it was about time! Cliff flew YA Andrea McCay from Erie to Centennial via I25 for the visit and returned home over Red Rocks and Boulder. Thank you Cliff. You made my whole year!!

Also speaking at this venue was Sean D. Tucker, Aerobatic Champion and Master of Ceremonies. Sean is energetic, positive, inspiring, and left us all smiling at his pure joy of life.

It was a once in a lifetime opportunity for most of us and our kids. Thank you to Chuck Kubin for making sure the YA families were included in this talk.

(Cont. from p.5)

We were together again on the 21<sup>st</sup>, when we visited Sierra Nevada in Louisville. Mrs. Pat Miller coordinated this field trip where the things that we were able to see were so secure, no phones were invited. They didn't need to be off, they needed to be left in a car! We had to know we were in for a great morning. Dan and Megans, our SNCorp hosts, were friendly and knowledgeable. We missed seeing the dozen(s) of satellites that were in for maintenance by 10 days but we saw prototypes and trials of the Dream Chaser. The Dream Chaser began as a concept for passenger space travel and has evolved into a cargo vehicle for space flight that has begun testing and modification. The name is representative of the concept and is a Dream that many of the engineers hope to see fulfilled in their lifetimes. For more information about this

project and SNCorp, visit [sncorp.com](http://sncorp.com)

We want to continue to have some speakers visit (or host us) and share their experiences in aviation, flight, aeronautical engineering, materials, or **BASICALLY ANYTHING FLIGHT RELATED**. If you have suggestions for guests, please email us or get in touch with Pat Miller.

We have updated our Facebook page. Please visit and "like"!

## Chapter Scholarship Fund

As we quickly head into the final stretch of 2015, many of us are still considering tax-free donations that we might like to make for this year. We have been proud in the past of the good we have done as a chapter toward encouraging young folks in our community to explore the adventures and satisfaction that accompany flight and working with aircraft. Please consider donating to the Chapter 43 Scholarship Fund so that we might continue this worthwhile endeavor. We have just a tad over \$2400 so far toward our annual goal of \$4500. You may either send your donation to the chapter mailbox or bring it with you to our next meeting.

Thanks for your consideration,

Stan Specht  
Chapter Scholarship Fundraising Chairman
