PRESIDENTS NOVEMBER REPORT

Welcome EAA Chapter 538 Members, Family and Friends.

Happy Thanksgiving! The traditions of this holiday lie in the completion of a successful harvest season and to give thanks to our prosperity. I have memories of the holiday meals and the many hours of preparation. The food prepared would often last for days. Our family tradition was to make Lemon Meringue Pies with the lemons taken from the tree in front of the old house. Today, I cannot prepare such grandiose meals but will still take the time to prepare something special with much fewer leftovers. I do hope that everyone has an especially joyous and memorial holiday spending time with their loved ones.

November is also the month that our chapter prepares for the next year. We will have the elections for the Chapter Officers. These persons will carry out the mission of the chapter. Before the election we will make one last request for members who wish to participate in these positions before we vote. If anyone wishes to participate and become one of the chapter officers, you can throw your hat into the ring. Let us know before we vote in the new officers.

Next in November is the Young Eagles event that will be held at the Glendale Airport. It will be on November 13th. We will have a pilot orientation at the end of the next meeting for all participants. We need both pilots and ground crew. Everyone needs to take the Youth Protection training that is taught at the EAA National website. Just look at the Young Eagles Program for further information. It takes a bit of time to complete the background check so you will need to take this course ASAP. After the YE event is a Pot Luck meal at Dave Biddle's Hangar at the north end of the airport. Next year, we plan to have both of these events staged out of our new hangar.

December 4, EAA Chapter 1614 is having a Young Eagles event at the Stiller Airpark. This is a big event with lots of planes to see. They have a number of pilots already but contact them if they need more. We have also provided the manpower for the pancake breakfast at that event. I plan to participate again after our 2020 hiatus. We need a crew of about 10 persons to make this a go. Let me know if you wish to participate. Also our griddles, warming trays, equipment and utensils are scattered about, so contact me so we can make arrangements to have them brought to the event. We purchase the food stocks for this event but we are reimbursed for it. We place a collection box on a table so any donations received, we can keep for our chapter's benefit.

December is also our annual Christmas Dinner at Dillon's BBQ. It is on our regular meeting night on December 14. Bring your family and lets enjoy this time together. We will have a few door prizes to give away. There will not be a regular meeting on that night so come on down and lets have a great meal together.

PRESIDENTS NOVEMBER REPORT CONTINUED

Copperstate/Buckeye Air Fair is planned for February. Fly-in or Drive-in. This is a great event for everyone. The Airshow is free and features several local performers. Most notably is Jeff Boerboon and his Yak 110. It is an aircraft that was built from two Yak 55's with a third jet engine added. He always gives a great performance. The Copperstate Fly-in also needs many volunteers to help the show become a success. Contact Carlos Hernandez or Alex Bodak for additional information. I would like to have a chapter booth or other presence there to advertise the progress of the chapter and hopefully attract new members. This will take a bit more work to make it happen. It would be great to display some of the progress of members projects through pictures or displays. Let us know if you wish to help with this.

We now have a donated aircraft, the Stitts Playmate that we can trailer there. It has folding wings so it does not take up much space. On that topic, we are still searching for a temporary location to store that aircraft inside or under shelter, until the hangar is built. Carlos Hernandez will give an update on the hangar project. The permit process is taking much longer than we had hoped but appears that we will begin soon. We continue to look for donations either monetarily or other items that the chapter can benefit.

I look forward to seeing everyone at the next meeting. See you soon.

PICTURE OF LEROY CASTLES STITS PLAYMATE WITH IT'S WINGS FOLDED.

EAA CHAPTER 538 MONTHLY MEETING MINUTES FOR OCTOBER 12, 2021

1. Meeting was called to order at 6:30 P.M. with eight (8) visitors and twenty-two (22) members in person.
2. Darren asked each of our Visitors to introduce themselves. They are Mark Nash, Tim Spell, Bethany Rider, Diana Hernandez, Ivan Arnold, Howard Woodruff, and Mike Gordon.
3. Our assigned speaker was Mike West and Howard Woodruff of the West Valley Flying Club. They described the club as non traditional because they do not own any airplanes. Most member have his/their own plane. It was started in 2006 at the Glendale Airport. They now have 150 members. They have a twice monthly get-to-gather at the Cracker-barrel restaurant and then go to one of the members hangar around 8:30 A.M.. Every November they have a BBQ and snowbird send-off. Howard is the membership chairman. The club is primarily a social organization. Their monthly club meeting is the first Wednesday of every month. The dues are \$25 due every April. Once a month they have a fly out to an airport near-by. January through March are full meetings. They try to pair up non-pilots with pilots for their fly-outs.
4. John Greg recounted his trip back from Greenbay, WI with Jim Moss of his recently purchased Cessna 175A. They planned the trip back via cheaper gas airports. He showed and described his pictures and stops. They included his flight paths, cities and airport stopped during the trip back. It was very engaging.
5. Darren opened nominations for Officers and one three-year director. This was after Alex read the descriptions from the EAA manual about the responsibilities of each position.
6. Darren also noted that We have a Young Eagles event on November 13th followed by a pot luck at Dave Biddle's hangar, Cactus, 2nd door. He also noted that Stellar Young Eagles is in December that 538 does the cooking with food they provide. We put out a donation jar and have done very well. The Christmas party is again at Dillion's, North of the 101 on 59th Ave. on Dec 14. The other Young Eagles planned events are in Feb and June of 2022.
7. Darren made a public announcement for the Buckeye/Copperstate Fly-In next February 17 – 20 of 2022. Go to <https://www.copperstate.org/> for all the information. They are always looking for volunteers.
8. John gave a treasurers report that we have \$170,000 in Savings and \$420 in Checking. He noted that we have 94 members listed but only 70 have paid. The yearly dues are \$20. The dues are from January 1, until December 31 every year.
9. The nominations for 2022 officers are as follows: President – Darren Henley, Vice President – Tad Daughters, Secretary- Alexander Bodak, Treasurer – John Gregg and three year director – Tom Velvick. We are looking for a Communications chairperson who would take care of the Website,, send Press releases, respond to messages on Instagram, Facebook or other media sites. Katherine Wilcoxson said she could do the Instagram types accounts.
10. Mike, Director noted that ship times from Van's is decreasing slightly. Also, Lycoming raised the price of their engines 5% yesterday.
11. We are without a Tech rep or flight advisor. If anybody is interested contact Darren H.
12. Carlos H gave a hangar progress report., We are waiting for the city to approve blueprints, plans etc. for our permit to start building. Schweiss doors would not hold the bi-fold door with out us paying the balance due. John has sent them a check.
13. Terry Menees of West-Mec a new member, needs a part time instructor who has an A&P license for Noon to 5 PM Classes.
14. FAA FASST Team is holding a meeting on October 25 at 11 AM to get feedback on problems here at Glendale. Register online.
15. Darren noted that we have two airplanes for sale, a Sonic two seat with a Jabiru engine, and a Drake biplane. Contact him if you are interested.
16. The meeting adjourned at 8:23 P.M. Darren H first and Carlos and Paul seconded.

Calling All EAA Chapter 538 members & Visitors.

Notice Required Young Eagle Pilot Orientation Training.

It will be necessary to conduct the Young Eagle Pilot Orientation training at our next Chapter meeting on November 9. Our YE Event is on the following Saturday November 13.

It takes about 30 minutes to complete, and requires access to our website where we have the YE material located.

The Orientation is after the regular meeting has concluded. Hopefully Mr. Polhill would not mind if we stayed there until 2100.

- NOTICE NOTICE -

Chris Rute will loan his airplane scales for a donation to the chapter.

Members Information

John Gregg has us registered for amazon smile.

<https://smile.amazon.com/>

When you log into the Amazon Smile site, you must select the charity you are supporting, 538. You will see this area in the black upper band middle of the screen. Note: Currently, Guide Star, the company that Amazon uses to verify qualified charities only utilizes the first line of our name: "EAA 538" is used. Once on the Amazon Smile site, you will order as usual. **Thanks John Gregg Jr.**

I would like to put this out to the EAA chapter membership that I have project space available in my hangar at Deer Valley. I currently lease a small T hanger but I only have my Laser in it currently. I am prohibited from "subletting" the space, but I would be happy to host an EAA member and their project in my hangar for a small monthly offset. I have plenty of open space.

Eric Moore
480-436-0192
ericmoore68@gmail.com

I was flying an RV10 out of DVT. I recently sold it for him. I'm not sure he wants to let go of the hangar yet and I'm not sure his plan on getting another plane. So if someone needs a hangar I would be okay going three months at a time but I'm sure it could be 6 months or more.

ADDITIONAL ITEMS FOR SALE FROM CURT CURTIS

These shelves are listed on craigs list at \$60. They are free to a club member. Also a two pedestal desk and a metal work bench. the shelves 18 in. wide 3 sections for a total of 9 ft. long. contact CURT 602 809 4446. PRICE = FREE

I have some instruments and landing gear legs, plus wheels. I'm asking \$100 for each. but i need to send the message that they are for sale at any price. They need a home. Also I have some wheels and stuff.

FOR SALE PAGE 7

This is Karen Hausteen, we have met a few times at various events and meetings.. Anyway, I have a few items that I would like someone to purchase or take if they could be used. I am not sure how to let you and the EAA chapter know, but here is the information:

2 pairs of yokes, from a Cessna 172

1 set of rudder pedals, from a C 172 also

I also have a few avionics items - not sure what and if they even work.

Anyone that is interested can call me and we can arrange for the items to be seen at my hanger at DVT.

Skyranch at Carefree

c Published: 26 June 2015

Skyranch (18AZ) Carefree, AZ. "Caution: Aviation may be hazardous to your wealth..." As promised, I wanted to showcase some of Arizona's many airparks. Where better to start than the very first Arizona airport to offer residents fly-in access? Carefree's SkyRanch. At an elevation of 2568 feet, the 27 acre airpark is in a magnificent location northeast of Phoenix, near Black Mountain, where the nearby granite rock formations of the Boulders Resort only enhance the already spectacular Sonoran desert. Built in 1961 as part of a master-planned community by visionary developers K.T. Palmer and Tom Darlington, the airpark predates the 1984 incorporation of the Town of Carefree by nearly 25 years.

The airpark boasts a 4037x50 asphalt strip, a well maintained gravel strip, REIL strobe lighting, and both Jet-A and 100LL fuel. There is airport management on-hand at the pilot's center seven days a week. The airpark is home to a huge variety of aircraft, from ultralights, experimentals, like the Lancair or RV, Cubs, Huskies, Moonies to turbo props like the Platus, TBMs, a beautiful Cessna Mustang... I could go on and on. Even with so many, the pilots at SkyRanch keep the desert peaceful with self-imposed operating hours of 6am to 11pm.

- MEMBER BUILDS SHARING -**Paul&Debbie Fisher**

Not much to report this month - wings are finished, fuselage kit has been in crating at Van's for the last month. No progress this month either - the Fuselage kit is expected to ship this week.

Stuart Snow building wing ribs for my Pietenpol. Currently on #12 of 34

**Lyle Parker**

Here is a picture of our completed AirCam project. Laurel and I flew it from Everglades City, Florida, to Friday Harbor, San Juan Islands, Washington. It took 13 days. We think it is the longest distance you can fly in the Lower 48 states. The only day we got completely grounded by weather was here at Carefree during a 2 day thunderstorm system.

- MEMBER BUILDS SHARING -

Carlos Hernandez found a few minutes to work on his RV-7. Here are the pictures.

- MEMBER BUILDS SHARING -

Pat and Dan Arkema were out for a little Sunday airplane ride over Phoenix . He only put me through one barrel roll. Here are the pictures.

BUILDING YOUR PILOTS OPERATING HANDBOOK (POH).

This summary is based on a Kitplanes article of the same title. It is in the November 2021 magazine pages 36 to 38.

Once the build is finished and you are in the testing/40 hours flying time. the rest of the paperwork begins. If the manufacturer of the Kitplanes does not provide a POH the builder has to make their own. The article suggests borrowing a premade one such as the discontinued Cessna 162 Skycatcher as a template. It has 242 pages. Go to <https://www.manualslib.com/manual/1219715/Cessna-Skycatcher-162.html> to find it.

Van's also offers a generic POH. It is a GAMA (General Aviation Manufacturers Association)-style handbook. It is for the RV-12 and has 106 pages. Go to <https://www.vansaircraft.com/service-information-and-revisions/poh-pilots-operating-handbook-3/>

These are copyrighted publications so don't just copy and paste but use it as your example.

The standard section of a POH are as follows.

1. Front cover with a photo, title, serial number and registration number.
2. Revision Summary Page
3. General Information
4. Operating Limitations
5. Emergency Procedures
6. Normal Procedures
7. Performance Data and Specs
8. Weight and Balance with Equipment List.
9. Aircraft systems
10. Aircraft handling, Aircraft Maintenance and Servicing
11. Accessories and Avionics
12. Notes and blank pages for additions.

In addition to those section you need various checklists such as preflight or emergency procedures.

This can be done in any word processor. Be sure to save it as both a word document and as a .PDF file.

Two companies listed that can print them are Upwork at <https://www.upwork.com/> for a virtual assistant who can assemble the POH for a fee. The other listed company is Fiverr at <https://www.fiverr.com/> another virtual assistant website. Remember to change your page size to match the binder or notebook size of the final product.

THANK YOU**THANK YOU****THANK YOU****THANK YOU****THE FOLLOWING IS A LIST OF PEOPLE WHO HAVE GENEROUSLY DONATED TO THE HANGAR FUND. WILL YOU JOIN THEM?**
