**Minutes / Meeting of EAA Chapter 595  
Rio Grande Valley**

***Events***

Meeting was called into order at 11:06 AM. Chapter was said to be solvent.

Conversation was begun to see what could be done having some kind of system for the chapter like a flight simulator to present the new comers to get them interested in joining the Chapter and staying in the chapter.

Robert Carter gave us a good illustration on what that simulator consist of and also that he is capable of putting all that together. the cost of it all with two 24 inch monitors plus all the added equipment, i.e. joy stick and key board, etc.

A vote was put on the table to approve the purchase of the flight simulator and the added components and was approved.

Robert is making arrangements to have a young eagles event to put together a program through one of the Brownsville's Schools for their seniors' class.

Robert will be communicating with Dell Corporate to see if they could donate the above equipment. If not than we could go to Best Buy Corporate and see if they could donate the same.

Robert explained to us the Roster Management for our Chapter to manage the number of members in our chapter. Robert updated the membership roster by deleting those individuals who's membership had expired and were no long active. With all the editing that was made the current membership moved up to eleven current members with six expired members.

Robert will be sending an email out to all the chapter members along with detailed instructions on the Chapters Roster Management system that is web based

President Byron Engle and myself (Arthur Chavarria, Secretary) were able to change our pass words on the EAA Roster Management.

Meeting was adjourned at 12:55 PM.
