We meet at the EAA 512 green Quonset hangar, on the north-western side of the airport

Looking for some light reading? Maybe some inspiration for your project?

[CHAPTERS.EAA.ORG/EA512/P  
ROJECTS/MEMBERS-  
BUILDERS-LOG](https://chapters.eaa.org/ea512/projects/members-builders-log)

Catch up on our  
Members Builder's  
logs!

November thru March, join us for the General Meeting at 7pm.

April thru October, come early for a Potluck Picnic Social at 6pm; followed by the General Meeting at 7pm.

- The chapter will provide hotdogs and hamburgers for the picnic. Please bring a side dish or dessert to share.

Bring your aviation enthusiasm and we will do our best to answer your questions and share the **many** exciting opportunities that the Experimental Aircraft Association has to offer our aviation community.

# PREZ SEZ

## *Volunteers*

are the backbone of our Chapter. It starts with our Board of Directors. These 7 people make sure the behind-the-scenes activities run smoothly. That goes from necessary paperwork, to financial planning, to activity coordination. It's more than 7 people can handle, so, we have 26 committees to oversee the details of our numerous events.

Those include:

- Build and Fly
- Eagle Flights/Flying Start
- Election Committee
- Facebook
- Fledgling Ground School
- Fly Out/Events
- Garden Upkeep
- Grants/Fundraising
- Ground School
- Hangar Maintenance/Repair

# The \$500 Breakfast Club

Please join us  
8:30am Apr 12  
RSVP to Beki

Love aviation? Love breakfast? Perfect—so do we! **The \$500 Breakfast Club is where aviation enthusiasts cook up fresh ideas (and maybe some bacon) to raise at least \$500 a month for EAA Chapter 512.**

Our mission? Fund hangar maintenance, fuel scholarships, and make sure our events are as unforgettable as landing at KOSH. **But don't worry—we're not asking you to donate!** We're here to brainstorm creative ways to generate funds, not pass the hat.

Come hungry, bring your best fundraising ideas, and enjoy a potluck brunch that's just as satisfying as a smooth takeoff. Let's turn creativity into cash, one bite at a time!

## FLEDGLING GROUND SCHOOL

EAA 512 Treasurer Judi Gordon holds a mini "Ground School" for kids passionate about aviation, but still just a bit too young to start official lessons.

Topics are taught at an age-appropriate level, and are engaging and interactive. Meetings are held quarterly at Judi's home in Cameron Park @ O61. Lessons are followed by snacks and an aviation-related movie.

To join us for the **Quarter 2 session, Aerodynamics,** contact Judi at [ea512pvf@gmail.com](mailto:ea512pvf@gmail.com)

## PREZ SEZ, CONT'D.

**It's a lot.** More than just a handful of people can handle. We need more volunteers! If there's anything in that list that you're interested in helping with, PLEASE, let us know.

Spring brings an immediate need for additional volunteers. Great flying weather is just around the corner. This is a time for us to clean out our hangers and get our aircraft in tip-top shape for summer fly-ins, displays, and Eagle flights. When you're cleaning out old hardware, keep in mind that we're still recycling cans, bottles, and metals. Anything you don't want, bring over to our hangar. We'll sort it.

Spring cleaning also extends to our Chapter hangar. We're going to have a general Cleanup/StraightenUp Day on Saturday, March 29th . Besides dusting and sweeping, we'll be taking inventory and discarding old, useless materials (again, hopefully for recycling). We can use all the volunteers we can muster.

Spring also ushers in our Pancake Breakfast season. Our first breakfast will be Saturday, April 5th . Come on by. Invite your friends. Invite your not-friends. The biggest chunk of our Chapter revenue comes from these breakfasts. Let's make sure we kick off the season in a big way.

## HELICOPTER WAKE TURBULENCE - PILOTWORKSHOPS

By Audrey Brand

PVF now has almost daily helicopter activity between two active taxiways with the El Dorado Co Sheriff hangar now storing their helicopter located on Ramp "C" Charlie. They tow the helicopter from the hangar and position between the two taxiways taking off and landing from this position.

In my small plane, if I see the rotors turning, I know not to get anywhere near that area. Once while having lunch at Auburn, I witnessed a larger helicopter taxiing by a row of planes and one Cessna 152 had it's vertical stabilizer damaged from the rotor wash whipping the tail back and forth. # GO AERO ANNOUNCES

## STAGE 1 WINNERS

Rob Bulaga

Last year, GoAERO launched the [GoAERO Prize](#), a global competition committed to inspiring the creation of Emergency Response Flyers that rescue people in danger and respond to disaster wherever it is found. With more than \$2 million in prizes, the competition will create safe, portable, robust, autonomy-enabled flyers. Teams competing in the GoAERO Prize will compete over a three-year period and benefit from expert mentorship, global exposure, access to software, products and services, and monetary prizes.

The competition is broken down into three stages. Stage 1 was the preliminary design of a concept vehicle, describing the technical approach and project plan. Stage 2 is the fabrication of a subscale, proof-of-concept vehicle. Stage 3 will be the final fly-off of full-sized aircraft.

GoAERO is currently composed of 198 teams from 85 countries around the globe. Last month, GoAERO announced its Stage 1 Winners. **My company, Trek Aerospace ([www.trekaero.com](http://www.trekaero.com)), is proud to be one of those 11. Our Stage 2 aircraft is already under construction.**

The innovative aircraft being developed through this competition will be equipped with cutting-edge technology to perform rescue and response missions after natural disasters, medical emergencies, and other humanitarian crises; technology that has the potential to save countless human lives. In the wake of wildfires in California, flooding in Valencia, and congestion snarling traffic around the world, these autonomy-enabled emergency response aircraft are needed now more than ever.

\$10,000 was awarded to each of the 11 Stage 1 winners. They are:

- A2 Cal (Berkeley, California, United States)
- CraneAero (Cranfield, United Kingdom)
- Elevate (Delft, Netherlands)
- Harmony (College Station, TX and Stillwater, OK, United States)
- HORYZN (Munich, Germany)
- LIFT + UT Austin / Texas Aerial Robotics (Austin, Texas, United States)
- MOSTAVIO (Toronto, Ontario, Canada)
- MOYA AERO (Sao Jose dos Campos, Brazil)
- Penn State University (State College, Pennsylvania, United States)
- Tartan Air Rescue (Pittsburgh, Pennsylvania, United States)
- **Trek Aerospace (Folsom, California, United States)**

# GO AERO *continued*

An additional \$400,000 was awarded, through NASA's University Innovation project, to be split between 14 U.S.-based university teams. They are:

- Aggie First Response, North Carolina Agricultural & Technical State University (Greensboro, NC)
- AirCRAFT Lab, Saint Louis University (St. Louis, MO)
- ASCEND Team, University of Texas, Austin (Austin, TX)
- ASDL, Georgia Institute of Technology (Atlanta, GA)
- CPP.AERO Pegasus, California Polytechnic University, Pomona (Pomona, CA)
- GoAERO Purdue, Purdue University (West Lafayette, IN)
- Harmony, Texas A&M University & Oklahoma State University (College Station, TX and Stillwater, OK)
- PSU Swift, Penn State University (State College, Pennsylvania)
- Rescue Pack, North Carolina State University (Raleigh, NC)
- Talon Lift, Embry-Riddle Aeronautical University (Daytona Beach, FL)
- Tartan Air Rescue, Carnegie Mellon University (Pittsburgh, Pennsylvania)
- The Sloopy Works, The Ohio State University (Columbus, OH)
- VSDDL, Auburn University (Leeds, AL)
- Virginia Tech, Virginia Polytechnic Institute and State University (Blacksburg, VA)

~Rob

*"Every second counts in an emergency. There is a growing gap between what current aircraft can do and what first responders need. Emergency Response Flyers created through the GoAERO competition will give every first responder life-saving aerial capabilities to ensure dynamic response to modern-day emergencies," said Gwen Lighter, GoAERO Founder and CEO. "Our Stage 1 winners are some of the brightest minds in the aviation and engineering industries, hailing from all over the world."*

## Help Needed: Hangar Cleanup Day

Join us on **March 29 at 9 AM** as we ready the hangar for our 2025 First Saturday Pancake Breakfasts!

We'll be tackling tasks like:

- ✓ Yard cleanup
- ✓ Sweeping and mopping floors
- ✓ Kitchen cleaning and prep
- ✓ Other general tidying up
- ✓ Wiping down tables and countertops

Please note that we won't be doing repairs during this time, as those are planned and handled separately.

**We'd love to have as many hands on deck as possible—hope to see you there!**

The shortest commercial flight lasts only 2 minutes.  
It takes place between two islands in Scotland.

**Trivia Answer:**  
"Gran' Pappy" was not only the first B-26 stationed at Laughlin AFB in Texas, but 'he' also paved the way for the thousands of Martin Marauder medium bombers that significantly contributed to the victory in World War II. Although 911 B-26s were lost in combat during the war, it boasted the lowest casualty rate of any Allied aircraft, with a loss ratio of under 1%.

# NOV 10, 2025 RAFFLE

## Item # 1 - Al Herron's Leather Jacket

Around 15 years ago, EAA offered a special one-year program allowing each chapter to purchase a unique leather coat. While the program initially limited chapters to a single coat, our then-president's efforts secured three for our chapter. These coats, with a retail value of \$900 each, were raffled off as a major fundraiser. The lucky winners were Tim Sullivan, Bob O'Hara, and Al Herron. Sadly, January 2025 will mark the second anniversary of Al's passing. His widow, Gail Herron, has generously donated his coat back to the chapter for another raffle, giving someone new the opportunity to enjoy this special piece.

## Item # 5 - Airplane-themed Quilt

This delightful piece features a playful pattern of little airplanes soaring across a sky-blue backdrop with little puffy clouds. The cheerful design is complemented by a classic striped backing, adding a touch of timeless style. But don't let the whimsical design fool you – this is a quilt of exceptional quality. The carefully chosen fabrics are soft yet substantial, promising warmth and comfort. The binding, that crucial edge finishing, is expertly sewn with a clean and professional finish that will withstand years of use.

And don't let its charming appearance deceive you about its size: this is a generous **80"x80"** quilt – perfect for snuggling up on a full-size bed, draping over a smaller one, or even using as a cozy throw on the couch.
