VOLUME 6, ISSUE NO.12, DECEMBER 1983

LAST MONTH: The meeting for November 12, 1983, started 7:39 P.M. at the Rocky Mtn. Energy Center. I forgot to count those attending, but guess their number to be about forty. Roy Maneely who Presided over the meeting, started a discussion on where to have the Christmas Party, more later. There will be a special article in Sport Aviation by a Chapter 43 member. It's going to be good, so watch for it.

John Forrester announced that his Rand KR-2 flew during some taxi testing, tach time on his aircraft is at 5 hours. John is also looking for a hanger mate at Aurora Airport, he has a new Port-a-Port hanger to share for \$65 per month. Gene Horsman and Ron Denight have the Luscombe back on it's wheels. Roy Maneely is painting, wiring, and plumbing his 1959 Bellanca "260". Roy was talking to the folks at Platte Valley Airport and it seems they are considering the possibility of selling car gas. Brad Davenport reported the 720 channel Terra radio was selling like hot cakes, and also said his T-car was almost ready for covering.

At the risk of offending some of my readers, I have to report that on December 10, 1983 the ultra-lights that have plagued the Erie area for so long, will be banned forever.

Longmont Airport is changing traffic patterns at the first of the year, this change will be for noise abatement over the town.

The FAA has put out a two page ALERT on Cleveland brakes, read it. Kirby White brought a flight helmet, City Surplus has them for ten bucks. Congratulation to Chapter 660 and their new President Marilyn Schneider. Dave Biesemeier recently took a trip to Duncan, Oklahoma to see a Mazda engine demonstration. Smoooooooooooooth

We took a coffee break at 8:28 P.M. watched two movies, and adjourned the meeting at 9:45 P.M.

THIS MONTH: The December meeting will be at 2463 S. Laredo, Aurora. This is Roy Maneely's residence, for those who haven't been there before, a map with the time, date and directions is on the back page.
