

EAA Chapter 648

Longmont, Colorado 80503

Our next meeting is scheduled for April 11th, 2022

At

Ability Composites, LLC

253 42nd St SW Unit A

Loveland, CO 80537

At 7PM

Thanks to all of you for reading our newsletter and I will keep on working to increase our readership and don't forget to patronize our advertisers if an aviation purchase is in your future.

Remember, "Nothing happens until somebody sells something"

**If Air Traffic Control screws up,
it's called a "System Malfunction."
If a pilot screws up, it's called a
"violation."**

Message from Alex:

I know Malcom has been doing most of the leg work with coordinating this months trip to Ability Composites. I just wanted to let you know I confirmed with them today that they are expecting us on April 11th at 7pm. Frank (the CEO) asks that everyone who attends is a US citizen and wears close toed shoes.

**SECRETARY'S REPORT FOR March 2022 MEETING
EAA CHAPTER 648 LONGMONT, COLORADO**

Light attendance at the meeting. Folks, we need to write down reminders or use our phones to remind us of the meetings. A number of members are missing out on some interesting programs. We need your suggestions and support to boost attendance, increase membership and schedule programs of interest to the Chapter members. A report by Treasurer Dan Berry indicated that we have only seventeen paid-up members for this year. That's way too few!

Two guests joined us for this past meeting. Madison and Dan Ghiglia. Sorry to report I didn't get personal and aviation-related details from them. While you are planning on attending meetings, don't forget to invite guests. Everyone has an interesting story to tell and share. Our program was a presentation by our newest member, Bill McIntyre, ex Naval Aviator and Alaskan Bush Pilot. Along with some great slides of combat missions in Viet Nam, Bill had some interesting pictures and stories from his Alaskan flying days. It all looked routine until he reported -20 to -40 degree temperatures and what had to be done to keep planes warm enough to start. Many thanks Bill for an interesting program.

Dick Socash
Chapter Secretary

For Sale

STOL CH 801 HD/SD Complete Advanced Airframe Kit (AAK)

My CH801 is fully assembled with a 6 Cyl., 230 HP Subaru engine and was flown for a few hours but sustained some damage in one of our violent spring storms, tearing loose from the tiedowns. There was some damage to the warp drive prop (three of the four blades need to be replaced), spinner, the leading wing STOL slats and the windshield.

I will sell the complete aircraft
for **best offer**.
