

EAA CHAPTER

NUMBER 54

A LOCAL CHAPTER OF THE EXPERIMENTAL AIRCRAFT ASSOCIATION — BOX 229, HALLS CORNERS, WISCONSIN 53130

Members of Chapter #54 of ST. PAUL MN

I begin this letter with recent memories of a cold picnic at the Lake Elmo Airport and a warm reception at Clayton Richards. Smiling faces and chattering teeth told the story of the picnic while mounds of food and good fellowship was the tone at the Richards'. A big THANK-YOU to all those involved.

THE SPEED HOLMAN CHAPTER #54 OF THE EXPERIMENTAL AIRCRAFT ASSOCIATION WILL MEET AT NORTHERN AIRMOTIVE IN ST PAUL ON MONDAY OCTOBER 13, 1975 AT 7:30 P.M.

SPEED'S NEWS

SAINT PAUL

How about a chapter trophy case for such chapter valuables as Jim Olsen's floating mirror switch and Ray Houle's Chapter hangar??

Roger Westerberg's father only has to hang a little paint on his Luscomb and he'll be ready to fly again.

Schedule your own mid-month with either the editor or the president. we do not discriminate.

This month's designee tip: Do not put on that final paint job until restrictions have been flown off. Possible alterations would or could ruin an immaculate finished paint scheme. Fly the first 50 hours or so with the primer coat on.

How about a chapter junk barrel. Members bring their junk to the meeting and take someone else's home with them.

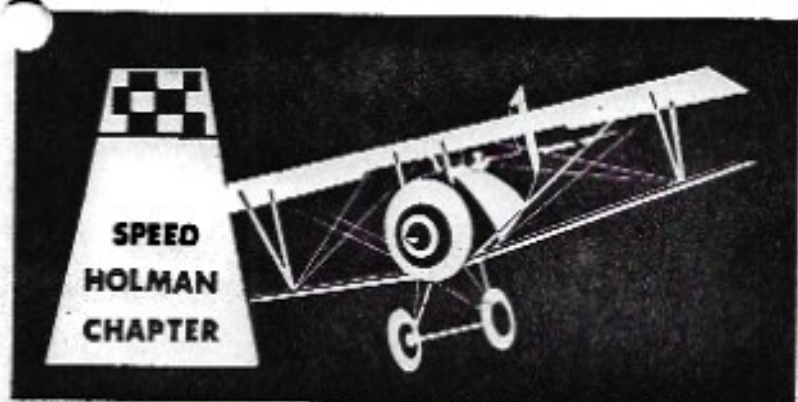

Our present circulation includes Chapter 25 and the Dallas-Fort Worth chapter. The ads you place here are displayed hopefully at the chapter meetings.

POST
NO BILLS

Dear Chuck, last Chapter 54
in the newsletter under Fun Facts, you
say, "Delmar Olson may not exist."
I also read in our local paper
that a magistrate court in New
York has directed Howard Hughes
to personally appear in court or
be declared legally dead. Wells in
Delmar Olson and in view of the
ultimatum given to Howard Hughes,
I have decided that I better
not try the patience of Chap.
54 too long or I might
some day be discovered that I
have been declared legally dead.
As my membership card
indicates, I'm retired and living
in Lake City. I ~~but~~ purchased
plans and material for the Skits
Playmate with the intent of
beginning construction when I retired.
I retired as of the playmate, I
of starting on the playmate, I
started to build a house.
~~instead~~. Previous ~~to~~ building

houses and even though I was
then working full time, I
made faster progress than
than I am on this house. I
had heard that when one
retires that you just don't
have time to do all the
things you need to do. I
find that this is true.
Maybe the playmate
starting the way - the newsletter
have been great and ~~show~~
indicate that some dedicated
person has put a lot of effort
into them.

Sincerely
Delmar Olson
