The monthly meeting will be March 12, 7 PM at Northern Automotive, St. Paul Downtown Airport, bring your friends. Movies will be shown.

HELP, We need your dues this meeting so that a new membership list can be made up.

Don't forget, the MSAA Banquet is March 16th at the Hopkins House. We would like to see all members there. There is an indication of T.V. coverage, most of the officers from EAA Headquarters will be there including Paul Poberezny.

Joan Hickey took care of the mailing, etc. of the MSAA banquet notices you received. There will be another addressing party shortly after the banquet. We do need help this time. It's too much for one to do alone.

BULLETIN Inspection of BD5 airplane wings. Anyone building BD5 must check the tubular spar about 8½" - 10½" outboard of the rib end. Serious grain cracks have been discovered.

Don't forget to use our chapter designees if anyone is having problems. Call Floren Sullivan (739-8658) or Jack Hickey (225-6672), they will be glad to answer all and every question.

FROM THE PRESIDENT Jack found a place in Mpls that has rivet guns, used but guaranteed to work, \$12.00-20.00 in case anyone is interested, the same place has lots of plexiglas at 50¢ per pound. It might pay to go and look around.
