I've decided to sell my Lincoln Tig 185 welder. I have lots of extras to go with it, and will transfer the argon tank lease to the buyer. The extras include the cart, tank and regulator, auto darkening helmet, two torch hoses/ handles, (small and large), two boxes of tungstens of various types and sizes, and many pounds of steel and aluminum rod. It has been used less than 100 hours. I am going to put it on Craig's List soon for \$1500, but wanted to see if anyone local is interested first, and will sell to a chapter member for \$1400.

Thanks Dave Bieseimer 970-669-2286 [dbieseimer@comcast.net](mailto:dbieseimer@comcast.net)

**Famous Aviation Quotes**

I ask people who don't fly, "How can you not fly when you live in a time in history when you can fly?"  
— William Langewische, 2001

I have lifted my plane . . . for perhaps a thousand flights and I have never felt her wheels glide from the Earth into the air without knowing the uncertainty and the exhilaration of first-born adventure.  
— Beryl Markham

The way I see it, you can either work for a living or you can fly airplanes. Me, I'd rather fly.  
— Len Morgan

The fascination of flight can't be expressed with words. But it really lies beyond the capabilities of human endeavor. Once you've experienced it, you'll never be able to forget it.  
— Friedrich Oblessor, 127 victories WWII

I've never known an industry that can get into people's blood the way aviation does.  
— Robert Six, founder of Continental Airlines

To most people, the sky is the limit. To those who love aviation, the sky is home.  
— anon

We who fly do so for the love of flying. We are alive in the air with this miracle that lies in our hands and beneath our feet.  
— Cecil Day Lewis
