April Meeting

The April meeting will be held at Mercury Aviation on April 12, 7:30 P. M. This is the second Monday. We have been given assurances that we will not get our feet wet.

Program Speaker for the evening will be Paul Peterson. He will discuss aircraft engine theory, operation, and performance factors.

Work Project For Evening Some time will be devoted to helping with a mailing for the Minnesota Sports Aviation Association.

Business Agenda The June family picnic will be discussed. Should we stick to a Monday evening as in the past or shift to a Sunday afternoon? Do we provide the food or should it be BYOF? Chapter hanger or club house will be discussed. To help develop the usefulness of our chapter we need a place to call home. This would not necessarily be a place to hold meetings, but a place to gather informally on weekends, a place for our library so that we can use this valuable facility, a place with perhaps work space and room for an aircraft. Such a place should be located at a non controlled airport such as Southport, Lake Elmo, Journey's End, Northport, etc. This would give us an opportunity to meet other members other than at meetings and be available for assembly of newly completed aircraft prior to First flight. We will try to decide what our goals should be along these lines at this meeting.

CHAPTER PATCHES AVAILABLE

Chapter 54 patches are now available at our meetings or from Harry Dahlquist. Cost is \$2.50 each while they last.

MID-MONTH MEETING.

The mid month meeting will be held at Don Lat erel's Volksplane project on April 26, the 4th Monday. Time will be 7:30 P.M. , and his address is 830 Tuscarera Ave, St. Paul 55102. Phone 226-1927
