FLIGHT PROGRAMS AT LINDBERG INTERPRETIVE CENTER

The sounds and sights of airplanes will fill the Lindberg Interpretive Center on the afternoons of the second Sunday of each month through April, 1986.

Using its recently expanded audio-visual capability, the Lindberg Interpretive Center will present multi-media programming relating to the men, women, machines, history, and drama in the world of aviation. The first program held on November 10, included films on aviation history, meteorology, safety, hot air ballooning and flight demonstrations.

Programming of this type has not been available in central Minnesota in the past, and this activity is planned to provide an outlet for those with aviation interests in the months when flying is pursued more in the mind than at the local airport.

LET'S MAKE THIS A CHAPTER EVENT!!!!

I spoke to Mr. Charles Stone, Historic Sight Manager for the Minnesota Historical Society, and he offered to open the Lindberg Interpretive Center exclusively for Chapter members and their guests on SATURDAY, JANUARY 11. He told me that he would have Experimental Aircraft films for us to view, we would enjoy a catered lunch, and maybe a guided tour of the Lindberg family home. If not a tour, he will have a slide presentation of the Lindberg home. There is a gift shop available for those interested. There is no admission charge, fee is for bus and lunch. Bus will leave Holman Field at 7:45 A.M. sharp and arrive back in St. Paul at 6:00 P.M.
