V.Pr.: C. Larson
Sec.Tr.: K. Westerberg

FEBRUARY MEETING: Monday, February 10, 1975. Northern Automotive, **7:00 PM**
 Note time: **7:00 PM SHARP**. 10 minutes early if at all possible. We will be going on a group to of the Mpls Air Traffic Control Center at Farmington. We'll meet at Northern Aero Hangar and buddy up on rides from there. (See map #1 below) If you want to go straight to Farmington it is O.K. but when you get there you will have to tell the guard at the gate that you are with the EAA Chapter 54 Tour or he won't let you in. You must be there by 7:50. The guard will direct you once you get there. The tour will consist of a short movie, a walk-thru tour of the training facilities, a look at the back-up computer, a look at the main visual display system board and then a walk-thru of the actual control floor. This promises to be an informative trip and we'd like to have as many people there as possible. After the tour we will have a short meeting.

1975 Chapter 54 Banquet A big "Thanks" to all whose attendance made the banquet a good time for all. Also, special Thanks to Gus Linbach for acting as guest speaker and let's not forget Chuck Larsen who did all the behind the scenes arranging.

Chapter 54 Library is ready minus the index which is on order from EAA Hq. We still need issues from 1959 and earlier (Sport Aviation) If you don't save yours why not give'em to the chapter?

Sick-call: Joan Hickey is in Bethesda Hospital (Rm. 310) recovering from a nasty spill from a snowmobile. Give her a visit or call her or send her a card (or all three), being in the hospital is a bummer. Get well, Joan! I can't stand Jack's coffee.
