PRESIDENTS MESSAGE

Attached to the newsletter is data related to an "around the world flight for peace" by Marjorie Van Vilet, a 65 year old private pilot. The data indicates that this will be a difficult expensive effort, and has the support of many people, including Paul Poberezny. During our January meeting we will discuss this and the possibility of 690 supporting this endeavor.

EAA Super Saturday - Do we have someone who will volunteer to take on this responsibility? We will find out in January.

What do you think about the "hands on" ideas mentioned in the December newsletter? Should we try to build or restore an aircraft component in a structured format? Come to the January meeting with your ideas!

As you saw in the last newsletter the technical counselor program is an important part of our EAA activities. It is our plan to utilize the knowledge of Frank Wilcox and Ed Booth through presentation of technical programs during some of our future meetings.

I, for one, need some experience in correctly safetying bolts. Its one of those activities that looks easy until you try it! I hope in February we can put together a program enabling those who wish to try, to correctly "safety" aircraft bolts.

Our Christmas party was another enjoyable chapter 690 activity. Our thanks to Donna and Mack for all their hard work to put it together. Ken Sharp showed us a sample to illustrate the look of the new airport sign. We hope the spelling is better on the finished product Ken! Ken, Frank and Henry will soon be calling on volunteers for a sign erection work crew.

We are looking forward to an exciting 1989 and will start off in January with a talk by an individual who was involved with the Daedalus project. Daedalus flew 72 miles over the Aegean sea in the spring of 1988 powered only by the pedaling of an olympic cyclist. this should be a very interesting talk. See you Friday January 13th.

Harold Stalcup

JANUARY PROGRAM

Our guest speaker for the January meeting will be Pete Courtney. Pete was one of the scientists who worked on the Daedalus Project, which set a new world's record for human powered aircraft flight. A very interesting program featuring footage of the flight as well as "first hand experience" stories from Pete.

EVENTS // FLYINS

January 13, Meeting at Stone Mt. airport featuring a member of the Daedalus project.

DUES

Chapter dues (\$12.00) are due January 1. Please include your EAA number and expiration date on your check.

"CLASSIFIED"

SONERAI II PROJECT Professionally welded/rust prufed, fuselage on gear, wing spars ready for mod. Complete kit except for fabric, engine and paint - some extras. \$3,700 Firm. Contact Mac Forbes @ 257-1511 or 993-3411.

Escort 110 NavCom \$300, Mac Forbes 257-1511 or 993-3411.

Lark for sale. 1969 Aero Commander 100-180. TTAE 1451, NavCom, ADF, Xponder, 180hp, Asking \$11,650.00. Contact Henry Warner 449-9775.

Looking to buy / or buy into (partnership) either a C-152 or Piper J3 or equivalent. Contact Roger C. Beyer 662-0579

Aircraft band receiver board kit. \$15.00. Joel Levine 394-5466

Vari Viggen project for sale. 30-35% complete. Professionally made metal and fiberglass parts. Almost all parts needed except engine, canopy and outboard wing. Over \$6000 invested, make offer. Don Alspaugh 981-1291

WANTED 2ea Lycoming 180hp engines. Would prefer IO-360 B1, but will consider others, or a cheap light twin. Contact Forrest Wilson 292-5613

CHAPTER TOOLS AND SUPPLIES

All tools and VHS tapes listed below are for use (FREE) by chapter members and are available from Frank Wilcox

Nicopress/cable cutter
Tensiometer 1/8" & 3/32" cable
Magneto timing light
Cylinder base wrenches
Tubing flaring tool
+Tubing bending tool
Spring type tube bender
Compression tester
Ring compression set
Spark plug cleaner set
High tension cable tester

=====
EAA Educational Tapes (VHS):
Welding
Woodworking
Composite Construction
Prescott Pusher Demo
Prescott Pusher Elevator & Trim construction
Flying Over Water, Wake Turbulence, Winter Flying, T.O. and Landing, Basic Radio procedures, and Start-up
Sport Aviation Index of Articles

DEADLINE

The deadline for material to be included in an issue of the 690 NAV-COM is the 20th of the month before the issue is dated.

EXPERIMENTAL AIRCRAFT ASSOCIATION

WITTMAN AIRFIELD, OSHKOSH, WI 54903-3088
PHONE: 414/426-4800

December 14, 1987

Dear Fellow Aviation Enthusiast:

One of our members, Marjorie Van Vliet (EAA 280432), is in process of making plans for a "Flight for Peace" that will begin in the Spring of 1989. Marjorie's flight, which is being sponsored by a non-profit organization called Citizens at Work for World Peace, will be the first of three planned flights designed to help promote a stable and lasting world peace.

Marjorie has been a pilot for more than nine years and has logged over 700 hours. She holds instrument and commercial pilot ratings and says flying has taught her to take control of her life.

EAA supports Marjorie's efforts, and the efforts of all aviation enthusiasts, in bringing our world closer together through aviation. We hope you might consider some type of financial support for Marjorie and the "Flight for Peace" as expenses are expected to approach \$200,000 for this undertaking.

We were very pleased to host Marjorie at our 1987 EAA Fly-In Convention here in Oshkosh and found her enthusiastic, "can do" approach to this monumental project a positive indication of its potential for success. Please consider assisting Marjorie's efforts.

Sincerely,

EXPERIMENTAL AIRCRAFT ASSOCIATION

Paul H. Poberezny
President
