The next Chapter 43 meeting will be September 11th at Metro Airport Mt Evans Room at 7PM with Dr. Donna Sue Gerren, Sr. Professor of Aerospace Engineering at CU.

Minutes of The Pizza Meeting Aug. 14, 2010

Scott called the meeting to order and greeted the visitors: *Tom Krell Sr., Tony Cochran, Rob Koplitz, Sheldon Sundsmo, Scot Gates and George Grell's son.*

Progress Reports: *Georg Grell* is getting the fuselage ready to cover. *Glen Rewerts* installed the wiring for the instrument panel on his RV-7.

Trip Reports: *Roxie Juul* went to Hawaii for the 99's.

Safety Report: *Bob Wilson* told about a Bonanza just missing some skydivers at the Longmont Airport. Do not over fly Vance Brand Airport. Your prop becomes a weed wacker in a parachute line.

Treasurer Report: The Chapter still has money in the bank.

Scholarship Report: *Lynn Miller* reported the funds are doing well.

Note: *Gene Horsman* is recovering well at home after his fall from a ladder.

Youth Report: *Destiny* mentioned that the youth need a place to meet and need an adult coordinator for the group. *Pat Miller* stepped up and took the position.

Young Eagle Report: *Art* mentioned the use of website for sign up and need for pilots and ground crew for the Erie Air Fair.

Our Oshkosh program started out with *Destiny* presenting a Power Point display of her trip to the Air Academy. I believe there were about 3,205 photos

PILOT'S TIP

FAA Controllers To Use New Terminology Prior To Takeoff

It's Official. "Line Up And Wait" Will Replace "Position And Hold"

Pilots authorized by air traffic controllers to taxi onto runways and await takeoff clearance will be instructed to "line up and wait" rather than "position and hold" beginning on September 30 under new terminology adopted by the FAA. The new terminology, which was recommended by the National Transportation Safety Board, conforms to terminology used internationally under ICAO guidelines.

A safety analysis conducted by the FAA's Air Traffic Organization Terminal Services determined that adopting the phrase "line up and wait" will eliminate confusion, particularly among pilots who also fly overseas, and further reduce the risk of runway incursions.

Beginning September 30, controllers will state the aircraft's call sign, state the departure runway and then instruct pilots to "line up and wait," i.e., "United 451, Runway 33L, line up and wait." The phrase, "traffic holding in position" will continue to be used to advise other aircraft that traffic has been authorized to line up and wait on an active runway.

YOUNG EAGLES

It was a beautiful day for an airplane ride; the sky was clear, the winds were calm, the volunteers were ready, and the kids were lining up. This past August 21st, we held our Young Eagles rally along side the Erie AirFair. Starting about 7:45, the registration forms started piling up, kids were being escorted to the planes, and the ground control personnel started directing aircraft to and from the runway. During the next 3½ hours, we flew 96 kids. For about 85 of these kids, this was their first experience flying in a small plane. The kids were happy, and their parents were very thankful that we could provide this opportunity for their child. This is what Young Eagles is all about – introducing kids to the excitement and adventure of aviation.

We could not do this without the support of EAA 43, our pilots, and ground volunteers. For this rally, we had our largest turnout of pilots (17) and ground volunteers (18) – Art and I greatly appreciate each and every volunteer, and thank you for making this a great Young Eagles rally. I apologize in advance if I miss any volunteers.

Pilots: Scott Serani, Steve Beach, Rob Bender, Paul Hahn, Herrill Davenport, Rob Breitbarth, Stephanie Wells, Stan Specht, Bill Mitchell, Cliff Goldstein, Jean-Pierre Verdier, Al Godman, Dave Johnson, Rod Lueck, Cowden Ward, Pete Kelley, Myles Lee

Ground: Emilia Barr, Roger Newman, Eric Serani, Dallas Toon, Mike Powell, Georg Grell, Daphne Davenport, Dan Sherwood, John Reuterskiold, Don Smith, Bob Wilson, Tyler Garrod, Roxie Juul, John Juul, Destiny Krell, Chuck Custer, Art Schwarz, Nila Lee

I want to thank a couple volunteers in particular – The laptop we use to print certificates for the kids decided to take the day off – but thanks to Emilia, Daphne, and Roger, they hand printed all 96 certificates and logbooks.

Thanks to all the volunteers that made this a successful Young Eagles Rally.

September Program

Our September program will be Dr. Donna Sue Gerren, Sr. Professor of Aerospace Engineering at CU. An aviation lifer (a member of the Colorado 99's) who, prior to her tenure at CU, was affiliated with Boeing, McDonnell Douglas and with a private firm directly involved in aircraft accident investigation. Her topic will be "Case Study of ValuJet Airlines Flight 592: An Overview of Aircraft Accident Investigation and Analysis." Scott
