

*with the hope this will suffice for a few months*

# SPEED'S NEWS

SAINT PAUL

*until our upcoming officer election.*

*Bob Hilliard*

54

Minutes of the last meeting: The meeting was called to order by Chuck. A homemade plaque was to have been presented to Jack Hickey, but he had left a little while earlier. Treasurer's report was given by Roger. Chapter picnic idea was brought up. A call for old business, new business, and a motion was made to adjourn the meeting.

Before the regular meeting was held, we held our mid-month at the hangar where Vern Clark, Al Amsden, Bob Larson, and Florian Sullivan keep their homebuilts. Florian Sullivan didn't show as expected, however, Vern Clark's BD-4 was constantly in the air with passengers until almost dark. The Hobo Taylorcraft was in there pitching too.

The Alibi round was held the Saturday morning after our regular Meeting at the Hobo Hanger. They got tired of sitting around looking at each other, so they decided to go over to Flying Cloud airport and look at a Turner T-40.

Ray Wyland replaced his Franklin 165 with another one that has round pistons.

All members are invited to bring your Oshkosh pictures to the meeting and post them on the bulletin board. As noted later in the "Prez Sez" column, Chuck will bring ~~XXX~~ a projector for your slides and movies.

Upcoming meeting: Nominations will be made by the nominating committee for the chapter officers of Pres., Vice-Pres., and Sec.-Treasurer for the 1976 year or two or whatever it is. Other nominations from the floor would be welcome. Please be sure you have the nominees permission before entering his or her name.

Chapter Picnic: Noon, Saturday, September 20th at the Lake Elmo Airport. Jus' look for the group!

Upcoming mid-month meeting will be at Clayton Richards' home to see his WAR bird. He also has his Wichawk fuselage partially completed and many 4130 fittings he cut out by hand. Directions to Clayton's are on the next page.

October's Mid-month meeting will be at Gene and Rosemary Frank's house to see his and her Breezy and Bensen Gyrocopter. November's mid-month will be at Bob Hilliard's to see his KR-2. Hopefully, we'll be able to have a foam and Dynel seminar then also. There will be no mid-month for December
