President's Message

Greetings and Happy New Year to everyone!

We are looking at a busy year for the chapter. In the planning stages are the banquet, multiple fly-outs, the return of the Ford Tri-Motor, Frederick Festival of Flight, and Keymar picnic. Stay tuned for the upcoming details on those events.

Just a quick reminder, the chapter member 2025 renewals are due. Please see Ernie to renew.

We continue to work on our airplane projects in the comfort of our heated chapter house-please join us if you can on Thursdays and Saturdays.

Be safe and keep warm and I hope to see you at the airport.

Bob Milller
President
EAA Chapter 524

Van's Aircraft Service Bulletin Reminder

Date issued: 10-8-96

VAN'S AIRCRAFT, INC.
P.O. BOX 160 • NORTH PLAINS, OREGON 97133 • (503) 647-5117

Service Bulletin
Number: 96-10-1

Synopsis: Affects users of Van's FAB-320 and FAB-360 filtered airboxes. Bolts attaching the top plate of the airbox to the carburetor may come loose and be ingested in the engine, possibly causing severe damage.

Correction: The four bolts used to fasten the VA-130C (FAB-320) or VA-131C (FAB-360) to the carburetor must be safetied. This may be accomplished by either using bolts with drilled heads and safety wiring them in pairs, or by installing tab lock washers under the bolt heads. If the tab lock washers are used, a 1/8" hole must be drilled in the top plate for the tab that prevents the washer from rotating. After the bolt is installed, an ear of the washer is bent up against one flat of the bolt head, preventing the bolt from moving.

Raegan has been busy with various RV inspections and is concerned that owners may overlook this old bulletin item. It applies to all RV's except RV 12 & RV 14.

"It states that the 4 bolts connecting the air box (top platelet) to the carburetor can come loose and get ingested (consumed) into the engine. To fix it, add safety wire or tab washers. Please check on these fairly regularly."

EAA Homebuilders Week

January 27- 31 2025

Homebuilders Week - Online Event Starts January 27th

30 online sessions to expand your knowledge of building your own aircraft

By Charlie Becker, EAA Homebuilt Community Manager

Homebuilders Week is an online opportunity to carry on the founding mission of EAA by sharing as much knowledge and information about building your own aircraft as possible in five days. We start on Monday, January 27th, 2025, and end on Friday, January 31st, 2025. Each day, we offer six live webinars running back-to-back, starting at 11:30 am central time and running every hour and a half until the last session at 7pm central. The sessions are live and allow time for questions. To sign up for the sessions, visit www.EAA.org/HomebuildersWeek

The topics cover something for everyone, whether you are just considering the idea of building an aircraft, are knee deep in a project or getting ready for test flying. We even have EAA president Jack Pelton lined up on, January 30th, to talk about EAA's Advocacy efforts on behalf of the homebuilt members.

EAA Homebuilders Week follows immediately after the anniversary of the founding of the Experimental Aircraft Association on January 26th, 1953. I can't think of a better way to recognize our organization's founding than to spend 5 straight days learning about homebuilding.

EAA Homebuilders Week is made possible through the generous sponsorships of Aircraft Spruce & Specialty Co., Dynon, Scheme Designers, and Van's Aircraft.

Visit www.EAA.org/HomebuildersWeek to sign up.

Time CST	Monday 1/27/25	Tuesday 1/28/25	Wednesday 1/29/25	Thursday 1/30/25	Friday 1/31/25
11:30-12:45	Building an Aircraft: What You Need to Know - Charlie Becker	Wiring Basics - Dick Koehler	Flight Testing 101 - Paul Dye	EAA Advocacy Update: Top Homebuilding Issues and the Impact of MOSAIC - Sean Elliott, Rob Hackman, & Jack J. Pelton	Staying Alive: Analysis of Homebuilt Fatal Accidents - Dave Nelson
1:00-2:15	Sheet Metal Basics - Mike Dooley	TIG Welding - Charlie Becker & Shaun Walker	Composite Construction - Mark Fors	Amateur-Built Aircraft Certification Process - Joe Norris	Liability of Selling Your Homebuilt - Kathy Yodice
2:30-3:45	Fabric-Covering Basics - Nate Hammond	Getting Your Project Finished and Flying - Vic Syracuse	Buying a Used Homebuilt - Vic Syracuse	Sonex Highwing Update - Mark Schaible	Zenith Aircraft Kits & Plans - Sebastien Heintz & Roger Dubbert
4:00-5:15	The Need for Speed: Kitbuilt Options - Dave Forster	Hardware for Homebuilts - John Cox	Advanced Flight Systems - Rob Hickman	Garmin Experimental Avionics Solutions - Brad Brensing	Weight and Balance - Joe Norris

2024 Financial Report

Board Meeting

DECEMBER 2024

Income

Dues	\$60.00
50/50 Raffle	\$50.00
Scholarship Donations	\$3,030.00
EAA Workshop	\$0.00
FSF Utilities - reimbursement	\$0.00
Donations	\$530.00
Banquet Income	\$0.00

Total Income for December \$3,670.00

Expenses

Hangar Rent	\$272.00
Event Expenses	\$0.00
Member reimbursement	\$0.00
Scholarship	\$981.75
EAA Dues	\$656.00
Banquet Costs	\$0.00

Total Expenses for December \$1,909.75

Profit/Deficit \$1,760.25

Checkbook Balance \$50,479.45

Paid Members 55

Scholarship Fund \$10,147.58

Veterans Build Fund \$20,532.50

★ One member donated \$2,000. Linda Miller headed up (and worked long hours on) the gift wrapping fundraiser at Boscovs which netted a whopping \$1,030. Way to go Linda and all the volunteers!

09 Jan 2025

Bob Miller, Steve Gross, Kevin Delmolino, Mary Ann Alvarado, Ernie O’Roark, Erick Webb, Terry Smith joined at 7:42 pm

Meeting called to order at 7:07 pm by Bob Miller

★ Bob shared that Dean Stickell’s wife passed away in December. They’re holding a celebration of life on Friday, Jan 31 at 11 a.m. at the Frederick Church of the Brethren, 201 Fairview Ave, Frederick, MD 21701. The Chapter is welcome to come.

★ Bob wanted to check in to see if the Board wanted to consider any changes to the budget. Rent is \$272/month for the hangar. Member dues don’t cover expenses for the year, but projects and other fundraisers help offset operating costs for the year. We currently have about \$50,000 in the bank. \$20,000 belongs to veterans build (\$12,500 was just given for instrument panel). \$10,000 is scholarship fund. Half of the 50/50 raffle is also assigned to scholarship fund. Most of the \$20,000 surplus money in the bank is a result of the sale of the Rans. Christmas wrapping brought in over \$1,000. Festival of Flight also brought in funds.

★ In the past, banquet tickets have been expensive, but we still lose money for the event. We’re currently looking at dates in April.

★ Steve suggested quarterly fly-outs as “dollar neutral” ways to get the Chapter together.

★ Bob asked if we wanted to start using CashApp/Venmo/Zelle and other digital forms of payment. We lost out on money at the Festival of Flight and gift wrapping fundraiser. Steve will do some research on ways to take digital payments and report back next month.

★ Bob brought up the PA-12 again. We need to rescue it from its current location and decide what will be done with it. Ernie suggested we wait until the weather improves to retrieve it; in the meantime, we need to decide where we’re going to store it. Once the Zodiac and RV-12 and other projects are done, we can start inspecting/doing inventory on the PA-12. When we know what we have and the condition, we can advertise it as a restoration project. Steve may have space in his hangar at Keymar to store the PA-12.

★ EAA offered us the Trimotor October 10-12. We will reply in the affirmative.

Meeting adjourned 7:55 pm

Submitted,
Erick Webb, Secretary

Congratulations Dan Morris!

... the recipient of:

The Wright Brothers Master Pilot Award - recognizes pilots who have demonstrated professionalism, skill and aviation expertise by maintaining safe operations for 50 or more years.

The General Aviation Awards Program is a cooperative effort between the Federal Aviation Administration (FAA) and aviation industry sponsors to recognize annually outstanding individuals in the fields of Flight Instruction and Maintenance. In addition, the program recognizes outstanding individuals serving the FAA Safety Team (FAASTeam) as representatives. The awards highlight the important roles these individuals play in promoting aviation safety, education, and professionalism. Winners will be recognized locally and nationally. National winners will be recognized during AirVenture-Oshkosh each July.

Alexander's Travel Journal

I set off in early December to travel the world with my family and circumnavigate the globe on our working-family budget. It's been quite an adventure so far! We started in Turkiye, then visited Cyprus where we visited an unrecognized occupied part of Nicosia. We moved on to Hong Kong for the city escalators and ferries, then to Macau for futuristic casinos. Northern Thailand into Laos for days sailing on a boat down the Mekong. Next was Sulawesi for tarsiers, coral reefs and volcanoes. We are now in Bali for a rest before heading to India.

I seek out airplanes and aviation related possibilities everywhere! While my family hasn't been AS enthusiastic as I am about trying to visit airports to watch airplanes, I have caught some interesting planes along the way. Here are a few favorites!

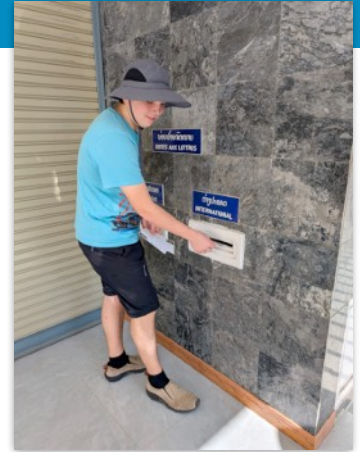

Photo 4: And here are 2 non-aviation photos. The first one is of me next to the old bombs dropped on Laos. We learned a lot about their impact in Laos, even today, as UXO.

Alexander Conroy

Photo 5: And here is me sending off a postcard to the chapter (via Bob Miller) from Luang Prabang, Laos, to the chapter. (I hope they make it!)

Photo 1: When we were crossing a bridge I saw this Royal Thai Airforce C130. (Photo Location: Chang Rai, Thailand)

Photo 2: When we were waiting for our flight in Singapore we saw the 10,000th Airbus aircraft ever manufactured (A350) (Photo Location: Singapore)

Photo 3: This is an ARJ700 made by China... Kinda reminds me of the CRJ... (Photo Location: Manado, Sulawesi, Indonesia)

Chapter History from John Baker Archives

John Baker Back to 1989 when John Beers was flying his highly modified Bakeng Deuce. He was a longtime member of EAA Chapter 524 in Frederick, Maryland. John, who passed away years ago, was a classic EAA homebuilder, long before the era of "fast build" kits. Scratch built in his garage in Silver Spring, Maryland, John incorporated numerous changes to the original design. He changed the shape of the tail surfaces and turtle deck to suit his tastes. He built a two place fiberglass engine cowling of his own design. Most significant was the landing gear modification. In place of the standard spring steel gear, John designed and built an outrigger gear that incorporated Aeronca oleo struts. John called the plane "Mina's Goose," in honor of Mina Paille, the legendary owner of Davis Airport (W50) in Laytonsville Maryland. On my 40th birthday, I was hanging out at the airport, completing an oil change on the Stinson. Sukey contrived for me to go flying in the "Goose" with my friend Jack Roberts. We ended up at College Park Airport (CGS) where Jack suggested we get a cool drink at the 94th Aero Squadron Restaurant on the field. Once inside, I was surprised by about 40 friends and family members. What a day. #airplanesarecool #eaa #bakengduece #eaa524

Gerard Blake recalled a story about this pilot and plane during 2024 Dec meeting and presentation, "Aircraft Exhaust Systems".

Frederick VMC Club

IMC Club meets: Wednesday after the third Tuesday of each month at 7:00pm. (Always the day after IMC club!)

Location: Chapter 524 Aviation Education Center/Hangar, Frederick Municipal Airport

EAA 524's VMC Club is a discussion group for VFR pilots of all experience levels. The VMC Club meets on the third Wednesday of each month, the day after the IMC Club meets. The VMC Club offers monthly meetings in which pilots can network and share knowledge and experience. The meetings use real-world scenarios to engage members, and allow a free exchange of information that improves awareness and skills. The VMC Club is a hybrid meeting - in person at the hangar and remotely using Zoom. More information about the club and its mission can be found on our website at <https://chapters.eaa.org/ea524/vmc-club>

Frederick IMC Club

IMC Club meets: third Tuesday of each month, 7:00 p.m.

Location: Chapter 524 Aviation Education Center/Hangar, Frederick Municipal Airport

Interested in learning more about IFR flying? Scenario-based discussions are available here.

A community of pilots willing to share information, provide recognition, foster communications, promote safety, and build proficiency in instrument flying. IMC Club chapters offer monthly meetings in which pilots can network and share knowledge and experiences. Now meeting in person at the hangar. Drop by and share in the knowledge.

More information about the club and its mission can be found on our website at <https://chapters.eaa.org/ea524/imc-club>

Chapter Meeting Location & Time

Chapter 524 meets: first Thursday each month, 7:00 p.m.

Location: Chapter 524 Education Center/Hangar, Frederick Municipal Airport

As you enter the airport, park in the Terminal Parking lot. Walk south past the Frederick Flight School (yellow building). There are signs on the end of the second row of hangars for the Chapter. Additional information can be found on the Chapter website: <https://chapters.eaa.org/ea524>

Frederick Municipal Airport ,
330 Aviation Way, Suite J, Box #9
Frederick, Maryland 21701

EAA 524 Chapter Website

The EAA Chapter 524 website:

<https://chapters.eaa.org/ea524>

The website has contact information and details about current Chapter events. Also on the website, you can find archived newsletters and a membership join/renewal form.

Chapter Facebook Page

You can find us on Facebook at www.facebook.com/EAA524

EAA Chapter Community

The EAA Community is huge. EAA Chapters, Ultralight, Acrobatics, and more. Many of these organizations are within an easy drive from Frederick. “ ... Several of our members belong to more than one Chapter, and talk about some of the events that their other Chapter is doing. Unfortunately, we often don't find out in enough time to be able to attend or even volunteer to assist. This section will provide others in our nearby Chapters to promote their news and events.

In addition, some of the smaller Chapters aren't able to have a newsletter due to man- power or resource issues. The deadline to submit items for this section is one week before the end of each month. “
