DISCOUNT OIL:

As a consumer of about 4 cases of aviation oil annually, I was shocked on a recent visit to our most popular discount warehouse, Sam's Club. There on main aisle, was a display of Aeroshell W100 for \$16 a case (\$1.33 a quart).

After immediately loading two cases onto my cart, I asked an employee how this specialized item got into there warehouse. She said, "All our airboat customers demanded it. They were offended by airport prices." The company's SWC code is 7168 for a 12-quart case.
