### President's Message

Happy New Year Everyone!

January is a time when we traditionally reset. We look back on the past year(s) and make New Year's resolutions. New year, new you.

Whatever your aviation related resolutions are, please remember that you are Pilot in Command (PIC) of your goals, regardless of whether you have a pilot certificate or not. New rating? You got this. Finish the airplane project? Just do a little bit each day and it will be flying soon!

At the national and chapter level there are a lot of resources available to help you make it (whatever 'it' is) happen. On the national level, Homebuilders Week is coming up at the end of the month. Chapter-wise, we have at least 2 aircraft builds going on and a lot of talented people volunteering to be Technical Counselors and Flight Advisors. The VMC and IMC clubs are a great way to keep your head in the cockpit during the winter months.

We also have a few volunteer opportunities coming up... June 15-18 we will be hosting EAA's Ford Tri-motor Tour and will need many hands. In the Fall the airport is hosting a public open house and AOPA is also working on an event at FDK. Two separate events, twice the fun! We will let you know as details become available, but these are somethings to look forward to. I can't think of a day better spent than helping people and talking about airplanes!

See you around the airport!,  
Chris  
President  
EAA Chapter 524

# January Presentation

05 Jan 2023

Meeting called to order at 7:08 pm by Chris Gunther

- ✈️ Ford Trimotor will come in June 15-18. We will need volunteers! Sign up on the signup sheet.
  - ✈️ AirVenture is July 24-30 and there are several potential opportunities for fundraising. Sign up for that, too.
  - ✈️ Tom Comeau reminded everyone that VMC is the 16th IMC is the 17th. Baltimore FSDO "maintenance guy" will be the guest for a "what would you do" lightning round.
  - ✈️ Steve reported that the RV-10 comes back from the paint shop at the end of the week. Thursday, he's flying to the Bahamas. His Pietenpol has an O-200 hangared at 3VA7, has an electric system, and plans to equip it with ADS-B and a fully-functional comm system.
  - ✈️ Dimitry has been at ERAU but wanted to share that he passed his checkride and is grateful for all the Chapter has done for him. Will have his tailwheel endorsement in the spring and will have airframe cert by the end of the year. He hopes to return and serve the Chapter as an A&P in some capacity to repay.
  - ✈️ Mia reported that she did her first dual XC flight on Monday. Was 3x the required distance in a 172 (Leesburg to Suffolk). She also received a Lightspeed headset as part of the scholarship, too.
  - ✈️ Reagan reported that she got her powerplant cert and is working on airframe next.
  - ✈️ Ernie reminded everyone of the 150 restoration project happening Thursdays and Saturdays. Everyone is invited. 9 am to 3 pm on Saturday.
  - ✈️ Jerry Blake presented "Charles & Anne Morrow Lindbergh: Their Lives & Times, The Formative Years"
  - ✈️ 50/50 was \$131; \$66 to Ernie O'Roark and \$65 to the scholarship fund. Big money raffle still has tickets. 20 tickets will be sold for \$25 each. Winner gets \$250. 9 tickets have been sold so far with 11 left.
- Meeting adjourned at 8:40 pm  
Submitted,  
Erick Webb, Secretary

### Marriage Announcement

- On February 12, 1929 Dwight Morrow calls reporters to the Morrow estate in Englewood, N.J. He hands each reporter a slip of paper that states, "Ambassador and Mrs. Morrow announce the engagement of their daughter, Anne Spencer Morrow, to Colonel Charles A. Lindbergh."
- Anne is in Mexico city and Charles is making the first airmail flight between Belize and Havana, Cuba.
- Soon they both become besieged by the press.

### Charles & Anne Morrow Lindbergh 1930

- Charles & Anne continue to live at the Morrow estate.
- Charles continues his relationships with TAT and Pan American Airways.
- Charles purchases 425 acres near the town of Hopewell, NJ and engages an architect to draw plans for a house.
- They continue to be hounded by the media

### International Airline service

- Lindbergh also forges a business relationship with Juan Terry Trippe, founder of Pan American Airways.
- He becomes Pan Ams Technical Advisor for a beginning salary of \$10,000.00 per year.
- Lindbergh would remain active with Pan Am for more than forty years.

### Transcontinental Airline Service

- Lindbergh's new goal becomes to help establish New York to California passenger airline service.
- He becomes chairman of the Technical Committee of Transcontinental Air transport (TAT) for a yearly salary of \$10,000.00 and a signing bonus of \$250,000.00.
- TAT becomes known as the Lindbergh Line.

### Charles Augustus Lindbergh (4 February 1902-26 August 1974)

4 February 1902: Charles Augustus Lindbergh, Brigadier General, United States Air Force, Medal of Honor, was born at Detroit, Michigan. He was the son of Swedish immigrant Charles August Lindbergh (born Karl Månsson), an attorney, and Evangeline Lodge Land Lindbergh, a high school chemistry teacher. Lindbergh attended Redondo Beach High School, Redondo Beach, California, 1917-1918.

In 1920-1922 Lindbergh was enrolled as an engineering student at the University of Wisconsin-Madison. He shared an apartment with his mother who was teaching at the nearby Emerson School. A friend from the university showed Lindbergh a brochure from a flight school. Mrs. Lindbergh is reported to have told the friend, "If Charles goes to flying school, I will hold you responsible." Soon after, Lindbergh left the university and entered a flying school in Nebraska. In 1927, the University of Wisconsin bestowed the honorary degree of Doctor of Laws (LL.D.) on him.

# HOMEBUILDERS WEEK

## SATURDAY, NOV 26 TO SUNDAY JAN 15, 2023

### -Online Event Starts January 23

An online opportunity to learn about all aspects of building your own aircraft

By Charlie Becker, EAA Homebuilt Community Manager

EAA will be hosting our third annual Homebuilders Week online learning event for aircraft builders: ([www.EAA.org/HomebuildersWeek](http://www.EAA.org/HomebuildersWeek)). It will be five straight days of educational forums covering a broad spectrum of aircraft building topics. It will start on Monday, January 23, 2023, and run until Friday, January 27, 2023. The live online presentations will be open to everyone interested in building their own aircraft. Sessions will start at 11:30 a.m. CST and run until 8:30 p.m. CST daily.

This event is an opportunity for a new person to jump in with both feet and learn a lot about the wonderful world of homebuilding. We will cover areas like getting started successfully and techniques when building with sheet metal, composites, steel, and wood. But it won't be just for the newbie; we are offering in-depth talks on panel planning, engine selection, FAA certification, flight testing, and selling a homebuilt aircraft. There will be something for every builder, whether you are just starting out, knee deep in a project, or just received your airworthiness certificate – it is going to be a great learning opportunity.

EAA is working with industry experts, kit manufacturers, and other subject matter experts to provide top-notch material for builders. The sessions will be live and allow time for attendee questions. Recordings will be archived and available to EAA members for review.

EAA Homebuilders Week coincides with the 70th anniversary of the founding of the Experimental Aircraft Association in 1953. Those founding members of EAA lit the fuse on the homebuilt movement that provides affordable access to aircraft ownership and today has spread worldwide.

EAA Homebuilders Week is possible through the generous sponsorships of Aircraft Spruce & Specialty Co., Dynon, Scheme Designers, Inc., and Van's Aircraft, Inc.

Visit [EAA.org/HomebuildersWeek](http://EAA.org/HomebuildersWeek) to review the schedule and sign up for a session.

A huge THANK YOU to everyone who came out to see us today at Frederick Municipal Airport. For an event that was intentionally not very well marketed, the turnout was absolutely phenomenal! The local businesses were very supportive and the community was exceptionally generous with their donations. We have already decided that we definitely want to come back!

Follow our Facebook page for continued updates of [Air North DC-3 Yukon Sourdough](#). There's a lot more coming soon

Some of the groups and businesses that helped make this happen or see us were:

- Van Kirk Aviation Museum
- Frederick Municipal Airport
- Rider Jet Center, Inc
- Hagerstown Regional Airport
- Frederick Flight Center
- Bravo Flight Training
- Signature Flight Support FDK - Frederick Municipal Airport

- Aviation Insurance Resources
- Aircraft Owners & Pilots Association
- D-Day Squadron
- Flying Magazine
- Smokehouse Pilots

If we missed some of the recent contributors and visitors, feel free to message me and we'll gladly add you to the recognition list.

## Frederick VMC Club

**IMC Club meets:** third Monday of each month, 7:00 p.m.

**Location:** Chapter 524 Aviation Education Center/Hangar, Frederick Municipal Airport

EAA 524's VMC Club is primarily oriented toward VFR pilots of all experience levels and has been a huge success!

The VMC Club meets on the third Monday of each month, the day before the IMC Club meets. The VMC Club offers monthly meetings in which pilots can network and share knowledge and experience. The meetings use real-world scenarios to engage members, and allow a free exchange of information that improves awareness and skills.

The VMC Club is meeting in person at the hangar and offering hybrid opinions using Zoom.

More information about the club and its mission can be found on our website at <https://chapters.eaa.org/ea524/vmc-club>

## Frederick IMC Club

**IMC Club meets:** third Tuesday of each month, 7:00 p.m.

**Location:** Chapter 524 Aviation Education Center/Hangar, Frederick Municipal Airport

Interested in learning more about IFR flying? Scenario-based discussions are available here.

A community of pilots willing to share information, provide recognition, foster communications, promote safety, and build proficiency in instrument flying. IMC Club chapters offer monthly meetings in which pilots can network and share knowledge and experiences. Now meeting in person at the hangar. Drop by and share in the knowledge.

More information about the club and its mission can be found on our website at <https://chapters.eaa.org/ea524/imc-club>
