HAVE A GREAT FLIGHT

**NEXT MEETING FOR CHAPTER 43 IS ON
DECEMBER 10TH. AT JEFFCO TERMINAL BUILDING IN THE
MOUNT EVANS ROOM AT 7 PM.
PROGRAM IS ROCKY MOUNTAIN FLY-IN DVD.**

November Minutes

We had an early start to our meeting in order to have an informal memorial for Ron Denight and Ruby Lanich. A lot of stories were told, some enlightening and some funny. We all agreed that they left us too soon.

GUESTS: Laura Shuey, building an RV-8A.

Hank Meewis helps on Greg Halls' Fisher Horizon 1.

NEW BUSINESS: Mark Graf read a detailed treasury report.

* Stephanie Wells reported that we could have our Holiday party at several different places. Dave Biesemeier made a motion that we look into it further. The issue was set aside.

* Stan Specht opened a discussion as to whether Chapter 43 should buy bricks for Ron and Ruby. Another alternative was offered to name a room in a future Chapter 43 building in their honor. After some discussion, the idea was put on hold for later consideration.

* Changes to the by-laws were discussed. Clean up and grammar corrections were also discussed. It was decided that we would put the proposed changes out through E-mail for a vote.

* Elections: Roger Newman was elected President. Greg Hall & Stan Specht elected Vice-Presidents. Bob Young, Secretary. Treasure to be elected in December.

TRIP REPORTS: Bob Wilson, Pat Claar, Stan Specht, Tom Thomlinson and others went to Copperstate. They reported that it was hot, windy and dusty. Tom developed some engine trouble over the Grand Canyon (wouldn't you know it?).

* Lothar Klingmuller and Hannalore flew to Page, AZ. They did a little hiking in the area. Hannalore related how she scared off a mountain lion while standing waist deep in water, in her underwear, armed only with a pair of Banana Republic shorts. Fun story.

* Charles Graf along with 7 other pilots with their planes flew to Scots Bluff, NE for a fly-in. He reported that it was very nice.

* Dean Cochran visited Mark Yelich at his ranch. He reported that Mark is not looking well. Let's hope that he gets better.

Progress Reports: Paul Overdier made his first flight in his Challenger on October 17th.

* Scott Surani has the legs, feet, brakes, and engine mount on his RV-10.

* Stephanie Wells is working on her cockpit. She says it is going slow.

Other Stuff: Henry Ward thanked Chapter 43 for sending him to Air Academy. He learned a bit about wood, metal and fiberglass construction. He rode there with Lothar.

* Carl Gentzel gave a short clarification on the 501(c)3 status of Chapter 43.

Lothar Klingmuller gave a wonderful presentation on his trip to Central America.

Sent to Bob W.

EAA CHAPTER 43 ANNUAL BANQUET

JANUARY 14, JANUARY 2006

5 PM – 8 PM

NEWS AND OTHER STUFF

Our own Joe Jones and his one-man art show at Wings Over The Rockies Air & Space Museum. Hope enough of the members got the e-mail to attend. Tuesday night Dec. 6th. from 6-9PM. Called "SPIRIT OF AVIATION" RSVP 303-360-5360 x114

Now published in nearly two dozen prestigious books on Adobe Photoshop and Adobe Illustrator, much of Joe's work has been showcased as textbook examples of the best digital artistry in the world today. With the soul of a flyer, Joe's trail blazing digital aviation design and illustration have landed him accounts with clients such as Adobe Systems, Rolls Royce, Aviation Nation, Frontier Airlines, Adidas and performers such as Carlos Santana. His work can currently be seen in national air publications and museums throughout the United States and England. Congratulations Joe. Can I have your autograph?

Topic: In-depth insight into Weight & Balance. Seminar highlighting the principles of how an aircraft flies when adhering to the proper weight and balance.

NEEDED

Looking to purchase an Ellison EFS-2 throttle body. Bill Brock n440sx@yahoo.com

EDITORIAL

It is with great joy that I have served as Chapter 43 Newsletter Editor this past 21 months. In January Dave Bieseimer will take over the task. Thanks to a recent election, I will remain on as secretary. It has been a good run. As with every flight there is wind, clouds, mechanical failure, lack of time, rough landings, and sometimes put into a holding pattern. When it all comes together, I just thank God, do a post flight and go to the meeting. Many thanks to those of you that have helped me with the project and have made me welcome in the chapter.
