***PRESIDENTS JUNE REPORT***

Welcome EAA Chapter 538 Members, Family and Friends.

I have been under the weather the past few days. After spending several days in Texas for my vacation, I returned home to have a long weekend where there is plenty of work to do. Instead, I came down with a cold. Regrettably, I sequestered myself inside patiently waiting to feel better. I spent my down time cleaning my home office as I spend a great deal of my time there anyway. Today (Monday) I am feeling close to normal so it is time to get back to work.

We have recently received a donation of a STOL King project. I believe I mentioned this last month, but I wish to reiterate it. The STOL King project has a steel tube fuselage with wooden wings. All of the steel work has been completed with the empennage covered. One wing has been completed but the right wing needs to be built. It appears that all the ribs have been fabricated and the wing is ready to assemble. The flaps, ailerons and cowlings are made from aluminum. There is no motor with this project. If you have an interest in flying low and slow or an interest in back country flying, this plane might be the one for you. If interested, contact me for further information.

I missed this Young Eagles on Saturday. I hope Jim Moss or one of the attendees can give us a report on the event.

The Experimental Aviation Association big event will be arriving soon. EAA's AirVenture is the annual event at Oshkosh, Wisconsin. The show is filled with a world class Airshow, aviation vendors, numerous forums and many, many fly-in aircraft. If you love aircraft, this is the place to go. Several of our members have stated that will be traveling this year. I request anyone that is attending, please record your travels and present them to the chapter. Those of us who cannot travel, would love to see it through your eyes.

Summer time is here. There won't be any new activities until fall. Soon we will have a chapter meeting at an alternate location. There will be more information about this later.

Now that summer is here, my outdoor work will have to wait until next fall when the temperature cools down. I will move into my workshop to spend a lot of time on my project.

This will be all for now. Hope to see everyone at the next meeting.

**EAA Chapter 538 Monthly Meeting Minutes for May 10, 2022**

01. Meeting called to order at 6:42 P.M..
02. Twenty-one members and two visitors were in attendance. The visitors were Joe Belilke and Mitchell Fchevese.
03. Darren let the visitors give a self introduction.
04. Our speaker Eric Moore was in an accident on his way to the meeting and will give his presentation later in the year. We showed the May EAA chapter Video. The video asked every chapter to send in a 1 by 12 by 2.5 feet board painted with the chapter number and the distance to Oshkosh. They will be mounting them on poles around the grounds. The also want workshop leaders. Darren noted that AirVenture is about 90 day until July 21, 2022.
04. Darren gave a presentation with multiple pictures and commentary on his progress on his Star Duster. He noted all the steps he was taking to fix the previous owners mistakes and add onto what was there. He has installed a gas tank. Also, added to the center section, and discussed the fiberglass process.
05. We took a break at 7:33 P.M.
06. Cheri M, reminded everyone about the young eagles event on Saturday June 11, starting at 7:30 A.M. with pilot briefings. The Tuskegee Airman ACE academy students have 25 young eagles. As always we need pilots and ground crew.
07. The Tuskegee Airman have invited out members to a meet and greet at the Arrowhead Country Club on August 9th. From 6:00 until 9:00 P.M. This is a members only event. If you have not paid your yearly dues do so quickly. The address is 19888 N. 73 rd, Glendale, AZ 85308.
08. Darren got a call from Dawn Dorman whose father passed and she donated a partly competed STOL KING aircraft and a golf cart to the chapter.
09. I noted that we also have three airplane kits for sale. A drake with a VW engine, A Bradley, and a Sonex two passenger with a Jabiru 120HP engine.
10. Carlos is moving to a bigger hangar at Goodyear. He would like some help moving things on Saturday May 21, 2022. He is proposing that chapter members meet there about once a month to build some of the kits that we were donated.
11. AirVenture is in July 21. The chapter can reserve two camp sites for those who want to camp. Please let Darren know SOON, as the sites are prepaid early. Also if you go, take many pictures.
12. Carlos gave a report on the progress of our hangar build. We are proposing that we have the concrete and services work put into the concrete. Then as a chapter project we erect the steel that we have.
13. John Gregg gave a report that we have \$118,500. in the bank. He has filed all of the required reports and paperwork for the chapter. He requests that you use Smile.amazon.com when ordering anything. Select Chapter 538 as the charity. Then we get a small percentage from Amazon..
14. By vote of the members next month's speakers topic is Japanese attach on Alaska in 1942.
15. The meeting adjourned about 8:24 P.M. Darren H 1st and Mike H 2nd motion.

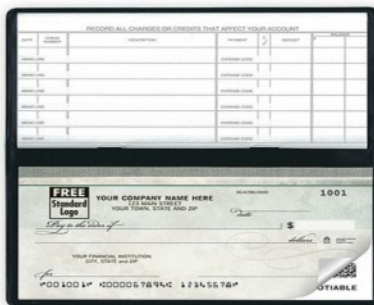

**NEWS & EVENTS**

**PLEASE TAKE THE END OF YEAR****CHAPTER SURVEY FROM EAA.****Chapter Survey**

This year's chapter survey is now open! Please complete the chapter survey here and be sure to forward it on to your members and encourage them to complete it as well. In addition, a stand-alone email will be forwarded to all chapter leaders which can be shared with your members. Consider including the survey link in your next newsletter. The survey not only provides valuable information to help you to improve your chapter, but it can also assist the chapter in gaining credit toward the Chapter Recognition program when at least 20 percent of your chapter members engage in this short survey.

**Click on the web address listed below. There are 10 questions.  
Thanks for your help.**

**<https://www.surveymonkey.com/r/MS9JT8Q>**

**– NOTICE NOTICE –**

**Chris Rute will loan his airplane scales for a donation to the chapter.**

**Members Information**

John Gregg has us registered for amazon smile.

**<https://smile.amazon.com/>**

When you log into the Amazon Smile site, you must select the charity you are supporting, 538. You will see this area in the black upper band middle of the screen. Note: Currently, Guide Star, the company that Amazon uses to verify qualified charities only utilizes the first line of our name: "EAA 538" is used. Once on the Amazon Smile site, you will order as usual. **Thanks John Gregg Jr.**

**WEBINARS FOR JUNE 2022 URL:****[HTTP://WWW.EAAVIDEO.ORG/CATEGORY/VIDEOS/WEBINARS](http://www.eaa-video.org/category/videos/webinars)****Webinars**

These live multimedia presentations are informative and interactive, allowing the presenter to use slides and audio, while audience members can ask questions and be polled for their opinion.

EAA Webinars sponsored by

**System Requirements for Attendees**

You can easily attend a session from anywhere, anytime, using a compatible computer or mobile device! To get the most out of GoToWebinar, you can download and install the full-feature desktop software on your Windows and Mac computer.

See [Download GoToWebinar](#) for your download options. You can also [check your system's compatibility automatically](#).

Some EAA Webinars qualify for credit in the FAA's WINGS or AMT awards program. Visit [www.faasafety.gov](http://www.faasafety.gov) for details.

[View Webinar Video Archives](#)

EAA gratefully acknowledges the support of Aircraft Spruce and Specialty Co. for their generous sponsorship of EAA webinars.

6/1/22	7 p.m. CDT	<b><a href="#">Failure to Rotate ( Burned Valves)</a></b> <b>Qualifies for FAA WINGS and AMT credit.</b>	Mike Busch
--------	------------	---	------------

*Savvy Aviation's Mike Busch discusses the function of exhaust valve rotator caps and their importance to keep unwanted deposits from sticking to the valve seat. Mike will review the causes of burned exhaust valves, and discuss ways to prevent and remediate without removing the cylinder.*

6/7/22	7 p.m. CDT	<b><a href="#">One Week Wonder Build: AirVenture 2022 Homebuilders Webinar Series.</a></b>	Mark Schaible and Charlie Becker
--------	------------	--	-------------------------------------

*Coming up at AirVenture 2022, EAA will be organizing a group of volunteers to build a Sonex Waix in 7 days. This webinar will provide an overview of the build, equipment, and volunteer opportunities.*

6/8/22	7 p.m. CDT	<b><a href="#">Home Flight Simulation for Training and Proficiency – Part II</a></b> <b>Qualifies for FAA WINGS credit.</b>	Evan Reiter and John Albers
--------	------------	--	--------------------------------

*Home flight simulation is widely considered an essential training aid for proficiency, avionics familiarization, and communications practice. But are you getting the most out of your home simulator experience? Following our introductory session in March, pilots and "flight simmers" from Flight Simulation Association return to present a detailed look at home flight simulation hardware. With a focus on using simulators integrated with real, human air traffic controllers, we'll look at the computers, flight controls, and peripherals that make up the ideal home flight simulator — for beginners through to advanced "simmers."*

6/14/22	7 p.m. CDT	<b><a href="#">Aluminum Overcast, the history of EAA's B-17 Museum Webinar Series.</a></b>	Chris Henry and Ben Page
---------	------------	--	-----------------------------

*The B-17 is an icon of World War II, and the legendary bravery of the combat crews is still talked about today. EAA's B-17 tours the country to educate and inspire. Join EAA Aviation Museum staff members Chris Henry and Ben Page as they discuss the history of EAA's B-17, N5017N.*

**WEBINARS FOR JUNE 2022 PAGE 2**

**URL: [HTTP://WWW.EAAVIDEO.ORG/CATEGORY/VIDEOS/WEBINARS](http://www.eaavideo.org/category/videos/webinars)**

6/15/22 7 p.m. CDT **Getting Started With the Skew-T Weather Diagram Qualifies for FAA WINGS credit.** Scott Dennstaedt

*The Skew-T log-P diagram is the best-kept secret in aviation weather forecasting if you know how to unlock its secrets. Learn from Dr. Scott Dennstaedt the basic principles and concepts of weather by also learning how to interpret the Skew-T diagram. This tool will enhance your preflight weather briefing in a way that few other tools can.*

6/22/22 7 p.m. CDT **Tips for Flying Into EAA AirVenture 2022 Qualifies for FAA WINGS credit.** Fred Stadler

*Learn all about the 2022 AirVenture NOTAM arrival procedures. EAA's volunteer NOTAM Chairman, Fred Stadler, describes FAA required procedures and shares useful tips for reducing pilot workload when flying into Oshkosh for AirVenture 2022.*

6/29/22 7 p.m. CDT **EAA AirVenture 2022 Features and Attractions** Rick Larsen and Dennis Dunbar

*Rick Larsen, EAA vice president of communities, member programs and AirVenture features and attractions, and Dennis Dunbar, director of airshow operations will discuss the latest news on what to expect at EAA AirVenture Oshkosh 2022.*

**For Sale Bradley Aerobat Kit. Left picture as is, Right picture completed,**

**Company Info - no longer selling kits.**

**Bradley Aircraft Company**

The Bradley family has been in the aviation business for over 45 years starting in 1970 on a small grass airstrip located outside Ladoga Indiana. Scott Bradley the owner and operator of Bradley Aircraft Company, started his love for aviation at a very young age by staying involved in his family's aviation endeavors. Scott's experience is a 360 degree approach to aviation. As an active pilot, airframe/powerplant mechanic, and authorized inspector he has the skills and experience to affordably keep you flying safely.

I would like to put this out to the EAA chapter membership that I have project space available in my hangar at Deer Valley. I currently lease a small T hanger but I only have my Laser in it currently. I am prohibited from "subletting" the space, but I would be happy to host an EAA member and their project in my hangar for a small monthly offset. I have plenty of open space.

Eric Moore  
480-436-0192  
ericmoore68@gmail.com

Tom Parten quit flying and has his 6 Cylinder Sonex  
(Tail wheel) here on Thunder Ridge Airpark AZ 28.

If you know anybody looking for a good deal contact Bertha Partin  
<bmpartin@gmail.com>

**Not For Sale - Recent Donation  
To our Chapter from the Estate  
Of Mr Dorman by his daughter  
Dawn.**

**FOR SALE PAGE 2**

My friend Cora Lee in Del Norte , Colorado lives on the airport at KRCV East slope of the rockies East of Wolf Creek pass. Astronaut Kent Rominger airport.

She is is selling her airport hangar, paved taxiway.. Metal, concrete floor, power. 42' by 30' with a motor operator pull up hinged folding door. Right now I think her price is around \$65,000. Her number is 719 - 657 - 0846. If anyone has any other questions or can't get hold of her they can call me .

Rodney at 623-640-4704

Leave a message due to robocalls.

←—————→  
I am a former member of Chapter 538 and still receive your newsletters. I am no longer an active pilot or builder and have several items I hope someone can put to good use. Here is a list:

Tail Dragger used to move easily RV aircraft

Garmin 396 portable GPS (works well but data base is out of date & battery not charged)

2 Lightspeed 15/20XL noise canceling head sets (one needs new gel ear cups)

1 David Clark H20-10 headset (not noise canceling)

1 FlightCom 5DX headset (not noise canceling)

Aerox 13 cu ft oxygen cylinder with carry case and masks

If anyone has interest in these items please let me know.

Gary Graham

**ADDITIONAL ITEMS FOR SALE FROM CURT CURTIS**

These shelves are listed on craigs list at \$60. They are free to a club member. Also a two pedestal desk and a metal work bench. the shelves 18 in. wide 3 sections for a total of 9 ft. long. contact CURT 602 809 4446. PRICE = FREE

I have some instruments and landing gear legs, plus wheels. I'm asking \$100 for each. but i need to send the message that they are for sale at any price. They need a home. Also I have some wheels and stuff.

**FOR SALE PAGE 6**

This is Karen Hausteen, we have met a few times at various events and meetings.. Anyway, I have a few items that I would like someone to purchase or take if they could be used. I am not sure how to let you and the EAA chapter know, but here is the information:

2 pairs of yokes, from a Cessna 172

1 set of rudder pedals, from a C 172 also

I also have a few avionics items - not sure what and if they even work.

Anyone that is interested can call me and we can arrange for the items to be seen at my hanger at DVT.

Karen Hausteen

The Seligman Airport is located about one-half mile west of the unincorporated Town of Seligman off Historical Route 66 in the northern part of Yavapai County. Elevation is 5,235 feet. The airport is defined as a General Aviation airport and services include business, instructional, and personal. Primary facilities include one runway 4,800 feet long by 75 feet wide. Runway 04/22 is composed of an asphalt/concrete surface, with an estimated weight bearing capacity of 12,500 lbs. single wheel load, which accommodates general aviation aircraft in Design Group II. Additionally, there is a parallel taxiway, lighting, signage, aircraft apron and parking areas, paved vehicle parking and access road. For more information, please contact Yavapai County Public Works at (928) 771-3183.

**- MEMBER BUILDS SHARING -**

Ivan Manoogian Sailplane progress.

I am starting building the wings now, so I have some pictures showing the Mold for Ribs the wings and for the Leading edge as well will be done with Carbon Fiber work. Simple methods to work with.

I want to send out a HUGE THANK YOU to all the members that came out to Goodyear Airport on May 21st to assist me with my move from the north to south side hangars. I really do appreciate you all for braving the early morning call and rising temps during the move. In all it took 8 people, 3 trips using 1 SUV, 4 trucks and 2 trailers just under 3 hour from start to finish. It went as smoother than I planned. No damage to either my property or the EAA Sonex and its belongings! I did stay until 5:30 pm that day and had almost everything re-arranged in a manor I could commence building on the RV by the next weekend. Sunday morning came and it was time to move the RV. I hooked up the RV to my Tacoma via tail-wheel to a trailer tongue hitch extension I fabricated. With a watchful eye from Tom Velvick riding in the bed, we towed Penni to her new home from Ramp 3, down taxiway Alpha to Ramp 8 with the flashing lights of the airport operations escort.

Again, **THANK YOU** to all those that helped me out!

Best regards, Carlos H.

**- MEMBER BUILDS SHARING -****PUBLIC ANNOUNCEMENT**

Chapter 1044, Mogollon Airpark, is having a fly-in and pancake breakfast on Saturday, July 9, 2022.

Prior permission to land is waived for the event.

Be sure to check out runway information at links below.

MAOG-Aviation-v4.2-approved.pdf (secureservercdn.net)

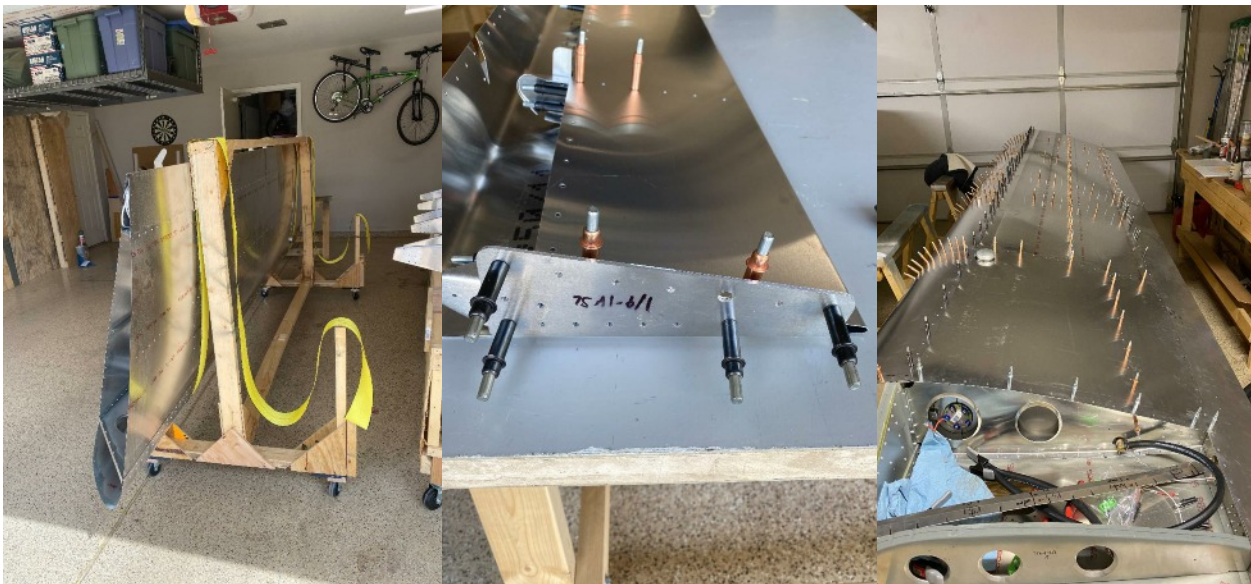

**CONGRATULATIONS JIM MOSS**

BTW, I just received a letter from Jack Pelton CEO of EAA advising me that I have been selected as one of the 2022 recipients of the Volunteer of the Year awards. VOTY are recognized with an engraved brick that is placed in Volunteer Park (located across from the Volunteer Kitchen near PHP Guest Relations). The presentation of these awards will be on Sunday July 24, 2022 at AirVenture.

I will not be able to attend. I have accepted a job with FAA in Anchorage, and report for duty there on July 5.

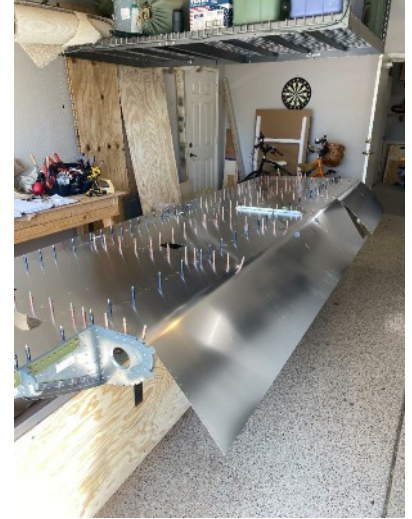

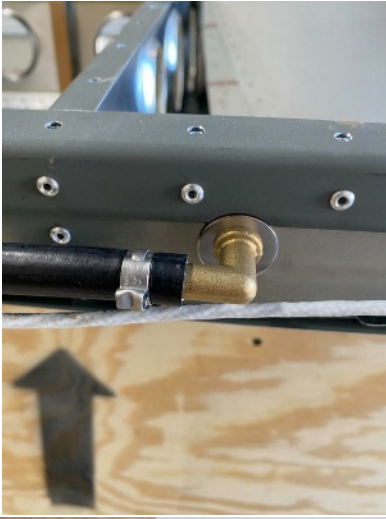

**KEITH GEMPLER PROGRESS REPORT**

Been a year since I sent any build updates on my Zenith 750 STOL. The tail, flaperons, and leading edge slats are completed. I've closed up the passenger side wing and am skinning the pilot side wing. I have a Viking 130 engine, mount, and cowling bought in CO and brought home, but still need exhaust, header tank/fuel pumps, prop/spinner, and radiator. The rest of the kit (fuselage, controls, and finishing kit) should arrive the end of June. Plan is to complete all the components, hang the engine, and put in a minimalist panel here in my garage. Then I'll need to locate a hangar to put it all together into an airplane. I'm in the market for a hangar at Glendale or Goodyear if anyone hears of something for sale. Even Buckeye would work.

**KEITH GEMPLER PROGRESS REPORT CONTINUED.**

# AIRVENTURE IS COMING

## Camping & Lodging

One of the most popular ways to experience EAA AirVenture Oshkosh is to camp, whether it's drive-in camping in Camp Scholler or setting up your tent under the wing of your own airplane. You're located right on the AirVenture grounds and a part of the unique community of aviation enthusiasts.

A three-day minimum is required and at least one person in your party must be an EAA member.

### Camp Scholler

Join thousands of your closest friends in the on-site campground, featuring all the amenities you will need and more.

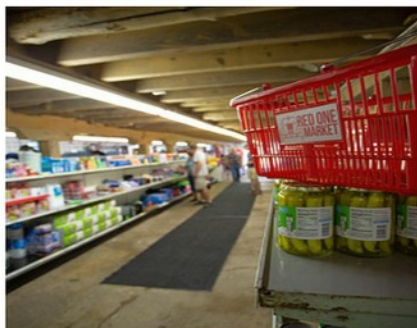

### Chapter Camping

Bring your chapter to Oshkosh and enjoy an affordable way to camp. Establish your chapter base today!

### Aircraft Camping

Fly in and set up your tent right under the wing of your own airplane for the ultimate experience right on convention grounds.

### Amenities

EAA has all of the conveniences available to you on-site to make sure that you have a great camping experience.

### Camping Photos

Check out camping photos from around the grounds and see first-hand how members make the most of their experience.

### Lodging

If camping isn't for you, find info on various lodging choices, including hotels, private home rentals, and college dorms.

#### AirVenture Dates

- 2022: July 25 - July 31
- 2023: July 24 - July 30
