54

President - Gary Wirth

Librarian - Jack Hickey

Vice-President - Gus Limbach

Editor - Gil Leiter

Designee - Florian Sullivan

APRIL MEETING

The April meeting will be held at Hopkins High School at 7:30, April 13. We will meet at the northwest corner of the parking lot at Midway Shopping Center, adjacent to the bank, to form car pools at 6:45 P.M. We will leave at 7:00 P.M. sharp, so be on time. Al Schauss will give a talk and demonstration on propeller design and construction. I understand Al has been doing some work with 4-blade props for Volmers, so this should be interesting.

EAA PUBLICITY

There is going to be a big spread in the Minneapolis Tribune picture section on April 12. Watch for it.

MEMBERSHIP ROSTER

A membership roster will be prepared for distribution with the May Newsletter. Be sure and get your dues in so you will be included on the 1970 roster.

HICKEY NAMED LIBRARIAN

Jack Hickey has become the first librarian for Chapter 54. The library of homebuilt literature he is assembling will eventually be kept at our regular meeting place in the Mercury Aviation hanger. There will be three main categories of material in the library.

1. Plans, 3 views, and data sheets on amateur built aircraft.
2. Books and manuals
3. Materials lists and catalogues

Jack has started us off with a donation of a set of Jodel D-9 plans and a set of Fly-Baby plans. Any donations of literature will be greatly appreciated by the entire chapter.
