**PRESIDENTS JULY REPORT**

Hello EAA Chapter 538 members, family and friends.

Summer is here. We have already had temperatures of over 115 degrees. If it weren't for some local forest fires causing a layer of smoke over the area preventing the temperatures from going higher. Think of the irony. It was fire that helped keep us cooler. For most of America, summer is the time where we get out of our homes to enjoy the great outdoors, but here in Phoenix, this is when we move indoors. I look forward to September.

AirVenture 2021 is still a go for this year. After last years event was canceled, we are looking forward to a great event this year. While not every event will be permitted this year, it is a great accomplishment to have the air show once again. If anyone is planning to attend the event this year, we would love to hear your stories and see any pictures that you may take. We may be able to find time in future meetings for this. I hope to make my first trip someday, and will definitely go there when my first airplane is finished.

Once summer is over, we plan to begin new activities for our chapter. We will plan on having a pancake breakfast this fall. This will be the first of several over the course of fall, winter and spring. These are a lot of work and require participation of the membership to pull off. It is important for us to begin having these events in order to meet and greet people. Networking and making new friends is essential in order to grow our chapter. Also, these things are fun as well.

Our hangar project is still moving forward. This process is not without hick-ups as we must provide additional information to meet the building requirements by the City of Glendale. We still hope to be in the building by the first of the year. We have had donations from all sorts of places that are currently at a variety of locations. Once there, we will have all our chapter possessions in one place. It will be necessary to sort through everything and determine what is essential to our organization and what is excess. I expect to have a big garage sale where we will part with the excess. Got some excess items at home but not enough to have your own yard sale? How about setting up a table to sell what you have? Thinking like a big community yard sale in order to get a larger crowd. Just an idea I am working through.

We have no speaker for this month. I am requesting anyone who has a 10 minute story to tell about a project or adventure. Just bring pictures on a thumb drive and lets show them to the rest of the chapter.

I look forward to seeing everyone again this month.

## EAA Chapter 538 Monthly Meeting Minutes for June 8, 2021

1. Meeting was called to order at 6:30 P.M. with one (1) visitors, 19 members in person and 4 people were on ZOOM.
2. Our Visitors is Alex Hardt. A Thank You to Mike Samons for volunteering to weld the bi fold door.
3. We did not have a speaker. We showed the May EAA chapter video. Then Darren H presented pictures of his work and process to fix previous work. H also showed how he was forming the wing ribs. He was using a router to cut the ribs. He will use his metal brake to form other parts of the airplane. He followed with a sample of his fiberglass work for his Starduster biplane wing.
4. Steve Stenstrom detailed his search for a new airplane to replace his Cessna 182. He decided on the Sling TSI. It uses a Rotec Turbo charged engine. He went to the build center factory to see the process. In cruise at 85% power it uses 6 gal/hr. It comes with a three blade adjustable prop.
5. The building lost power so we took our break. The power came back within 15 minutes.
6. Darren noted that we have not had any activities/fundraiser's due to the CoVID virus. He is looking forward to an October/November pancake breakfast. The Stellar Young Eagles/pancake breakfast and Our own November Young Eagles event. Pilots get ready and check the chapter website for all the requirements..
7. Darren noted that Copperstate Fly-in is February 11 to 14 at Buckeye airfield. He wants to have a booth to promote our chapter. We need three people for three different days.
8. Darren listed some of the things that have been donated since last month. He also listed some of the activities that we are looking to do next year when the hangar is finished. He listed movie nights, dinner dances, workshops, pancake dinners, hopefully having the EAA Ford Trimotor becoming a permanent stop on its cross country tour.
9. Next month, we are discontinuing ZOOM. Enough people have received their vaccinations.
10. Carlos H gave the following hangar progress report. Our steel is in We have rented two 40 ft shipping containers to store items that will walk away if not locked up. Carlos is coordinating all of the subcontractors, blueprints, architectural drawing etc. He submitted everything for approval/revision to the Glendale Board for city permits. A minor out-of-date record of ownership had to be cleared up with the city. The bifold door has been ordered and will arrive sometime in August.
11. Tad D is flying to Wausau, WI and the onto AirVenture in July. AirVenture is at the end of this month. Finish up your plans.
12. The meeting adjourned at 8:31 P.M. Alex B first and Paul F seconded.

**Calling All EAA Chapter 538 members & Visitors.**

**Along with my request for articles, pictures, info for this newsletter, 42 people out of the 60 or so members have done the ten questions at survey monkey about our chapter and how we can improve it above the great job that Darrin and the rest of the officers/board member are doing. Please take six (6) minutes out of your day to help us make our chapter even better. You can copy and paste it into a web browser and go. You can hold CTRL and click on the link below. If you have already done it, once is enough. Thanks**

**<https://www.surveymonkey.com/r/9NYJZBV>**

**If you have any ideas for speakers for chapter meetings please forward them to Alex.**

**– NOTICE NOTICE –**

**Chris Rute will loan his airplane scales for a donation to the chapter.**

### **Members Information**

John Gregg has us registered for amazon smile.

**<https://smile.amazon.com/>**

When you log into the Amazon Smile site, you must select the charity you are supporting, 538. You will see this area in the black upper band middle of the screen. Note: Currently, Guide Star, the company that Amazon uses to verify qualified charities only utilizes the first line of our name: "EAA 538" is used. Once on the Amazon Smile site, you will order as usual. **Thanks John Gregg Jr.**

**FOR SALE PAGE 3**

My friend Cora Lee in Del Norte , Colorado lives on the airport at KRCV East slope of the rockies East of Wolf Creek pass. Astronaut Kent Rominger airport.

She is is selling her airport hangar, paved taxiway.. Metal, concrete floor, power. 42' by 30' with a motor operator pull up hinged folding door. Right now I think her price is around \$65,000. Her number is 719 - 657 - 0846. If anyone has any other questions or can't get hold of her they can call me .

Rodney at 623-640-4704

Leave a message due to robocalls.

Mark Robinson has a few items for sale. I was going to put these items for sale in the newsletter last month but time slipped by. I would be willing to donate them to the club if anyone is interested.

I replaced all the lighting system and consolidated the engine instruments to a JPI 900. Most of this stuff is original on my 1977 182Q I believe except for the CHT and tach. Everything was working when it was removed in January.

If you think there is any value for the club to sell them I would be happy to donate them. If not I would also just give them away to anyone needing them.

John Robinson 480-285-9260

**ADDITIONAL ITEMS FOR SALE FROM CURT CURTIS**

These shelves are listed on craigs list at \$60. They are free to a club member. Also a two pedestal desk and a metal work bench. the shelves 18 in. wide 3 sections for a total of 9 ft. long. contact CURT 602 809 4446. PRICE = FREE

I have some instruments and landing gear legs, plus wheels. I'm asking \$100 for each. but i need to send the message that they are for sale at any price. They need a home. Also I have some wheels and stuff.

**FOR SALE PAGE 7**

This is Karen Hausteen, we have met a few times at various events and meetings.. Anyway, I have a few items that I would like someone to purchase or take if they could be used. I am not sure how to let you and the EAA chapter know, but here is the information:

2 pairs of yokes, from a Cessna 172

1 set of rudder pedals, from a C 172 also

I also have a few avionics items - not sure what and if they even work.

Anyone that is interested can call me and we can arrange for the items to be seen at my hanger at DVT.

Karen Hausteen

2021. ADS- B needs to be rechecked in

flight with FAA- ATC procedure.

**AIRPORT OF THE MONTH - PAGE AIRPORT CONTINUED**

**History**

Franklin D. Roosevelt (seated, center) at Greenway Ranch in Williams on September 26, 1932, during that year's presidential campaign. He is accompanied by Democratic U.S. Senator Carl Hayden of Arizona, standing far right, along with—among others—three other Democratic senators (seated): Key Pittman of Nevada, Thomas J. Walsh of Montana, and John S. Cohen of Georgia.

Founded in 1881, Williams was named for William Sherley "Old Bill" Williams (1787–1849), a famous trapper, trader, scout and mountain man, who often trapped in the area. A statue of "Old Bill" stands in Monument Park, located on the west side of the city. The large mountain directly to the south is named Bill Williams Mountain. The city was incorporated on July 9, 1901.<sup>[8]</sup>

Williams was the last city whose section of Route 66 was bypassed, due to lawsuits that kept the last section of Interstate 40 in

Arizona from being built around the city. After settlements called for the state to build three Williams exits, the suits were dropped and I-40 was completed.<sup>[9]</sup> On October 13, 1984, Interstate 40 was opened around the town and newspapers the next day reported the essential end of US 66.<sup>[10]</sup> The following year, Route 66 was decommissioned.

The Williams Historic Business District and Urban Route 66, Williams were added to the National Register of Historic Places in 1984 and 1989, respectively.

### CAMPGROUND White Horse Lake Campground

Kaibab National Forest | Near Williams, Arizona

White Horse Lake is an extremely popular fishing lake, 19 miles southeast of Williams, in northern Arizona. The lake's campground is conveniently located an hour from Grand Canyon National Park's south rim and surrounded by the exciting and diverse scenery of Kaibab National Forest. A number of forest attractions are nearby, including scenic overlooks, dams and hiking and mountain biking

### Sycamore Canyon Wilderness

Area Status: ✔  
Open

[View photos on Flickr](#)

Sycamore Canyon Wilderness encompasses the second largest canyon in Arizona's red rock country and was designated a wilderness area in 1972. A lesser known, but equally scenic, cousin of Oak Creek Canyon, Sycamore Canyon Wilderness contains more than 50,000 acres of colorful cliffs, soaring pinnacles, and one of the world's rarest habitats, a desert riparian area.

**- MEMBER BUILDS SHARING -**

## Paul Fisher project status &amp; picture. RV-12 Project update -

The good news is that Vans indicated that the crate date for the wings has moved up to July 21 from July 26. They would appear to be making progress reducing their backlog. The fuselage kit is also on order; crate date of August 30. I am waiting on wing kit. I built a frame for the open end of the Empennage so I can store the tail standing up. Sitting horizontal takes a lot of room & I would have to put it on sawhorses - which are easy to push over. The good news is that the wing kit has shipped, it should be in my garage before the next meeting.

**- MEMBER BUILDS SHARING -**

**Thanks to Tad Daughters for a continuation of this report. He added pictures and descriptions on how to do it correctly.**

Last February, a micro-burst hit the Glendale Airport destroying several aircraft. At least one of them might have been saved if it had been properly secured. The pilot had used aluminum carabiners to fasten the chains to his plane. The carabiners broke under the stress, and the plane was destroyed.

The method for tying down that I was taught by an A&P IA (Matt Gunsch) when tying down with chain, follows:

1. Slide a link through the eye-bolt see above right.
2. Slide another link over the end of that link:
3. Insert the 'S' hook through end of the link to complete the tie
3. Slide another link over the end of that link:
4. Insert the 'S' hook through end of the link to complete the tie down:

down:

I also will do a single tie through on my low-wing to keep any slack from whipping in the wind and damaging the plane.

**- MEMBER BUILDS SHARING -**

**Thanks to Alex Hardt a new member for this share.**

My wife Kim and I have been finishing up lingering fiberglass work on our RV-7 during the past month here at home in Mesa. Kim also finished the final patterns and sewing of the seats. All of the big metal pieces are pretty much together, the baffling and firewall forward is done and we have been waiting on moving to a hangar. We just got the keys to a hangar at Goodyear and will be moving the wings from our living room, the empennage from the spare bedroom and the fuselage from the back porch in the next week or two. I have attached some photos from our recent work.

## A Few Steps in the Right Direction

By: Jim Adams

Katherine Wilcoxson is a newer Chapter 538 member and has been conditionally accepted into the United Airlines Aviate Academy and the American Airlines Cadet Academy. She is in the final testing for the JetBlue Gateway Select Program as well. Over 6,000 applicants applied to United and Katherine is one of only several hundred to have made it to the conditional offer stage. She will need to pass her private pilot written exam and secure financing to be given a class date with United.

"I have always wanted to be an airline pilot. Since I was a little girl watching the airplanes fly overhead I always thought to myself that I should be the captain on that flight. I want to take people to exotic places, to important meetings, or bring soldiers home to see their families. In my 34 years, it's only gotten stronger and I am so happy that I am finally able to pursue my dreams" Katherine Wilcoxson.

Katherine is currently a senior at Embry-Riddle Aeronautical University Worldwide with a GPA of 3.88. She is working toward a Bachelor of Science Degree in Aeronautics with a minor in Aviation Maintenance Operations. She is planning on a graduation date in December 2021. On top of being a full time student, Katherine works full time as a collision estimator for Service King Collision Repair Centers. Katherine states "I am very lucky to work where I do because I have a great manager who understands and supports my goals both professionally and personally. I am very lucky to be surrounded by a great team who I consider my second family. I will miss them very much when I leave for flight school"

## Chapter Camping at AirVenture

Returning for AirVenture, chapters now have an affordable opportunity to establish a "beachhead" at which to base their activities. Rather than paying by the day, a campsite is staked out until the convention ends. Chapters are able to purchase in advance two to six campsites at a flat rate in order to establish a chapter base of operations. Since the campsites will be staked out in advance, each chapter can direct its members to camp in the vicinity of this area.

[Request a Campsite](#)

**The following guidelines apply to this special opportunity:**

1. Chapters can secure two to six campsites for a special flat rate of \$252 per site. Additional sites may be acquired under the usual camping rules and pricing.
2. At least one camper per individual camping site credential must be a current chapter member and a current EAA member through the end of AirVenture Oshkosh. A list of EAA members to attend with the chapter (who must be current through the end of AirVenture Oshkosh) will be provided in writing to the camper registration staff with the chapter camping request form.
3. Offer excludes improved sites (water and electric) and sites in Paul's Woods, 101 Woods, handicap, and generator areas.
4. Chapter camping is only available in Camp Scholler, aircraft camping is excluded from this offer.
5. EAA staff will stake out these campsites for the chapter beginning on or around Monday, July 5, 2021. Due to the camp ground already being open for weeks, chapter camp sites will be staked out as close as possible to the desired locations listed by the chapter.
6. No refunds due to early departure are allowed for these campsites.
7. Chapters must comply with the policies and guidelines stated in [EAA's current camping guidelines](#).
8. The chapter leader or chapter designee will manage all chapter camping credentials.
9. Potential updates are being considered in 2021 to provide campground credentials to the chapters by one of two methods, yet to be determined:
  1. A chapter designee for each chapter will arrive first and pick up the camping credentials for all chapter campers and be available to distribute them to their respective campers as they arrive. The chapter designee checking in the chapter must present the chapter camping confirmation form, which will be emailed to them after payment is processed by EAA.
  2. A chapter designee for each chapter will be mailed camping credentials for all chapter campers and distribute the credentials to their respective campers prior to arrival at Camp Scholler. The chapter designee will be mailed all credentials during the week of July 5, 2021 after payment is processed by EAA.
10. All sign ups and payments must be received by June 25, 2021.
11. Chapters are not permitted to occupy their site until Saturday, July 10.

Grab your camping gear, chapter flags, and banners, and decorate the site!

**EAA Spirit of Aviation Week Schedule Highlights Entire Spectrum of Flight**

July 07, 2020

**November 19, 2020** – At last week's fall meeting – held in a virtual format – the EAA board of directors supported the ongoing planning efforts for EAA AirVenture Oshkosh 2021, which will be held July 26-August 1 at Wittman Regional Airport in Oshkosh. Among those preparations are incorporating best practices for large public events that can be incorporated at Oshkosh next year.

"There will be AirVenture in 2021, as it is so important for all of us in every segment of the aviation community," said Jack J. Pelton, EAA CEO and Chairman of the Board. "We have heard from many, many EAA members and others who have pent-up enthusiasm to be back on the flightline at Oshkosh. While it's still too early to know exactly what everything will look like for the event, it's important to have AirVenture in 2021 – which, coincidentally, is the 100th anniversary of the birth of EAA founder Paul Poberezny."

Advance sales for admissions, camping, and other areas are currently open at the AirVenture website. In addition, free youth admission, generously supported in part by [Boeing](#), will be continued in 2021, giving more families and young people the opportunity to fully enjoy the World's Greatest Aviation Celebration.

## General Camping Guidelines

### Refund Procedures

Refunds are issued as you exit the campground in your vehicle. Refunds July be processed at Camp Scholler Camper Registration, South Gate (located at Stits & Ripple roads).

### Refund Locations

Camp Scholler Camper Registration, South Gate (located at Stits and Ripple roads), North 40, Show plane, and Homebuilt Registration

### Gate Hours

West Gate: 24 hours Camp Scholler Camper Registration Gate: 24 hours South Gate: 6 a.m.-10 p.m. East Gate: 24 hours Gate hours are subject to change.

### Basic Campsites

Only EAA members are permitted to purchase a basic campsite in Camp Scholler. EAA members July purchase only one site. All basic campsites are on a first-paid, first served basis. Sites July be purchased by going online at [www.AirVenture.org](http://www.AirVenture.org) or by coming to the Camper Registration Building during open hours. Sites cannot be secured over the main Camper Registration phone. EAA members pay from their arrival date through the end of AirVenture and July not AirVenture | Plan Your Trip | Camping & Lodging | Camp Scholler

### General Camping Guidelines Plan Your Trip

General Camping Guidelines <https://www.eaa.org/airventure/plan-your-eaa-airventure-trip/eaa-camping...>

stake out a spot in advance of the arrival date selected. On or after the arrival date, EAA members must check-in at the Camper Registration building to receive their camping credential. Basic sites are not marked or assigned. Once credential is issued, the member July locate and stake out an unoccupied spot in the campground. Individual basic campsites are not marked out but are to be sized to accommodate your camping unit and one transient vehicle with a 5' perimeter. Camping units must be a minimum of 10' apart. Any campsite deemed too excessive will be resized by EAA Security. All camping units and vehicles must be located behind the fire lanes. Fire lanes are marked as burn lines in grass or with signage. Camping credentials are not valid in EAA Public Parking Lots. Camping credentials must be visibly displayed on both on your camping unit and transient vehicle. Additional vehicle and visitor parking passes of the overflow (S Lot) July be purchased at the Camper Registration building. S Lot parking passes are not sold online. Camping credentials and campsites July not be transferred from one EAA member to another individual. Unused days calculated from the arrival date through the Monday after AirVenture, less a three-day minimum, July be refunded upon checkout. Any roped off unoccupied site without proper credentials will be Removed.
