

EAA CHAPTER 667  
Newsletter  
February 80

## THE GREMLIN GAZETTE

Hi, Flyer,

The gathering of eagles for February will be at the First Federal Savings and Loan Branch Office on the Beallwood Connector (at the Whitesville Road intersection) Thursday 14 February at 7:30 PM. Dick French has a couple of films for us. One is called "New Era Dawning, The EAA Story" and the other one is of a Starduster test flight. Rumor has it that the star of the test flight film will be visiting with us from the Moultrie area. We need an 8mm projector. If you have one we can borrow, call LeRoy Storey at 323-1082.

Those members who missed the last meeting missed a really good show. Roy Ely, the Atlanta GADO Safety guy put on, as is his style, a great evening of education and entertainment...ask Bob Grier about it! Also, several Chapter members received their FAA Pilot Proficiency Wings at that meeting. For the life of me, I can't remember everyone's name, so I won't name anyone at all.

After the meeting, several members went over to Harold Buck's to see his Sonera I project. It is really nice and it looks like Harold may be the first member from this Chapter to get into the air. By the way, Harold could use a Helping Hand, if you are a real welder.

Swap Shop Action. Want a Coot project? Call Eddie Hodges. How about a nice Thorp 18? Call Bud Schuman for info on this one. Bud also needs a 5.00x5 wheel and brake assembly...as anyone who saw the picture in the paper knows.

Upcoming Events. The next big one is the SunNFun Flyin at Lakeland, Florida. This is a good flyin, in spite of the fact that for the last five Januarys in a row it has been rained, almost blown away and even snowed on! This year the date has been set back to March 16-22 and according to Lyle Flagg, Sun"N"Fun President, warm weather and clear skies are GUARANTEED! March is only a month away, so it is not too early to start making plans. LeRoy will have information on reservations, accommodations, etc at the meeting.

That's about it this time. See you on the 14th.

Gremlin

PS. Just to keep your interest, I try to make at least one mistake in each letter. How many can you find in this one?
