

President: Chuck Larsen 459-8757
 Vice Pres: Gerald Laundry 647-0259
 Sec/Treas: Rosemary Frank 551-8187

Meeting: May 9 - Monday

SPEED'S MAY 9 1977
NEWS E.A.A.
 SAINT PAUL

May Meeting: Mon, May 9
 Sanborn Aviation Hanger
 Downtown St. Paul Airport

Designees: Roger Westerberg 735-1158
 Al Amsden 484-4058

**From "The Ten Electro-Commandments: "Take care thou usest the proper method when thou taketh the measure of a high voltage circuit so that thou doest not incinerate both thyself and thy test meter; for, verily, though thou hast no plant account number and can be easily surveyed, the test meter doth have one, and, as a consequence, bringeth much woe unto the supply officer. "

What Now SPRUCE GOOSE? An AP wire week before last says some aviation buffs plan to raise money to build a museum into which they will put H. Hughes plywood plane. Hughes flew the plane once in 1947, then stored it in the hanger, which is air conditioned. I'll bet those accountants at Summa Corp. can't wait to get rid of that turkey!

At The Last Meeting; The OshKosh work parties are good ways to help get ready for the big times later in the year; everyone was encouraged to attend.... t Riley hassled Rosemary for stamps, and everybody hassled Jim Tome about details of the MSAA Banquet or the VeriEze clinic....picky, picky. The members discussed using the special "speed" letterhead sent to us by Noel Allard, and everyone agreed that that would be a good idea. As soon as we get some new stationery. We saw the Chapter slide show, with appropriate ooh's and ah's.

AT the May Meeting: Canadian Mot Safety Program (#3300-3349- 20 Min.) 46 Color slides and a cassette tape provide an aviation safety program on custom built aircraft. many common building errors are shown and descriptive slides on aircraft accidents. This is an excellent safety program (according to this note here) with many fine insights applicable to all custom built aircraft in all countries. The slides and tape were made by the Canadian MOT, the Canadian equivalent of the U.S. F.A.A. Must viewing for aviation groups interested in building custom built aircraft. Sound's like a Govnmt man wrote that? Pres. Larsen says he'll have it here for the meeting. Be sure to tell all your friends, and don't you miss it, if you can.

"WOULD YOU BELIEVE?"DEPT, Chuck Larsen says "I am again making progress on my Piet." Now come on Chuck, be careful or your nose will grow and grow and

****"Take care thou tampereth not with interlocks and safety devices, for this incurreth the wrath of powers that be and bringeth their fury upon thy head."

IF YOU LIVE IN HUDSON, WI; Holman field is only 30 minutes away!

I. Olson has nothing to say this month;"Eh, Que pasa brother..."

Don't throw out this newsletter, use the flip side for writing letters, and drive your friends mad with envy.

*****Work thee not on energized equipment for, if thou doest so, thy acquaintences will surely be buying beers for thy widow and consoling her in certain ways not generally to be viewed acceptably by thee.

for your calendar: May 14th- Lakeville Homebuilt
(FAA there from 10-4) Inspection
May 21st & 22nd OshKosh Workparty
June 25th, MSAF FLY-IN at Detroit Lakes
June 25th & 26th Mankato Airshow

Herman ■ By Jim Unger

Wanted: A wooden prop for a 65 h.p. Cont; also
a Lycoming 125 - 150 h.p. engine--647-0259

For sale : Electric Tach, call Roger W. 735-1158

ROSEMARY DEMANDS a softer seat for the T. Craft,
after being out with PILOT Gene Frank. Now the
Franks can gang up on poor old elvira!

G. Laundry got his medical cleared with the FAA.

Chris Donaldson says there's not much happening with
the insurance bill that he knows of. He did testi-
fy at a meeting about the expansion of a new
7,000 foot runway at Holman field, on 32/14 radial.
Skip Sandborn was there to talk it up too,
along with many other aviation minded folks.

RAY WYLAND just returned from April's OshKosh work
party, and says about 25 turned out all together,
including DAVE FIRBERGIR and five from Rochester area, and GUS LIMBACH.

Wanted: A small, used, inexpensive air conditioner for the hanger: Ray Wyland
A comfortable, inexpensive, used couch--presumably for the same: Joan Wyland
439-3083.

Gary Davis is moving next month, and will probably be moving his project out
through his basement window.

CHAPTER TOOLS:

Metal Cutting Bandsaw	- Gerald Laundry	Woodscarfing device	- G. Laundry
" " "	- Ray Wyland	Cable Cutter	- Rosemary Frank
" " "	- John Joyce	Nicopress tool	- " "
" " "	- Lee Alexander	Drill Press	- John Joyce
Arc or Gas Welder	- John Joyce		
Hand operated Beverly Sheer (Sheet metal)	- John Joyce		
1/2" close-quarter right-angle drill	- John Joyce		
Moisture meter	- Dave Flebergir		
Single & double flaring tool	- Dave Flebergir		
cold cylinder check meter	- " "		
Tach and Dwell meter	- " "		
Long & Short stroke Riveting equip	- " "		
Magneto synchronizer,	- " "		
Torque Wrench	- " "		
Ohm and Amp Meters	- " "		

SEE you all at the meeting, and you will have a good time too!
