MAY MEETING

MINUTES

The May meeting was brought to order by Vice President JOHN THOMAS with a good group in attendance. We also had one guest, MRS ROSE PATTON.

WELCOME ROSE ! COME AGAIN !

The Oshkosh Work Party went well and was fun for those attending. They had a ride in a FORD TRI MOTOR. One of the fellows said the speed could kill you - they made a high speed pass at 90 MPH. They also had a ride in a STINSON which was built in 1929 and is kept in the museum at Oshkosh.

BOB WALDRON & ART EDHLUND have info packets for the Young Eagle riders. The young people need permission from their parents to take a 15 minute ride.

The Fleming Tennants Assoc produced nothing as far as moving our meeting place there. AND ED MAYER has a nice big meeting room but it is so open it would not be a good place to have our meetings. Security would be nil. There would be no one to claim any responsibility if anything were either lost or stolen.

CLAYTON RICHARDS has sold his FOCKE-WULF 190. A Pitts pilot has purchased it and moved it to Washington - he said the flying is SQUIRRELY ! ! !

The meeting was then adjourned.

Those who were interested stayed and watched a ROD MACHADO film entitled "HUMOR IN AVIATION." It proved to be quite entertaining.

Respectfully submitted

Rosemary Frank, Secretary

Cash on Hand
