

West Central Georgia EAA Chapter 677  
Columbus, Ga.

November 7, 1985

M E E T I N G S

The November meeting will be held at the Gas Light Auditorium, 1421, 4th Ave., Columbus, Ga. on Nov. 8th, 1985 at 7:30 p.m.

The EAA is going to explain the operation of the proposal (ARSA) Airport Radar Service Area.

I feel like the most important thing we could do is if after the meeting those that are still opposed, write to your congressman. Obtain the name of your congressman from the local post office for your district.

We had a Hot Dog cook out Tues the 29th of Oct. We had a good turn out and everyone had a good time. Thanks again Mr. Hanna for doing all the purchasing and getting things set up for the cook out.

E D I T O R S N O T E S :

I hope that we will have a good turn out for FAA Meeting Friday as I feel the ARSA could affect flying in our area for some time to come.

If the ARSA would make flying safer, I would be all for it. I do not see where the ARSA is any better than the TRSA.

I do see where this could be the start of something, and everytime we turn around they could require more and more equipment and extend the ARSA out more and more. An example is Atlanta that goes out almost to Carrallton, Ga.
