MEETING NOTICE

Thursday, November 10, 1983, First Federal Building,
Bealwood Connector.

PROGRAM

Van Dusen Airport Services and our Chapter are jointly sponsoring a Pilot Proficiency Award Program and Safety Meeting. The attached page explains the purpose and content of this program.

There is no such thing as too much safety information for any one who flies. Make plans now to attend and learn!

CHAPTER NEWS

Don Breeden was seen recently lusting after a local C-150. No decisions yet, but a lot of serious tire kicking. Skipper Barfield's Ercoupe has been out of service lately with brake problems...Hope they have been solved by now. Speaking of Skipper, last weekend yours truly provided him with a skillful demonstration of the technique necessary to accomplish five landings with only two approaches. The word "bounce" has new meaning.

AIRPORT NEWS

Runway 12/30, taxiways, and the parking ramp have had much work accomplished in the last few weeks to fill in numerous cracks that had developed. Should be much smoother now. The Airport Lease Agreements for T-Hangars have been renewed. Many details and conditions for occupancy were clarified to tenants.

COMING EVENTS

None reported....Again. How about some brave soul developing a plan for a get-together with spouses/dates (not both at the same time please). Dick French has suggested a cook-out or similar activity. Any one want to chair this project?
