

MEETING NOTICE

Thursday, October 13, 7:30, First Federal Building,
Bealwood Connector.

PROGRAM

Chapter officers for 1984 will be elected at the October meeting. All members are urged to be present and participate. The attached ballot prepared by your Nominating Committee shows a minimum of two consenting nominees for each position. The ballot thus far aims at presenting fresh and unused talent for the positions shown. ADDITIONAL WRITE-IN NOMINATIONS ARE ACCEPTABLE FROM THE FLOOR from all paid-up chapter members. Nominees who are elected must become members of EAA International, if not already a member.

CHAPTER NEWS

Ask Charles Hanna about the perils of 100LL fuel in the small Continentals. You will especially be interested in a rather unusual use for a short length of tie-down rope.

Other than Charles' rope trick, several members and their aircraft staged a fly-out to Warner Robbins Airpark and Perry / Fort Valley a few weeks ago. Dick French and Ernie Shelton braved un-told danger and navigated non-stop to Stone Mountain for a Cessna 170 fly-in last Saturday. Reports are that Dick found the airport even with a complete lack of nearby landmarks.

Did anyone make it to the Thomasville fly-in? No reports have reached me.
