

EAA Chapter 677

April 1985

April Meeting

Will be held on thursday April 11 th at 7:30 PM at HANGAR 5F (CHARLES HANNA'S T-HANGAR) AT THE COLUMBUS METRO AIRPORT. WE will have a discussion on pilot preformed preventative maintenance (what you legally can and cannot do to your airplane).

Committees

We hope to see some action out of the Program and Newsletter committees soon. What we would like to see for May would be another cookout at the airport, is anyone interested in helping?

Happenings

Nothing specific to mention, Quite a few members are flying or hanging around the airport, with all of the excellent flying weather we are having I'm surprised that we dont see more.

Volmer amphibian

Does anyone know anything about the Volmer or have any experience with one? Mr. Gary Kunday, an instructor at the college would like to find out what he could about them. Call me if you can be of any help and I'll put you in touch with him.

See you at the meeting.

Charles
